

Myanmar, Cyclone Nargis: 2 Years On

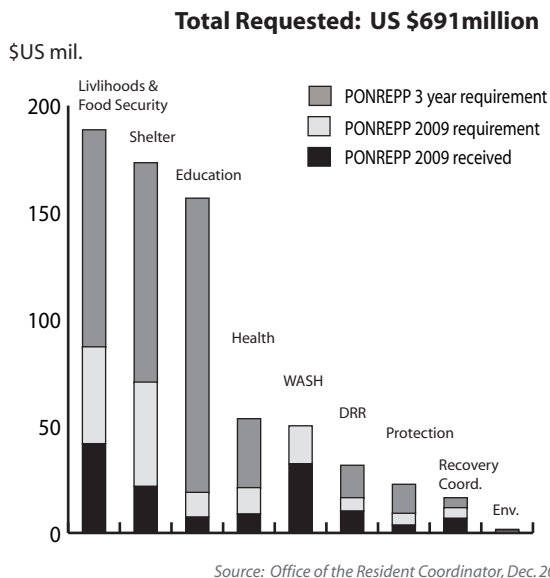

Cyclone Nargis Factbox

- Approx. 140,000 people lost their lives, and 2.4 million were severely affected when Nargis struck on May 1-2, 2008
- Over 600,000 hectares of agricultural land was flooded, killing 50% of draught animals, destroying fishing boats, food stocks, and agricultural tools
- 450,000 homes destroyed, and 350,000 homes damaged
- 75% of health facilities destroyed or severely damaged
- 4,100 schools destroyed or severely damaged

Produced April 29, 2010

PONREPP Funding

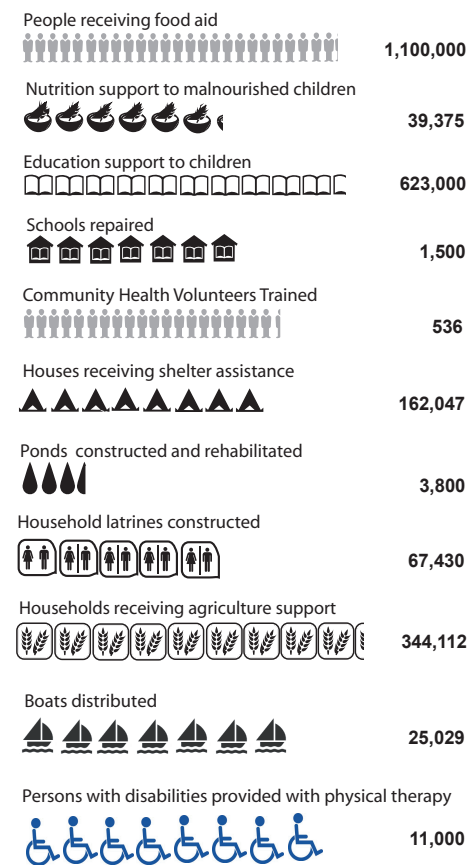

- US \$691 million has been requested in the Post-Nargis Recovery and Preparedness Plan (PONREPP) covering 2009-2011
- In 2009, US\$132.8 million was received from a requirement of \$247.3 million

2010 Priorities

- ▲ An estimated 150,000 households are in urgent need of shelter assistance
- 👤 Need for construction of schools, provision of supplies, and capacity building of teachers
- ⊕ Need to enhance health and welfare services to all vulnerable groups
- 🚰 Clean drinking water is desperately short in some Nargis-affected areas, due to increased salinity, polluted or insufficient freshwater ponds
- 🐟 Livelihood activities must be scaled-up to ensure income opportunities and self-sustainability for households and communities
- 🌀 Develop disaster risk reduction capacity to ensure communities are better prepared should they be faced with another disaster
