

# HUMANITARIAN RESPONSE PLAN

## LIBYA

HUMANITARIAN  
PROGRAMME CYCLE  
**2022 Review**  
ISSUED JUNE 2022

# About

This document is consolidated by OCHA on behalf of the Humanitarian Country Team and partners. The Humanitarian Response Plan is a presentation of the coordinated, strategic response devised by humanitarian agencies in order to meet the acute needs of people affected by the crisis. It is based on, and responds to, evidence of needs described in the Humanitarian Needs Overview.

## Humanitarian RESPONSE

Humanitarian Response aims to be the central website for Information Management tools and services, enabling information exchange between clusters and IASC members operating within a protracted or sudden onset crisis.

[www.humanitarianresponse.info/en/operations/libya](http://www.humanitarianresponse.info/en/operations/libya)

Humanitarian InSight supports decision-makers by giving them access to key humanitarian data. It provides the latest verified information on needs and delivery of the humanitarian response as well as financial contributions.

[www.hum-insight.com](http://www.hum-insight.com)

The Financial Tracking Service (FTS) is the primary provider of continuously updated data on global humanitarian funding, and is a major contributor to strategic decision making by highlighting gaps and priorities, thus contributing to effective, efficient and principled humanitarian assistance.

# Context analysis

---

At the end of 2021, the Humanitarian Country Team in Libya agreed to extend the Humanitarian Response Plan (HRP) for an additional five months covering programming requirements until 31 May 2022. This decision was based on the findings of the Humanitarian Needs Overview (HNO) and Multi-Sectoral Needs Assessment (MSNA); which verified improvements in the overall humanitarian situation, following a period of relative political and economic stability in the country. The HNO further assessed that 803,000 people remain affected and in need of some form of continued humanitarian assistance, a reduction by 36 per cent from the 1.5 million people identified in 2021, while also noting that no population group factored in at the extreme end of the severity scale. In addition, a recalculation of the number of people with the most severe needs identified targeted assistance for 211,000 people. Although uncertainty prevailed over the political and electoral processes in Libya, displaced Libyans continued to return to their places of origin, noting a further reduction in the number of internally displaced people, standing at 199,949 at the end of November 2021 from nearly 280,000 at the start of the year. In light of these achievements, the five-month HRP extension period allowed the humanitarian community to monitor political and socio-economic developments on the ground, including the outcome of the presidential and parliamentary elections scheduled for 24 December 2021, to determine the nature and scope of humanitarian programming post-May 2022.

However, 2022 began on ambiguous grounds as the postponement of the presidential and parliamentary elections heightened concerns for the potential resumption or escalation of hostilities and armed clashes between rival political opponents. Although sporadic localized clashes of armed groups, particularly in the western region continue, there was no associated relapse into large-scale armed conflict to date. A review

of humanitarian activities covering the first quarter of 2022 indicates that programming was largely unaffected by the political situation, however, the increasing number of bureaucratic and administrative impediments hindered partners' ability to effectively deliver assistance in a timely manner. Concurrently, the start of the crisis in Ukraine led to global price increases for basic commodities, whereby in Libya, the price of wheat flour rose by 15 per cent and the Monthly Expenditure Basket by 32 per cent. The increase in prices raised general concerns on food insecurity and the ability of affected populations to afford food staples, which may lead some to adopting negative coping strategies. Despite bureaucratic barriers and a noted shortfall in funding for some sectors, by the end of March, humanitarian agencies reached 103,000 people, nearly 49 per cent of the targeted population (54 per cent women and 45 per cent men), with lifesaving assistance for non-displaced Libyans, returnees, internally displaced people, refugees and migrants.

