Access, security and humanitarian presence

To bring life-saving assistance to scattered people affected by Hurricane Matthew, humanitarian organizations have to navigate a complex access situation. The very diverse geography, patchy road network, uneven damage to infrastructure caused by the hurricane and sometimes unpredictable security situation have forced aid agencies to use a variety of means to deliver relief. Cut-off communities in hard-to-reach mountainous areas are proving the most difficult to assist.

Symbols legend

- Helicopter landing site *Cargo and passengers*
- Helicopter landing site *Cargo only*
- Major looting Incidents
- Bridge damaged
- Sea transport

Road access

- All trucks
- Heavy Trucks
- Light Trucks
- 4WD

Number of organizations

- 1 - 14
- 15 - 39
- 40 - 73
- 74 - 135
- 136 - 182
