Healthcare Facilities by Functionality

Wau County, Western Bahar El Ghazal State
December, 2019

Note:
Functional health facilities are defined as facilities offering health care services at the time of the assessment while non-functional facilities are facilities that were not operational at the time of the assessment. In facilities where technical questionnaire was filled, reasons for non-functionality were attributed to insecurity and subsequent looting of materials as well as damage to the facilities.

Improved Water Point Facilities

Wau County, Western Bahar El Ghazal State

December, 2019

The boundaries on the map do not imply official endorsement or acceptance by the Government of the Republic of South Sudan or by IOM. The map is for planning purposes only. IOM cannot guarantee that the map is error free and therefore accepts no liability for consequential or indirect damages arising from its use.

Data Source: IOM/DTM, National Bureau of Statistics, OCHA, Maxar, OpenStreetMap

Note:
Functional water points refer to sources of drinking and non-drinking water that were in use at the time of the assessment while non-functional water points refer to water sources that were not in use for drinking and non-drinking purposes at the time of data collection. Damage to water sources was identified as the main reason for non-functionality.

Usage Note:

The cartographic boundaries on the map are provided and may be used for planning purposes only. The boundaries are not to be used for any other purposes. IOM accepts no liability for errors or omissions in the representation of the boundaries shown. The accuracy of this representation is subject to the limitations of the data used. The boundaries on the map do not imply the expression of any opinion on the part of IOM concerning the legal status of any country, territory, area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Changes of boundaries and names shown on the map reflect the most recent information available to IOM.