The pace of people returning remained steady, however the trend is slowing as those still displaced face more systemic impediments to return, such as houses damaged due to armed conflict and the lack of access to public services upon return, as well as personal security and social cohesion. The cessation of large-scale hostilities and the general improvement in the security situation in Libya allowed Humanitarian Mine Action partners to survey and clear nearly 850,000 square meters, with over 3,400 Explosive Remnants of War (ERW) disposed, further creating favorable conditions enabling the return of displaced populations. By end April 2022, the number of returnees increased to 680,772 individuals, most of whom returned to their places of origin, while 159,996 people remain displaced. Those displaced for a protracted period, face uncertainty with critical protection risks persisting with an increase in the number of

forced evictions and returns not meeting international standards as well as the lack of durable solutions.

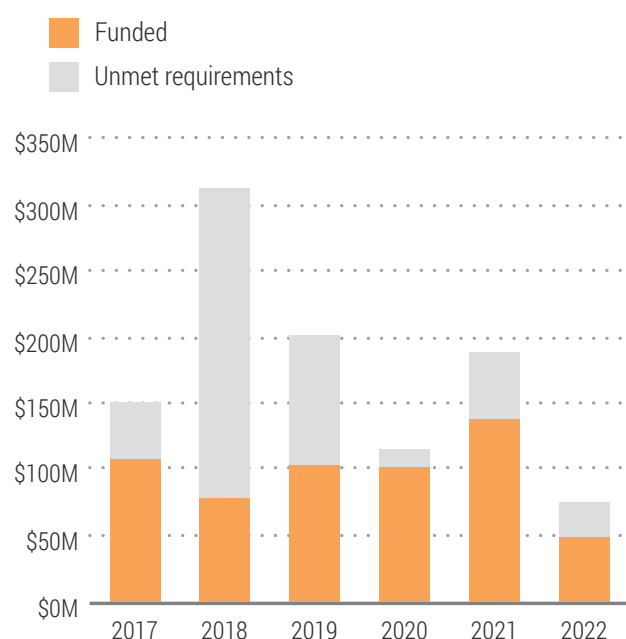

Eviction notices issued to IDP settlements increased significantly during the first quarter of 2022, affecting primarily displaced families from Tawergha. In early March, for example, the Dawaa Eslameya IDP settlement in Tripoli, hosting 113 Tawerghan families, were told to vacate the premises within weeks, without the provision for an alternative solution addressing their decade-long protracted displacement status. Although an agreement was reached with authorities delaying the eviction, there are nearly 2,600 households living in IDP settlements across the Tripoli and Benghazi regions facing closure. On 2 May, two IDP settlements in Tripoli, Fallah 1 and Fallah 2, comprising a total of 506 families, were given notice to leave the premises the following day. Despite advocacy efforts undertaken with the Attorney General's office, families were eventually coerced to leave the site, with reportedly, many not allowed to access the site to collect their belongings. According to LibAid, some 15

per cent of the IDPs returned to Tawergha, while the remaining families found temporary accommodations around Tripoli. Access to education for school-age children was disrupted, and the toll of psychological distress will impact all displaced populations with the threat of eviction looming.

