

The Humanitarian Pooled Fund (HPF) mobilises and provides resources to humanitarian partners to respond to the critical needs of millions of people affected by the devastating humanitarian crisis in Yemen. The Fund operates within the parameters of the Humanitarian Response Plan (HRP), with the objective to expand the delivery of humanitarian assistance in partnership with national and international NGOs and UN agencies. Since the intensification of the conflict in March 2015, the HPF has provided millions of dollars to meet critical life-saving needs, including the provision of healthcare, clean water, sanitation services, food and shelter materials.
