

Danwadag IDP shelter project in Dhobley

CLUSTER SPECIFIC OBJECTIVES

- SO1: Contribute to the protection of newly displaced people and those affected by natural hazards. (NFIs, ESKs)
- SO2: Improve the living conditions of the protracted internally displaced persons (Transitional shelters, NFIs)
- SO3: Facilitate access to durable solutions for IDPs that are willing to locally integrate or return (Permanent shelters)

NEEDS ANALYSIS

- Somalia faces an enormous internal displacement crisis, fuelled by drought, conflict, forced evictions and floods. There are around 2.6 million people are internally displaced in Somalia currently residing in urban and peri-urban informal settlements. Most of the IDPs are living in crowded settlements, without sufficient access to basic services, with poor shelter conditions that raise protection and health concerns. The IDPs remain in need of improved Shelter and NFIs support, for protection from harsh climatic conditions, overall improvements to their living conditions and to improve their chances of accessing livelihoods and durable solutions.

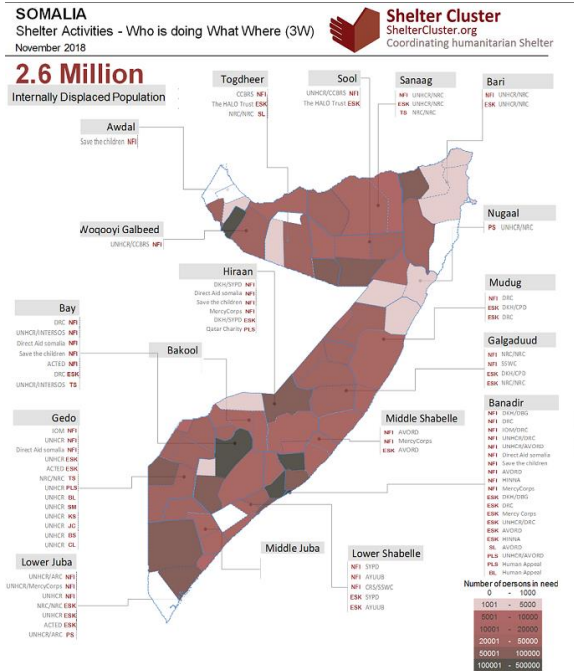

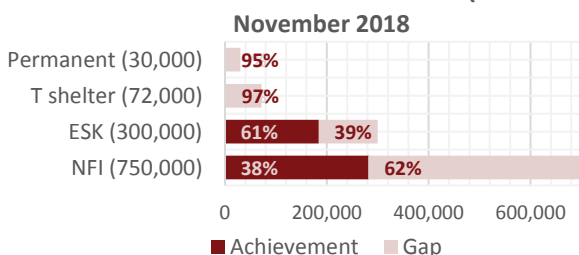

GAPS / CHALLENGES

Low funding is an outstanding challenge is Shelter response in Somalia. Owner driven approaches have been demonstrated to give beneficiaries more value for money. There is therefore need to build partners' capacity on cash programming. More data needs to be captured in order to use existing functioning markets to respond to emergencies. In some when land is provided by the government e.g. in Baidoa, Kismayo and Galkacyo, partners lack sufficient resources to support them to relocate. In this regard, there is need to support affected population to be self-reliant, as opposed to constantly relying on humanitarian aid.

RESPONSE

In November 2018: 6233 persons were assisted with emergency non-food assistance. Emergency NFI packages including plastic sheeting, blankets, jerry cans, sleeping mats and kitchen sets. These are core items for daily household use and survival.

RELOCATING TO BETTER SHELTERS

Gaalkayo town of Somalia is home to about 25,000 IDP households.

The Municipality of Galkacyo district and the Regional Administration of the Mudug Region have agreed to provide a permanent lands for 1,150 head of IDP households by the end of the year. Currently, UNHCR is supporting with the process with construction of 102 shelters in Galkacyo District (State of Puntland) by the end of December.

Permanent housing units for IDPs in Tawakal – UNHCR Gaalkayo

The project is done in partnership with other UN agencies and NGO partners. UNICEF has already committed to build a school with six classrooms, latrines and a borehole. DRC plans to provide solar lights and construct a community centre. While the Regional Administration of the Mudug region will provide the physical security.

There will still be GAPS to cover with regards to shelter.
