activity

Disaster type: Earthquake (6.5 on Richter scale)

Disaster date: 24 February 2004

Data source: USGS, Univ. of Maryland

Resolution: 30 m

Image acquisition date: 9 February 1987

Datum: WGS84

Projection: Latitude-longitude

Map created 24 February 2004.

The International Charter on Space and Major Disasters aims at providing a unified system of space data acquisition and delivery to those affected by natural or man-made disasters through authorized users. Since 1 July 2003 the Charter is available to support the United Nations with satellite imagery. Contact the UN Office for Outer Space Affairs for further information (ooosa@unvienna.org).

The depiction and use of boundaries, geographic names and related data shown here are not warranted to be error free nor do they necessarily imply official endorsement or acceptance by the United Nations.

This map was produced by the UNOSAT project headed by UNITAR and executed by UNOPS. UNOSAT is a UN-Private consortium providing satellite imagery and related geographic information to UN humanitarian and development agencies and their implementing partners. See www.unosat.org for further information.
