

As of 18 August, the Government of Indonesia has announced 141,370 confirmed cases of COVID-19 across all provinces of the country, with 6,207 deaths. The Government has also announced that 94,458 people have recovered from the illness. Currently, the percentage of total deaths against total confirmed cases is 4.39 percent. The following figure shows a declining trend of the percentages of daily confirmed COVID-19 deaths against the confirmed cases, since mid-April 2020:

On August 4, the President of Indonesia has enacted Presidential Instruction Number 6 of 2020 concerning Enhancing Discipline and Law Enforcement of Health Protocols in Prevention and Control of COVID-19. The regulation aims to ensure legal basis, the strengthening efforts and increase of the effectiveness of the prevention and control of COVID-19 in Indonesia. In addition to instructions to the Ministries and Government Agencies, the President has requested the heads of regional governments to conduct an ample socialization of the health protocols, and impose sanctions for those who do not comply with them.

As of 6 August, the Minister of Finance explained that the implementation of funds for the COVID-19 pandemic response was IDR. 151.25 trillion (21.75 percent of the total allocation of IDR. 695.2 trillion). The main source of implementation was the area of protection or social assistance, which amounted to IDR. 86.5 trillion (48.8 percent of the allocated IDR 203.91 trillion), implemented through the Family Hopeful Program (PKH), Basic Food Cards, Food Assistance in Jakarta and greater areas, Cash Assistance outside Jakarta and greater areas, Pre-Employment Card Program, electricity subsidies, and Direct Cash Assistance of the Village Fund.

It is interesting to note that, as of 14 August, PT Angkasa Pura II recorded 524 flights at Soekarno-Hatta airport (or 43.6 percent of 1,200 flights - its daily capacity), for a total of 45,745 passengers. These are the highest numbers of flights and daily passengers since the beginning of the COVID-19 pandemic. In comparison, there was a daily average of 100 flights during May, and of 300 flights during July.

The Indonesian Government continues to provide assistance to people affected by COVID-19 through various schemes. The Minister of Manpower announced that assistance for private company workers and non-civil servant government employees whose monthly income is below IDR. 5 million and are registered as active participants of BPJS (social security for workers) will begin on 25 August. The assistance provided, of IDR. 600,000 for four months, will be disbursed every two months. A total of 12 million workers as targeted beneficiaries has been confirmed through BPJS data. The assistance scheme has a total budget of IDR. 37 trillion.

The Ministry of Religious Affairs has recorded 21,173 pesantren (Islamic schools) that will receive assistance (2,235 large Islamic boarding schools, with more than 1,500 students will receive IDR. 50 million, 4,032 medium-sized pesantren will receive IDR. 40 million and 14,906 small pesantren will receive IDR. 25 million). In addition, 62,153 Madrasah Diniyah Takmiliah and 112,008 Al Qur'an Education Institutions (LPQ) will each receive IDR. 10 million. The recipient agencies will receive a Notification Letter from the Ministry and should submit proof of their Operational Permit, tax identity number and Institutional Profile as requirements for disbursement through the Provincial Religious Affairs Offices. The Ministry of Finance has allocated IDR. 2.59 trillion for this assistance scheme, in the form of Educational Operational Assistance (BOP) worth IDR 2.38 trillion and online learning assistance of IDR 211.73 billion.

DKI Jakarta has extended the Large-Scale Social Restrictions (PSBB) period as a transition measure towards the Adaptation to New Behaviour phase, expected to start on 27 August. The decision to extend PSBB was made taking into account various considerations, including the recent COVID-19 positivity rate, which has increased to 8.7 percent of positives among those tested. The Governor of DKI Jakarta has also decided to temporarily suspend social activities that involve crowds, including Car Free Day on Sundays.

