

IOM field visit in Sinjar, 16<sup>th</sup> September 2018

## NEEDS ANALYSIS

As per the IOM-led DTM report, **1.87 million IDPs** and **4.11 million Returnees** have been identified across the country, from January 2014 to 31<sup>st</sup> October 2018.

The number of IDPs keep decreasing (from 2.6 million, end of Dec.'17 to 1.87 million, end of Oct.'18); while the numbers of returnees has increased (from 3.2 million, end of Dec.'17 to 4.11 million, end of Oct.'18).

- **29.9%** of the 1.87 million IDPs are **in camps**, while **62.2%** are currently **in private settings** (in rented accommodation or with host families); **7.8%** remain in **critical shelter** arrangements (unfinished/abandoned building; school/religious buildings and informal settlements) and **0.1%** in other **unspecified shelter** types.
- **98.0%** of the returnees are in their **habitual residence** while **2.0%** live in **critical shelter arrangement** such as informal settlements, unfinished and abandoned buildings, schools, religious structures.

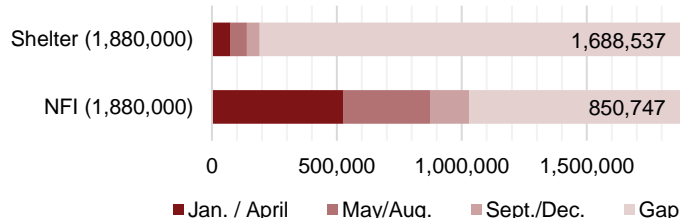

## CURRENT CLUSTER INTERVENTIONS (1<sup>st</sup> Jan. – 31<sup>st</sup> Oct. 2018)

- Out of the overall target of 1.9 million, **1,029,253** people have been assisted with **NFI kits**; **191,463** of which have also benefited from **shelter interventions**. The coverage for NFI kits stands at **55%** of the cluster target; and the coverage for shelter stands at **10%** of the cluster target. From the total reached beneficiaries:
- **732,882** people living in camps and informal settlements have been reached with NFI kits; **61,925** of which were provided with emergency shelter interventions.
- **189,558** highly vulnerable returnees have been reached with NFI kits; **122,458** of which were assisted with emergency repairs of war damaged houses including the provision of sealing-off kits.
- **24,381** highly vulnerable newly displaced have been reached with NFI kits; **823** of which were assisted with emergency shelter interventions.
- **82,432** highly vulnerable people who are not covered by social protection system have been assisted with NFI kits; **6,257** of which have been assisted with emergency upgrade/repair of basic shelters.
- Cluster partners also distributed seasonal clothing to the most vulnerable; thus **22,817** babies (0-1 year), **81,246** infants (2-5 years), **98,797** children (6-11 years), **36,630** adolescents (12-18 years) and **8,291** adults (over 18 years) were reached, allowing **247,781** ind. to improving their dignity but also to cope with cold weather conditions.

## GAPS / Constraints and Key Critical Issue

- The Shelter Cluster finalized the winter response plan based on a needs and gaps analysis together with the responding partners. While camps across Iraq will be covered with winter top up (kerosene heater and jerry can), critical gaps remain in out of camp locations.
- Advocacy for timely distributions of kerosene to IDPs and the replacement of the MoMD's tents has been ongoing with the government.
