MAJOR HIGHLIGHTS

• The first allocation of the Syrian Humanitarian Fund is expected to be USD 25 million for all sectors with a focus on reaching areas that were previously inaccessible or expected to have high return. The NFI sector has advocated for inclusion of NFIs for IDPs in newly accessible areas, returnees and host communities in underserved areas of Rural Damascus, Qunetira and Dara’a.

• NFI sector partners continue to respond to the needs in Al-HoL camp in Hasakeh Governorate, All new arrivals have received core NFIs and winterization assistance, benefiting 19,700 families since 4 December, including former residents. Future arrivals will continue to receive non-food items; including mattresses, blankets, sleeping mats, plastic sheets, jerry cans, kitchen sets and solar lamps.

NUMBERS IN BRIEF

TOTAL NFIs DISTRIBUTED

- 2,487,255 TOTAL AS OF June 2019
- 936K CORE NFI
- 1.5M SUPPLEMENTARY NFI

BENEFICIARIES ADEQUATELY SERVED

- 488,290 CORE NFI
- 2.9M HRP TARGET

- 2.6M SUPPLEMENTARY NFI
- 2.9M HRP TARGET

OVERALL REACHED BENEFICIARIES

- 2,652,853 TOTAL BENEFICIARIES AS OF JUNE 2019 WHO RECEIVED AT LEAST ONE NFI ITEM
**CRISIS BACKGROUND:** The crisis in Syrian Arab Republic that started in March 2011 has transformed into a complex emergency that has displaced around 6.2 million people in various parts of the country. As per the 2019 Humanitarian Needs Overview, around 11.7 million people are in need of humanitarian assistance of which around 5.4 million people are in need of NFI support and other multi-sectorial assistance as they continue to struggle in an unsafe and uncertain environment. The degree of resilience and positive coping mechanism of the affected population have gradually reduced due to the protracted nature of the hostilities. Purchasing power and the ability to provide for their basic household needs have decreased due to economic recession that left many people unemployed and the prospect of accessing essential household items has also declined due to limited access in some areas.

**GAPS AND CHALLENGES**

- Based on last year’s NFI Post Distribution Monitoring, the key challenges include a limited number of NFIs, poor NFI quality including distribution of damaged items (i.e., broken solar lamps, or wet mattresses), and unorganized distribution. Other reported distribution challenges include unequal distribution, delayed distribution of seasonal items, far distribution point, and non-adherence to minimum standards of distribution point.

- Access and safety are the key challenges in some parts of the country as well as partner capacity and heavy processes along with funding constraints.

- Lack of actual data on distribution recipients prevents the sector to better measure the actual reached and served beneficiaries.

- Lack of income-generating activities to provide the necessary financial means continues to hamper access to basic household items among the most vulnerable population in need.

- Lack of reliable consolidated information for interagency convoy reach affects the sector’s ability to determine the extent and impact of its convoy contribution.

- Opportunities for systematic field-based data collection remain very limited due to access or authorization restrictions, resulting in incomplete...