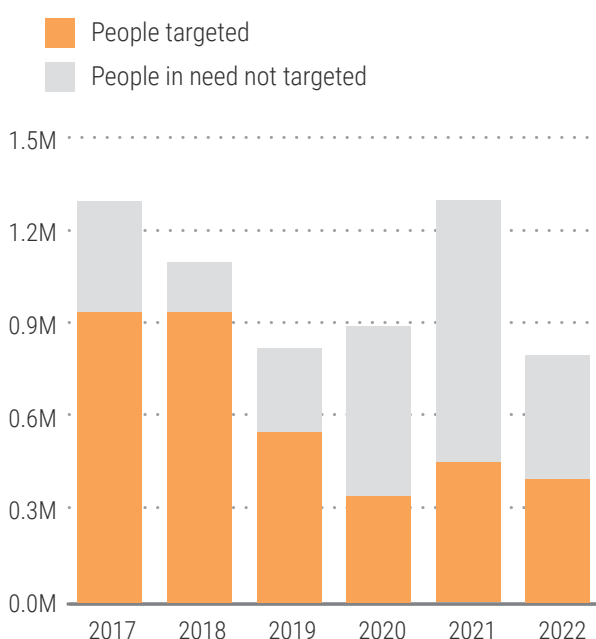

The number of migrants, refugees, and asylum seekers continue to increase, with a total of 649,788 individuals recorded in Libya by the end of April 2022, mirroring pre-pandemic migration dynamics. Although the humanitarian situation for the Libyan population is improving, for non-Libyans, such as, migrants, refugees and asylum seekers, the situation is further deteriorating. Forced evictions and widespread security operations targeting migrants, refugees and asylum seekers during the latter part of 2021 into the beginning of 2022 led to the arrest of several thousand individuals, resulting in the separation of families, and causing most to go into hiding. Their status remains precarious, especially as there is no legal framework that enables humanitarian actors to

## Historic trends

**FINANCIAL REQUIREMENTS (US\$)**

**NUMBER OF PEOPLE IN NEED VS TARGETED**

provide assistance to migrants and refugees in a safe and predictable manner, without consideration of the legality of their standing in the country. The detention of migrants, refugees and asylum seekers, including minors, by government authorities is arbitrary and contrary to international obligations and legal norms, thus contributing to human rights abuses, and further exposing them to the risk of human trafficking, sexual and gender-based violence, forced labor, among other criminal activities.

In parallel to the rising number of migrants recorded in Libya, the number of people attempting to make the dangerous journey across the Mediterranean Sea also continues to increase. Humanitarian partners continue to stress that Libya is not a safe port of disembarkation, and as of 28 May, more than 7,000 migrants and refugees were intercepted/rescued by the Libyan Coast Guard and returned to Libya, so far this year. Of the total number intercepted, over 290 were minors, while 600 individuals were reported dead or missing. Most of the refugees and migrants returned are transferred from disembarkation points into detention centres, held under inhumane conditions without access to due process and humanitarian services. As of 29 May, more than 2,400 individuals were being held in government detention centres, with serious concerns about the whereabouts and fate of hundreds of other people intercepted at sea and detained by a range of armed groups. Humanitarian partners have been unable to verify reports of informal detention facilities managed by armed security groups, where an estimated 5,000 individuals are believed to be held, due to a lack of access.

Access to affected populations is inconsistent, while International NGOs are also reporting increased scrutiny over their activities by national authorities, raising questions about the working environment, and the shrinking of operational humanitarian space across the country.

With the rate of evictions becoming more commonplace, the need to ensure a national durable solutions strategy based on the Centrality of Protection framework, is a key priority. Momentum is building in this regard with the UN and Libyan authorities working collaboratively to formulate guidelines on a national strategy with government-led initiatives for the remaining displaced population, encompassing solutions not only on displaced populations returning to their places of origin, but also local integration and resettlement. In unison with these strategies, capacity building efforts must be further enhanced to rehabilitate basic infrastructural services, as well as increasing corporation with line ministries to ensure that all vulnerable people in Libya are registered for support from local authorities.

Humanitarian partners have scaled up coordination with national counterparts, which includes agreements reached with the Ministry of Social Affairs in improving Libya's capacity on data collection and analysis to ensure all vulnerable populations are identified for continued assistance. Humanitarian partners are also working collaboratively with humanitarian-development-nexus counterparts on socio-economic vulnerability, adopting tools and methodologies used by development actors to help bridge humanitarian/development/governmental assistance to reduce peoples' needs, risks, and vulnerabilities.

# Programming June – December 2022

The Libya 2022 Humanitarian Response Plan published at the end of December 2021, sought a total of US\$ 75.3 million in funding to support targeted assistance for 211,000 people with the most severe needs, covering programming activities from January to 31 May 2022 and encompassing 91 projects. As of 28 May, the HRP has received a total of \$48.3m, 64 per cent of the total \$75.3 million requirement, with 47 projects implemented, out of 91. Moving forward post-May, the HRP was revised to ensure that the remaining humanitarian needs of IDPs, returnees, non-displaced Libyans, migrants and refugees are properly targeted for continued programming by both humanitarian partners and national authorities. Focus on building capacity of national counterparts is being prioritized, while working in conjunction with development partners to ensure a smooth transition towards addressing vulnerability and socio-economic impediments, such as rising food prices and the rehabilitation of basic services.

