**This bi-weekly news brief comprises threats and incidents of violence affecting the delivery of humanitarian assistance.** It is part of the Aid in Danger project, by Insecurity Insight. It is prepared from information available in local, national and international news outlets and online databases. The incidents reported are not a complete nor a representative list of all events that affected the provision of aid delivery and have not been independently verified. All decisions made, on the basis of, or with consideration to, such information remains the responsibility of their respective organisations.

Each month we release the latest available data on aid workers **killed, kidnapped or arrested (KKA)**. It is continually updated and includes new and historic reports identified in open-sources and verified security incidents submitted by Aid in Danger partner agencies. Data collection is ongoing, and data may change as more information is made available.
