STORM DEVELOPMENT

- As of 9:30am (EST), Dorian is moving west-northwest near 20 km/h and is expected to turn northwest on 28 August.
- On the forecast track, Dorian will move across the eastern and northeastern Caribbean Sea during the next few days, passing near Puerto Rico and then eastern Hispaniola on 28 August and north of Hispaniola on 29 August.
- Maximum sustained winds are near 85 km/h. Slow strengthening is forecast for the next 48 hours; Dorian is forecast to be near hurricane strength when it moves close to Puerto Rico and eastern Hispaniola.

PRELIMINARY IMPACT

- BARBADOS**
Barbados lifted their Tropical Storm Warning early 27 August. Dorian prompted the use of 17 shelters by 102 people, knocking down power lines and trees in some communities. Assessments are ongoing.
- GRENADA**
No damages reported. Three emergency shelters were opened, with two sheltering 26 people.
- ST VINCENT & THE GRENADINES**
No damages reported. There are 124 people in emergency shelters.

RESPONSE

- CDEMA:** The CARICOM Disaster Relief Unit (CDRU) is on alert. The Regional Security System (RSS) is available for aerial reconnaissance for damage assessments, if needed.
- PAHO** country teams are on standby. **UNICEF** has pre-positioned supplies and staff in Dominica and St. Lucia. **WFP** has logistics, emergency telecommunications and relief distribution experts standing by. Global Affairs Canada (**GAC**) has an airport specialist standing by. **OCHA** will support with Information Management, coordination, advocacy and humanitarian financing if needed.