Since the postponement of the elections at the end of 2021, uncertainty prevails over the political landscape, with concerns mounting over the potential resumption or escalation of hostilities and violence. The lack of unification among government entities further complicates efforts in reaching consensus towards the agreed allocation of funds for continued programming needs. Although the continuation of humanitarian programming is contingent upon the political and security situation, progress has been made in Libya, especially over the past year, with humanitarian conditions improving, as evidenced with a significant reduction in the number of vulnerable populations on the high end of the severity scale. The number

of people internally displaced is steadily decreasing, while most returnees, around 98 per cent, returned to their places of origin due to the improved security situation, highlighting the will of Libyans to rebuild their lives and communities.

The emergence of armed groups, increased interceptions at sea by non-governmental actors and informal detention centres; mass arrest campaigns targeting migrants and refugees; the increase of evictions threats against families; ensuring the survey and clearance of explosive ordnances from priority returnee areas; and the fragile state of neglected facilities, are all issues requiring further examination by the humanitarian community to ensure that the needs of vulnerable populations are being addressed. The provision of ongoing protection services and support for migrants, refugees and asylum seekers, including increased access, will require targeted interventions from humanitarian partners as well as advocacy at the government level for durable solutions. As the number of people in need of humanitarian assistance decreases, it is becoming incumbent on the government to ensure a safety net is in place and to ensure that they have the capacity and resources to deliver basic services to all populations in Libya, particularly IDPs and returnees. The 2022 HRP requests a total of \$113.8 million for humanitarian programming until 31 December 2022, to ensure targeted lifesaving assistance for 400,000 people most in need, including: 120,000 IDPs; 29,000 Returnees; 118,000 Non-displaced Libyans; 88,000 Migrants; and 44,000 Refugees.

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 1</b>	Respond to outbreaks of disease and risks to physical and mental wellbeing, while strengthening the protection of civilians in accordance with international humanitarian law, human rights law and other international legal frameworks		398,930
<b>Sector Strategic Objective</b>	Increase access to life-saving and life-sustaining humanitarian health assistance, with an emphasis on the most vulnerable (including IDPs, migrants, refugees and returnees) and on improving the early detection of and response to disease outbreaks.	# of outpatient consultations (excluding mental health, trauma consultations, physical rehabilitation)	1,162,700
		# of nutrition assessments (SMART survey) conducted	1
		# of children aged 6-59 months (girls & boys) received emergency nutrition services	5,500
		# of patients referred for treatment between different levels of care and locations	7,000
		# of trauma/injury related consultations	20,000
		# of mental health consultations	5,500
		# of physical rehabilitation (disability) sessions/ consultations	3,000
		1.1.6 # of vaginal deliveries attended by a skilled attendant	1,500
		# of caesarian sections supported	300
		# of health facilities and community centers providing MHPSS services	150
		# of mobile medical teams/clinics (including EMT)	60
		# of vaccination centers received cold chain equipment	75
		# of vaccinators trained on cold chain and vaccine management	2,000
		Percentage of reporting sites submitting the reports in a timely manner	250
		Percentage of disease outbreaks responded to within 72 hours of identification	200
		# of medical procedures provided (inter-sector indicator)	1,200,000

