Countries are asked to email their weekly reports to [wpfjisurveillance@who.int](mailto:wpfjisurveillance@who.int)

A red underlined entry indicates that the number of cases is above the threshold of 90% of historical values.

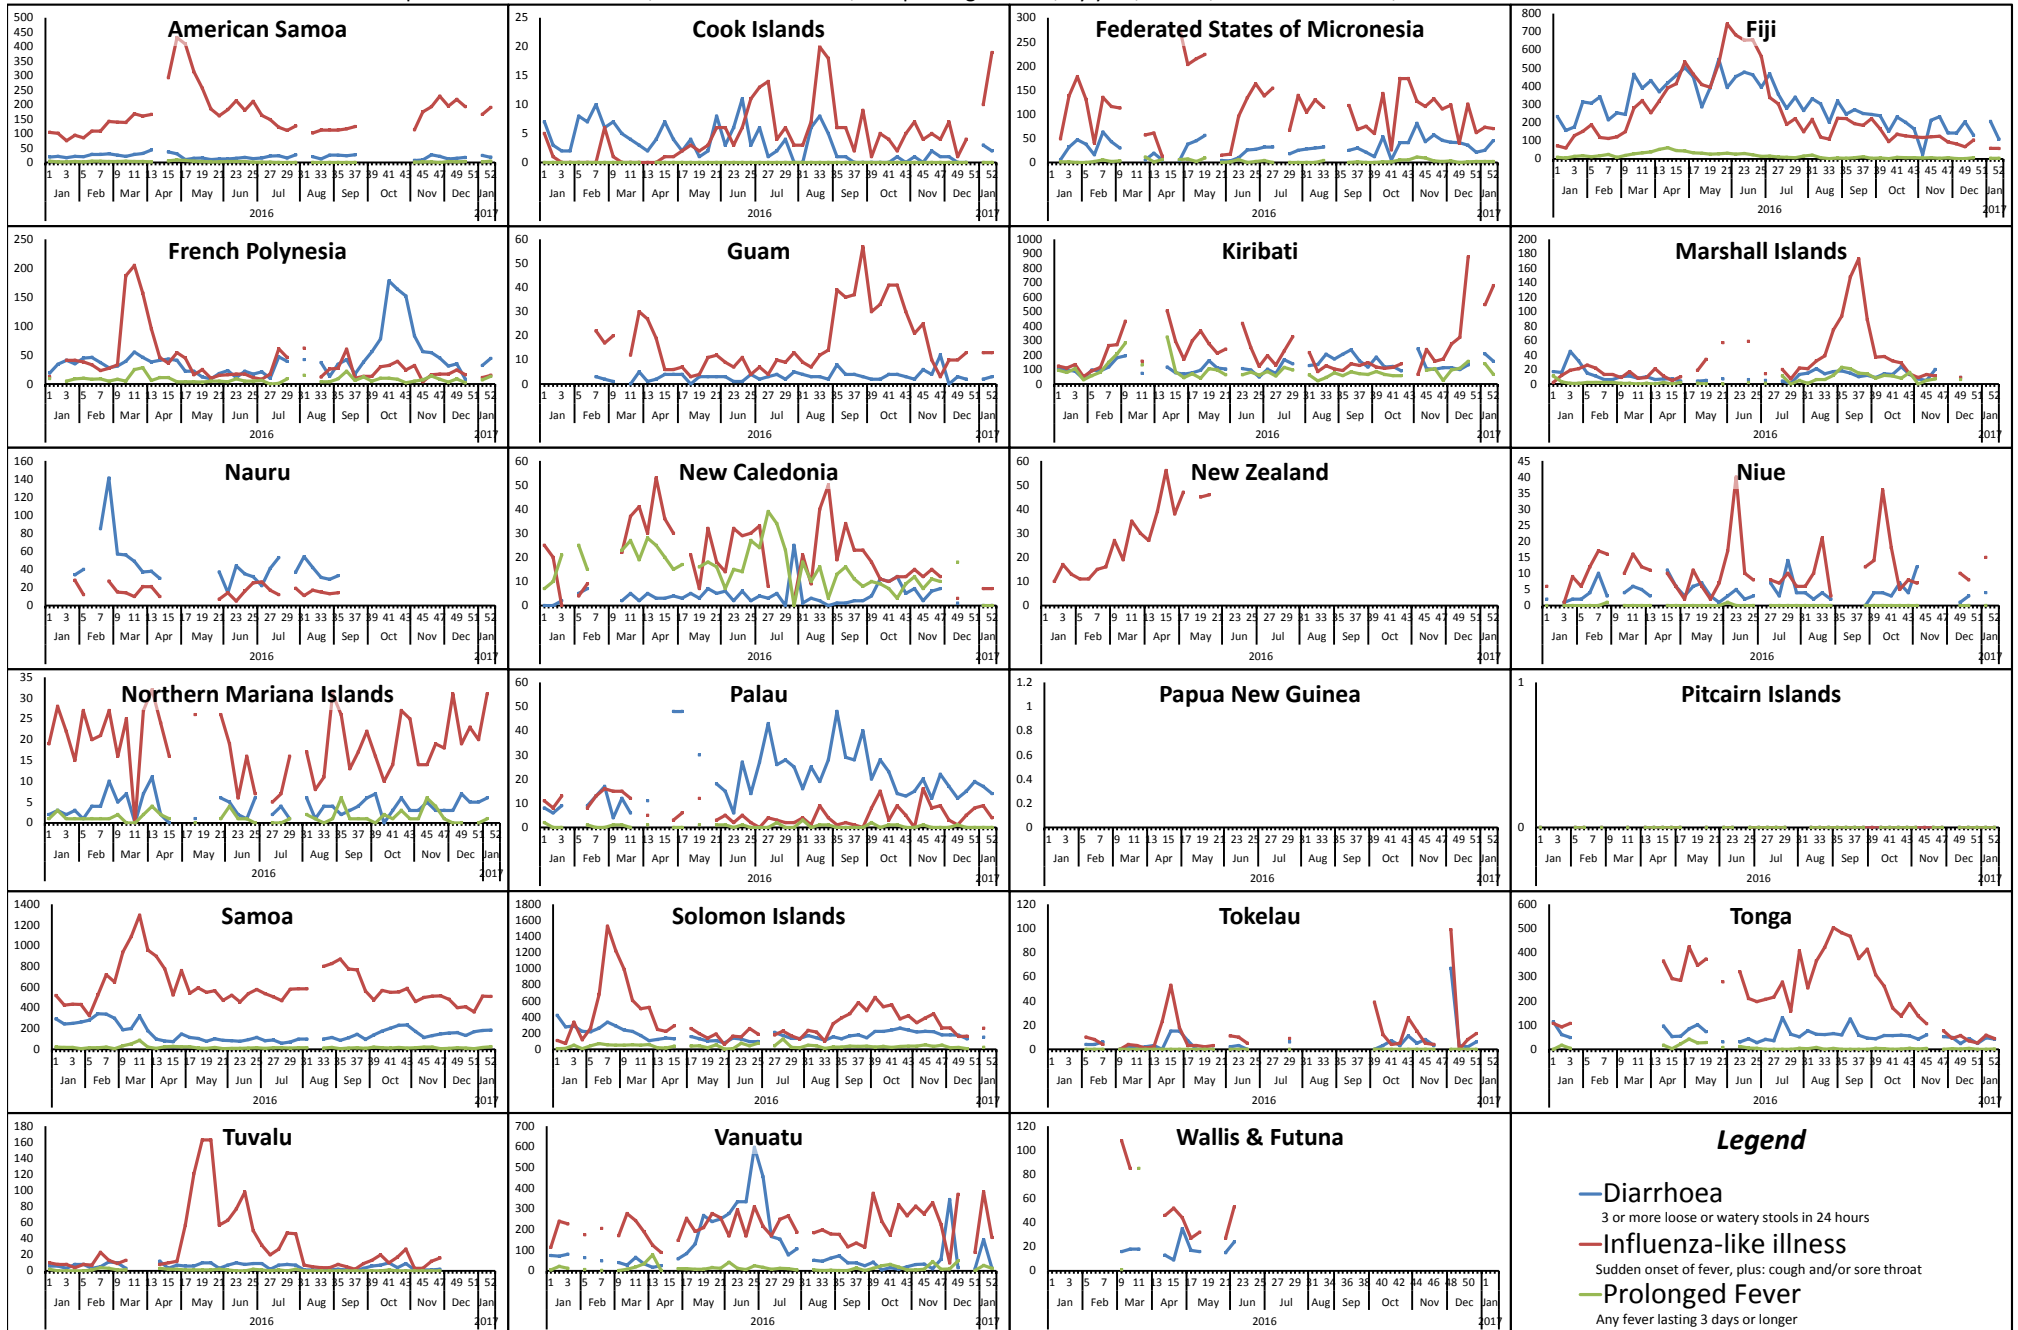

# Pacific Syndromic Surveillance System

2017

week 1

ending 8 January 2017

Reported cases of diarrhoea, influenza-like illness, and prolonged fever; by year, month, and week number; for the last 53 weeks

Note: Numbers of reported cases are not comparable between countries. The purpose of the charts is to show trends over time within each country/area.
