Last 12th of May was the International Nurses Day celebrating the birthday of Florence Nightingale, pioneer of the modern nursing. MdM would like to take this opportunity to celebrate and thank all nurses who are essential healthcare providers. Nurses have been at the frontline of the response, especially during COVID-19 crisis. Thank you!

My name is Amal. As a nurse, I work in the treatment room in Khanasor PHCC in Sinjar. During COVID-19, I left Kurdistan to work in Sinjar. At the checkpoint, I had to commit not to return home for the next 3 months. I agreed to help the patients in Khanasor. It has been 10 days that I live with my aunt.

My name is Khalaf and I am working as a Nurse in Chamesku IDP camp. On the 12th of May 2020, I celebrated with my other colleagues while working and serving people in Chameshku camp. I am happy to help the people in need with support of MdM.
COVID-19 MDM RESPONSE
ACTIVITY UPDATE // 22nd APRIL 2020

  - # of male 18+

AWARENESS BENEFICIARIES BY AREA OF INTERVENTION

CONTEXT

24/02/2020: First case of Covid-19 recorded in Iraq in Najaf city, coming from Iran.

Since 14/03, a curfew was in place with strict restriction of movements and airports closed. Since the 24/04, a partial curfew is in place from 7pm to 7am while movements between governorates are still limited. Access is also challenging for NGOs who have to request for access letters to move.

12/05/2020: 3032 confirmed cases, 115 fatalities and 1966 recoveries.