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		132,909
<b>Sector Strategic Objective</b>	Increase access to life-saving and life-sustaining humanitarian health assistance, with an emphasis on the most vulnerable (including IDPs, migrants, refugees and returnees) and on improving the early detection of and response to disease outbreaks.	# of EWARN sentinel sites	250
<b>Sector Strategic Objective</b>	Strengthen health system capacity to provide the essential package of health services and manage the health information system.	# of coordination meetings at the national and sub-national levels	36
		# of completed health sector assessments conducted	12
		# of attacks on health care reported	-
		# of public PHC facilities supported with health services and commodities	600
		# of public secondary health care facilities supported with health services and commodities	50
		# of provided medical equipment	650
		# of provided standard health kits	650
		# of provided PPE (personal protective equipment) materials	1,200,000
		2.3.1 # of health facilities supported with mobile medical teams	60
		# of public health facilities refurbished and/or rehabilitated	30
		2.3.3 # of IDP camps/settlements covered by fixed health points and/or mobile medical teams	20
		# of official detention centers covered by fixed health points and/or mobile medical teams	20
		# of disembarkation points covered by fixed health points and/or mobile medical teams.	14
		# of public health facilities supported with services and commodities (inter-sector indicator)	650
<b>Sector Strategic Objective</b>	Strengthen health and community (including IDP, migrants and refugees) resilience to absorb and respond to shocks with an emphasis on protection to ensure equitable access to quality health care services.	# of health service providers trained through capacity building and refresher training.	1,500
		# of community health workers trained through capacity building and refresher training.	600
		# of health workers trained on CMR (Clinical management of rape)	100

## Multi-Purpose Cash Assistance

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		33,011
<b>Sector Strategic Objective</b>	Support vulnerable households to meet their urgent basic needs through the provision of emergency multi-purpose cash assistance	# of Individuals who receive the full amount of the emergency one-off cash assistance (disaggregated by gender of HoHH)	8,166
<b>Sector Strategic Objective</b>	Support socioeconomically vulnerable households to meet their basic needs through the provision of multi-month multi-purpose cash assistance	# of Individuals who receive the full amount of the multi-month cash transfer	24,845

## Protection

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 1</b>	Respond to outbreaks of disease and risks to physical and mental wellbeing, while strengthening the protection of civilians in accordance with international humanitarian law, human rights law and other international legal frameworks		28,468
<b>Sector Strategic Objective</b>	Enhance the protective environment and reinforce community ownership of protection initiatives by strengthening accountability to affected populations and promoting meaningful engagement and capacity-strengthening with communities, authorities and local actors.	# of persons reached with awareness raising activities	27,314
		# of informal community committee leaders and members who receive training/capacity support (cumulative interventions).	568
		# of persons (humanitarian workers, CSO members and local/ national authorities) who receive training/capacity support (cumulative interventions).	586
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		52,744
<b>Sector Strategic Objective</b>	Identify and respond to the protection needs and promote the rights of Libyans and non-Libyans through the provision of specialized protection services and strengthening of integrated protection	# of individuals receiving legal counselling or assistance, including civil documentation and HLP issues (cumulative interventions).	16,637
		# of individuals assisted with integrated protection response provided through livelihood, income generation other socio-economic support	1,349
		# of individuals reached through protection services, including individual targeted assistance for persons with specific protection needs (includes MHPSS) (cumulative interventions).	34,758

## Child Protection

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 1</b>	Respond to outbreaks of disease and risks to physical and mental wellbeing, while strengthening the protection of civilians in accordance with international humanitarian law, human rights law and other international legal frameworks		30,304
<b>Sector Strategic Objective</b>	Strengthen community-based child protection to enhance protection of children from violence, abuse and exploitation in targeted location.	# of caregivers, children and community members trained and/or sensitized on CP issues incl. CP and GBV risks, CP/GBV referrals (disaggregated by age/sex/disability)	3,743
		# of children and caregivers benefitting from gender, age and disability sensitive MHPSS activities	26,478
		# of non-child protection actors (national/local authorities/ civil society actors) trained on CP concepts, including CP mainstreaming (disaggregated by age/sex)	83
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		5,265
<b>Sector Strategic Objective</b>	Increase availability of and access to quality child protection specialized services	# of child protection actors trained on specific CP technical areas (disaggregated by age/sex)	2,620
		# of children receiving age, gender and disability sensitive case management services	2,645
		# of girls and boys referred for specialized services (refers to children already receiving case management services referred for additional services, regardless of who is providing the additional service).	2,620

