

As of 7 September 2021, the Indonesian Government has announced 4,140,634 confirmed cases of COVID-19 in all 34 provinces of Indonesia, with 138,630 active cases, 137,156 deaths, and 3,864,848 people that have recovered. The government has also reported 127,465 suspected cases.

As of 4 September 2021, Indonesia has received around 220.4 million vaccines in the form of bulk and ready-to-use vaccines. This includes 43 million doses of vaccines that were received in August. For September, it is estimated that 60 million more doses will arrive. Details of the arrival of vaccines are as follows:

| Vaccine | Total vaccine received | Description |
|-----------------|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sinovac Biotech | 179,3 | Some batches arrived in bulk, and have been processed by Bio Farma into ready-to-use vaccines. |
| AstraZeneca | 22.6 | Through the COVAX facility, cooperation support by the Governments of Australia (through UNICEF), Netherlands, Japan, and the UK. Also direct procurement. |
| Moderna | 8,1 | US Government cooperation support through the COVAX facility. |
| Sinopharm | 7.6 | Private sector scheme of Gotong Royong, and support from the United Arab Emirates. |
| Pfizer | 2.8 | From the United States Government. |

Indonesia has set out a target to vaccinate 208.3 million people and has already administered the first dose to 32 out of 100 residents as of 5 September 2021. The vaccination progress per priority groups is as follows:

| Priority groups | Target | Progress - 1 st dose | Progress - 2 nd dose |
|------------------------------|---------------|---------------------------------------------------------------------------------------|---------------------------------|
| Elderly | 21.5 million | 5.39 million (25%) | 3.84 million (18%) |
| Public servants | 17.3 million | 36.4 million (209%) | 20.17 million (116%) |
| Vulnerable people and public | 141,2 million | 19.75 million (14%) | 10,2 million (7%) |
| Children 12-17 years | 26,7 million | 2,77 million (10%) | 1,9 million (7%) |
| Medical workers | 1.4 million | First and second dose have reached >100%, Third dose/booster: 713 thousand (48.5%) | |

The Ministry of Health in collaboration with the Ministry of Social Affairs, the Ministry of Home Affairs, and non-governmental actors have accelerated the vaccination for people with disabilities in six provinces: Banten, West Java, Central Java, Yogyakarta, East Java, and Bali. Vaccines are provided through health care facilities and COVID-19 vaccination centers, targeting 225,000 people out of a total of 562,242 people with disabilities throughout Indonesia.

The Government continues to expand the use of the PeduliLindungi platform, which has been used in the transportation sector, shopping centers, sports facilities, tourism, and subsequently in industrial companies and industrial estates. As of 29 August, the Coordinating Ministry for Maritime Affairs and Investment recorded 13.6 million community members who were screened through the PeduliLindungi application.

The implementation of Restrictions Towards Community Activities (PPKM) will continue until 13 September 2021 in Java and Bali, and until 20 September 2021 in Sumatra, Kalimantan, Sulawesi, Nusa Tenggara, and Papua regions.

In line with the Instruction Letters of Minister of Home Affairs number 39 and 40 of 2021, 34 districts/municipalities are applying PPKM level 4 (i.e. the strictest measure), 311 districts/municipalities are applying PPKM level 3, and 160 others are applying PPKM level 2.

The PPKM measures are augmented with the functioning of the Command Post at the village level, as regulated with the Instruction Letter of Minister of Home Affairs number 41 of 2021. As of 3 September 2021, a total of 51,498 Command Posts have been established, or 69% of the total 74,961 villages, as reported by the Ministry of Home Affairs. There are 13 provinces that have reported the establishment of village-level Command Posts up to 100 percent, namely Aceh, West Sumatra, Riau, Jambi, South Sumatra, Lampung, Bangka Belitung, West Java, Yogyakarta, East Java, Bali, East Kalimantan and Gorontalo.

Schools in Jakarta has resumed face-to-face learning on 30 August 2021, which involves 610 schools. The face-to-face learning option is being undertaken with a maximum 50% capacity in regions that are categorized in PPKM level 3, in accordance with the Instruction of the Minister of Home Affairs. Meanwhile, the Ministry of Education, Culture, Research and Technology continues to provide Internet Data Quota assistance for September-November 2021 to early childhood education students (7GB), primary and secondary education students (10GB), teachers (12GB), as well as university students and lecturers (15 GB).

The Coordinating Ministry for Human Development and Culture has commenced the Solidarity and Generosity Movement for Handling COVID-19, which was directed by the President in early August 2021. A series of preparatory meetings for this Movement were held with Ministries/Institutions, philanthropic institutions, and other non-governmental actors in August to establish a Steering Committee and an Implementing Team consisting of a secretariat and seven working groups.

The Ministry of Finance reported the completion of the National Economic Recovery Program (PEN) on 20 August 2021, reaching IDR 326.16 trillion or 43.8% of the total budget ceiling of IDR 744.75 trillion, through the 2021 State Revenue and Expenditure Budget (APBN). The allocation and realization include the following main programs:

- Health, which includes the management of the Pondok Gede makeshift hospital, distribution of drug packages to the community, treatment costs for 426,940 patients, incentives for 861,900 health workers, death compensation for 278 health workers, procurement of 81.42 million doses of vaccine, and the National Health Insurance contributions for 19.15 million people, with the realization reached IDR 77.18 trillion or 35.9% of IDR 214.95 trillion budget ceiling.
- Social protection, which includes cash social assistance (BST) program, Family Hopeful Program (PKH), basic food cards, rice assistance, internet quota assistance, wage subsidy assistance, electricity subsidies and Pre-Employment Cards, with a realization of IDR 99.33 trillion or 52.9% of IDR 187.84 trillion budget ceiling.
- Financial support for Micro, Small and Medium Enterprises (MSMEs) and cooperatives, especially for the provision of assistance to micro business actors (BPUM), placement of funds in banks, as well as interest subsidies for KUR and non-KUR, which was realized in the amount of IDR 48.02 trillion or 29.8% from the IDR budget ceiling. 161.20 trillion.
- Business and Tax Incentives, among others in the form of incentives/exemptions/reductions/reductions in certain income tax rates, and property and car sales taxes, were realized at IDR 51.97 trillion or 82.7% of IDR 62.83 trillion budget ceiling.
- Priority Program, which is used for the Ministry/institutional Labor-Intensive Program, Tourism, Food Security and Regional Loan Facilities, with a realization of IDR 50.25 trillion or 42.6% of IDR 117.94 trillion budget ceiling.