The Covid-19 Collaboration and Coordination Meeting on the COVID-19 Response took place on 4 August, chaired by the Coordinating Ministry for Human Development and Culture (Kemenko PMK), and attended by the Presidential Staff Office, BNPB, Ministry of Health, Ministry of Education and Culture, Ministry of Social Affairs, Ministry of Religious Affairs, Ministry Home Affairs, the Ministry of Women's Empowerment and Child Protection, the Ministry of Public Works and Public Housing, BASARNAS and POLRI, as well as the National Cluster partners. **At the meeting**, it was reported that the total funds managed by non-government institutions as of 31 July is more than US \$ 200 million. The main agreements and decisions include:

- 1) Kemenko PMK will encourage ministries / agencies to follow up on the recommendations from the clusters / sub-clusters / working groups, HFI, DRR Forum DI Yogyakarta and NTT, and SEJAJAR.
- 2) A weekly multi-stakeholder collaboration report will be disseminated by Kemenko PMK to the ministries / agencies that are coordinators / deputy coordinators of the National Clusters, for policy inputs and necessary actions.
- 3) Regular Health Cluster coordination meetings are to be held, with the participation of all relevant ministries / agencies.
- 4) Kemenko PMK will encourage ministerial / institutional discussions with SOPS POLRI to formulate a security strategy for the regional elections.
- 5) Formation of a small team to prepare a policy brief which will serve as input to the Committee for the COVID-19 Response and National Economic Recovery.

Below are the main highlights of the National Clusters and priority areas activities over the past two weeks:

**Health:** With WHO's support, the Ministry of Health conducted the Intra-Action Review (IAR), that analyzes country-level coordination; planning and monitoring; risk communication and community engagement (RCCE); surveillance, case investigation and contact tracing; points of entry; the national laboratory system; infection prevention and control (IPC); case management and knowledge-sharing about innovations and the latest research; operational support and logistics in the management of supply chains and the workforce; and maintaining essential health services during the COVID-19 outbreak; Sensitization of the Contraceptive Service Guidelines in Health Crisis Situations to all relevant partners across the Province, held on 28-30 July by BKKBN and UNFPA; In response to the flashflood in North Luwu, the reproductive health sub-cluster under the coordination of the District Health Office and the Ministry of Health has distributed 50 hygiene kits, 20 pregnant women kits, 20 maternity kits, 30 newborn kits, and 5 elderly kits.

**Logistics:** The results of the capacity mapping of local producers of Personal Protective Equipment and medical devices were shared with the Ministry of Industry, Ministry of Health, BNPB and members of the National Logistics Cluster; common understanding on Definitions, Lists and Priorities for Commercial Important Items during the COVID-19 Pandemic in Indonesia is under discussion.

**Camp Coordination and Camp Management:** Training for local government officials and local NGOs on the humanitarian needs of Rohingya immigrants in Aceh was conducted on 5 - 7 August; Under the leadership of the Ministry of Social Affairs, the drafting of Terms of Reference for the creation of a multi-sectoral E-Learning Platform, Work Plan, manual and information kit for capacity building and TAGANA performance is underway.

**Education:** The Ministry of Religious Affairs has agreed on the priority webinar topics for the Raudlatul Athfal Teachers (equivalent to early childhood development) which will start on 19 August; Home study guides for children with disabilities are being produced; Discussions were held with the Ministry of Villages on the use of village funds to support Online Learning.

**Water, Sanitation and Hygiene:** A Community-Based 5 Pillars Protocol for Community-Based Total Sanitation for the Prevention and Control of COVID-19 has been issued by the Ministry of Health, and is to be used, including in displacement sites. It is expected that the protocol can be socialized and monitored through the Task Force, BNPB and the Ministry of Social Affairs and their partners.

**Early Recovery:** In the business and MSMEs sector, five series of workshops are being held on business amidst the Adaptation of New Habits; 24 training and advocacy activities on the protection of people with disabilities have been carried out in six cities; Socio-economic studies and the impact of the COVID-19 pandemic in Central Sulawesi and NTB are being carried out for households that have not fully recovered from the 2018 earthquakes.

There are now 262 non-government institutions with over 3,000 activities recorded in the 3W – “who does what where” – tool to date. The most active areas include health, WASH and reproductive health, while the geographical areas with the greatest number of activities are in DKI Jakarta, Central Sulawesi, East Nusa Tenggara, Central Java and West Java.
