

UKRAINE HUMANITARIAN FUND

1st Reserve Allocation 2021 dashboard

As of 31 August 2021

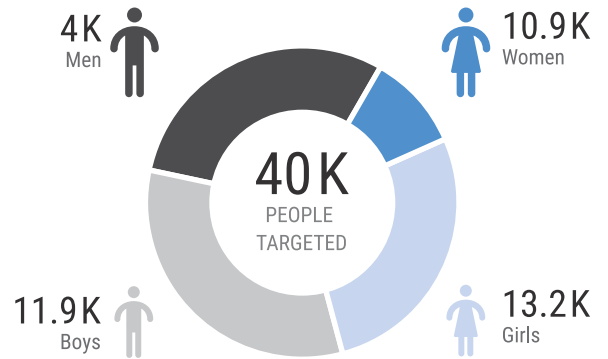

ALLOCATION STRATEGIC STATEMENT

 **\$1.7M**
ALLOCATION AMOUNT

To address urgent humanitarian needs in the first quarter of 2021 in Eastern Ukraine, the Ukraine Humanitarian Fund (UHF) allocated over \$1.68 million for projects to strategically support underfunded humanitarian activities in non-Government-controlled areas (NGCA) and Government-controlled areas (GCA).

In NGCA, the allocation focused on addressing the humanitarian needs of conflict-affected children living in NGCA in the areas of **education, child protection and mine action / mine risk education**. While in GCA, the allocation focused on providing **critical transportation activities in isolated communities**, both to support vulnerable people to access essential basic services, and for health professionals and emergency services to **access isolated communities**.

In US\$ million

TIMELINE

Launch of HNO and HRP for Ukraine.

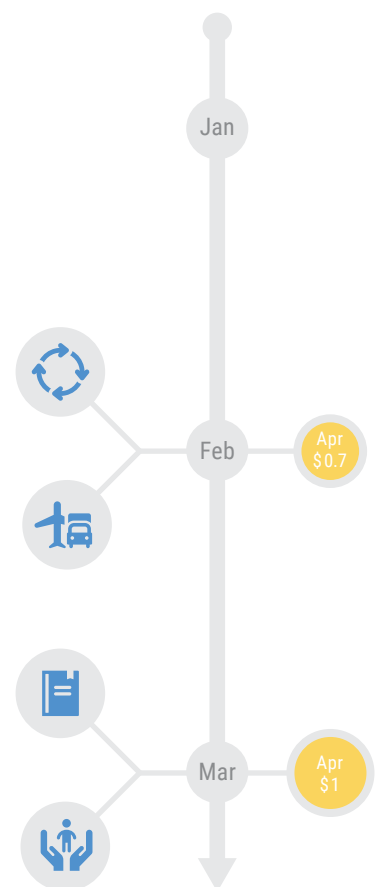

According to protection monitoring findings published by UNHCR, over 90 settlements along the 'contact line' in Donetsk and Luhansk oblasts (GCA) experience **limited to no access to essential services** due to disrupted or non-existent transportation networks.

Report that **access to education** has seriously been hampered by COVID-19 pandemic, aggravated by damages caused to education facilities and restricted access to child protection services.

More than 500,000 boys and girls living within 20km of the 'contact line' continue to be affected by conflict with direct **threats to their physical integrity and mental wellbeing**.
