

This report is produced by ISCG in collaboration with humanitarian partners. It covers 15 - 20 January 2018. The next report will be issued on 28 January 2018.

688,000 new arrivals are reported as of 21 January, according to IOM Needs and Population Monitoring (NPM) Baseline survey prior to Round 8. The full dataset can be found [here](#). The increase in the number is not as a result of a significant influx, but due to strengthened assessments.

The UNHCR Family Counting and the NPM Round 8 are ongoing, both will evaluate and triangulate the datasets. The UNHCR Family Counting and NPM will continue to monitor and triangulate the population figures and report independently based on their individual methodology.

688,000

Cumulative arrivals since 25 Aug 2017

585,000

Total refugees in Kutupalong-Balukhali Expansion Site¹

237,000

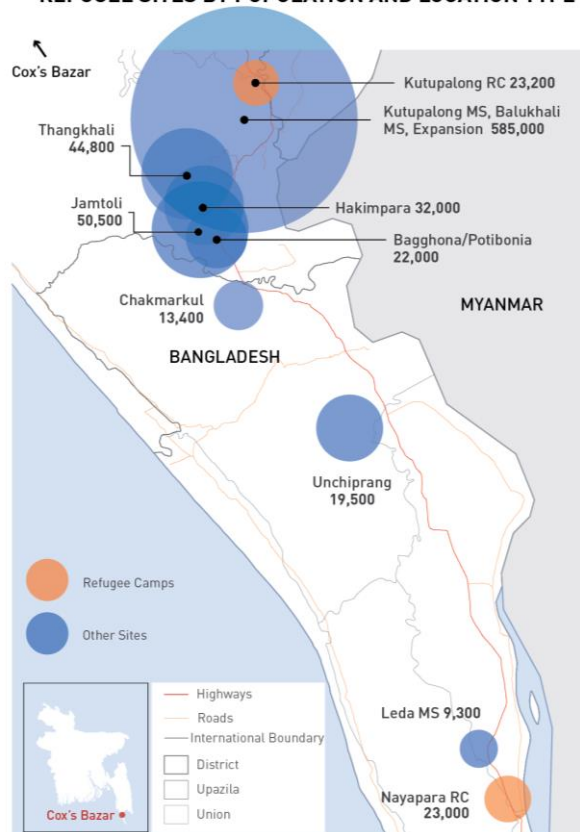

Total refugees in other settlements and camps

79,000
