The SCHF second standard allocation launched in October 2020 contributed to the COVID-19 and winterization response in northwest Syria. The initial envelope for the allocation - $13 million – was increased thanks to generous contributions from the SCHF donors. A total of $19.6 million was allocated, through the funding of 27 new projects and cost-extension of three projects originally funded under SCHF SA1 2020. Given the critical needs exceeding the resources available, the allocation prioritized life-saving assistance under two strategic objectives (SOs): SO1 Support immediate and critical measures to respond to the COVID-19 pandemic and $6.8 million was allocated to 10 projects across three clusters supporting the most vulnerable people in need of winterization assistance. Projects funded under this allocation demonstrate strong complementarity and integration. The SCHF closed the year with a limited carry-over of $16.8 million and early contributions are much welcome in 2021 and allow for a new allocation as soon as possible to respond to serious funding gaps.

**HIGHLIGHTS OF EXPECTED ACHIEVEMENTS**

- **558K** people provided with food aid including food basket, ready-to-eat food, cash, and voucher transfer modalities.
- **387K** people provided with livelihood support focused on preventing and responding to the spread of COVID-19.
- **130K** people provided with hygiene promotional activities and campaigns.
- **21K** children provided with formal and non-formal education.
- **21K** households targeted with winter assistance.
- **12K** Community COVID-19 Treatment Centers (CCTCs) supported with integrated services.
- **27** projects by partner type.
- **27** partners by type.
- **606K** people targeted.
- **53K** people with disability targeted.

COVID-19 RESPONSE

The SCHF second Standard Allocation 2020 funded 20 projects contributing directly to the COVID-19 response in northwest Syria. An additional $2.1M was allocated through top-ups of three projects. The amount allocated and people targeted are obtained from the CBPF and CERF COVID-19 Bi platform and should be treated as estimates. Final figures will be reported in the SCHF 2020 Annual Report.

US$11.8M

2.1M

PROJECTS BY GENDER AND AGE MARKER

24 projects
Likely to contribute to gender equality, including across age groups

3 projects
Likely to contribute to gender equality, but without attention to age groups

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations. This dashboard shows only the funds allocated to date. *The total includes three Shelter/NFI projects receiving cost extensions totaling $2.1 million funded during the SA2 allocation process. The projects were funded under the first standard allocation 2020. **Targeted beneficiaries in this dashboard represents maximum number of beneficiaries per location/community across clusters. The total number reflects the intercluster people targeted.