## Gender-Based Violence

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 1</b>	Respond to outbreaks of disease and risks to physical and mental wellbeing, while strengthening the protection of civilians in accordance with international humanitarian law, human rights law and other international legal frameworks		31,600
<b>Sector Strategic Objective</b>	Strengthened capacities and coordination among service providers, national/local institutions and communities in GBV response, prevention and risk mitigation	# of individuals trained on GBV Prevention and Response, Case Management including static, mobile and remote service delivery	500
		# of non-GBV frontline workers trained on GBV core concepts in line with GBV guiding principles	150
		# of people reached with awareness sessions on GBV prevention and response and service availability	31,600

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		6,400
<b>Sector Strategic Objective</b>	Improved access to safe, timely, confidential and coordinated GBV services in line with GBV Guiding Principles and the survivor-centered approach	# of dignity kits distributed	4,000
		# of referral pathways in place	4
		# of safety audits conducted	2
		# of women and girls participating in life skills activities	3,600
		# of women and girls participating in structured PSS activities	6,400

## Mine Action

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 1</b>	Respond to outbreaks of disease and risks to physical and mental wellbeing, while strengthening the protection of civilians in accordance with international humanitarian law, human rights law and other international legal frameworks		398,930
<b>Sector Strategic Objective</b>	Strengthen the protection of individuals and communities from the risks and impact of explosive hazards.	# of direct beneficiaries benefiting from risk education	33,500
		# of explosive hazard items removed	3,220
		# of services delivered	-
		# risk education campaigns conducted	1
		m2 cleared from explosive hazards	650,000
		Total of m2 of contaminated area newly identified (SHA and CHA)	730,000
		Total of m2 surveyed	16,000,000
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		67
<b>Sector Strategic Objective</b>	Enhance national Mine Action operational capabilities to mitigate the risks and impact of explosive hazards.	# of people trained	67

## Shelter & NFIs

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		71,159
<b>Sector Strategic Objective</b>	Provide humanitarian life-saving and life-sustaining shelter and NFI support	# of people assisted with core and essential NFI items	65,849
		# of people assisted with rental assistance.	40
		# of people assisted by rehabilitated collective centers	60
		# of people assisted by upgraded unfinished buildings	284
<b>Sector Strategic Objective 2</b>	Contribute towards the resilience and social cohesion of communities and households by improving housing and related community/public infrastructure	# of people assisted by rehabilitated damaged houses	3,940
		# of people assisted by repaired/rehabilitated community/public infrastructure	3,790
		# of people assisted by repaired/rehabilitated community/public buildings	160

## Water, Sanitation & Hygiene

	OBJECTIVE	INDICATOR	TARGETED
<b>HRP Strategic Objective 1</b>	Respond to outbreaks of disease and risks to physical and mental wellbeing, while strengthening the protection of civilians in accordance with international humanitarian law, human rights law and other international legal frameworks		28,966
<b>Sector Strategic Objective 1</b>	Increased awareness on COVID-19 Infection Prevention and Control (IPC) measures	# of people reached with Covid-19 assistance	28,966
<b>HRP Strategic Objective 2</b>	Enhance safe, equitable and dignified access to critical basic services and livelihoods to enhance people's resilience and ensure they meet their basic needs		95,140
<b>Sector Strategic Objective</b>	Most vulnerable population groups affected by humanitarian crisis are provided with life-saving WASH assistance.	# of people with access to safe drinking water	25,345
		# of people with access to adequate sanitation services	28,966
		# of people provided with hygiene materials (in kind/cash) and information	31,645
		# of people provided with basic WASH facilities in schools and Health Centres	24,310
<b>Sector Strategic Objective</b>	WASH Sector partners capacity strengthened on water and sanitation responses in emergencies and pandemics	# of Govt, I/NGOs offices provided with technical supplies	2
		# Government, I/NGOs staff trained on emergency preparedness and response planning and WASH in Emergencies and pandemics	91
