

In 2016, the humanitarian community in Pakistan plans to **target the most pressing needs of 3.6 million people**. Under the Humanitarian Strategic Plan, the humanitarian community will target 1.2 million people that have been displaced (IDPs) from FATA, 0.6 million IDPs that have returned to FATA, 1.5 million registered Afghan refugees and 0.3 million children and women that are both malnourished and disaster-affected. In addition, the humanitarian community will support the Government with preparedness activities for future natural disasters.

2016 is set to be a year of returns with the Government planning to facilitate the return of nearly all (96 per cent) people still in displacement. Continued efforts will be made to ensure that IDP returns are voluntary, safe dignified and conducted according to humanitarian principles. Other key activities under the Strategic Plan include providing 1.5 million IDPs with food, 0.5 million with emergency shelter and 0.8 million with improved access to WASH.

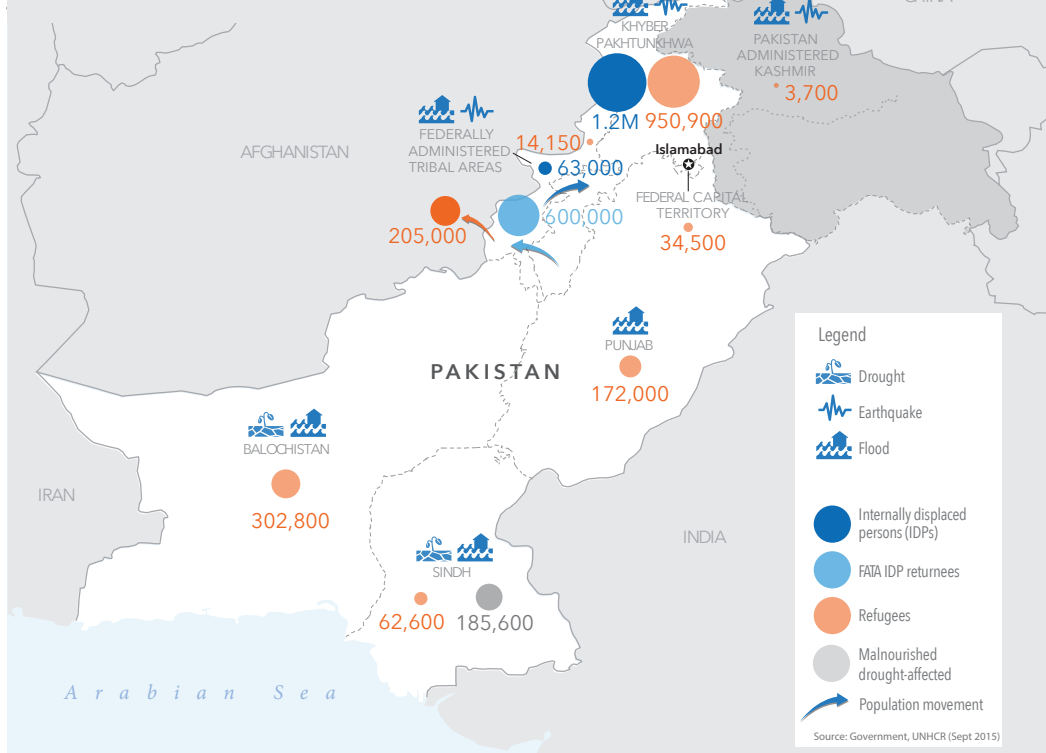

Actual and planned IDP caseload in host and return areas

Voluntary Afghan refugee returns

Natural disaster risks and complex crises

## Strategic objectives of the humanitarian community in Pakistan in 2016

- Support the humanitarian and protection needs of IDPs that remain displaced and those that have returned, ensuring a smooth transition to longer-term recovery and development
- Ensure protection, provide assistance and seek lasting solutions for Afghan refugees in Pakistan
- Reduce rates of acute malnutrition among children under five years, and pregnant and lactating women in disaster affected areas
- Strengthen humanitarian preparedness for a coordinated and effective response at local, provincial and national levels
