

SOUTH SUDAN Regional Refugee Response Plan

January 2020 - December 2021

AT A GLANCE

OVERVIEW

The 2020-2021 South Sudan Regional RRP articulates the protection and humanitarian needs of an anticipated 2,200,000 South Sudanese refugees by the end of 2020 and 2,130,000 by the end of 2021. The RRP outlines the inter-agency response strategy and financial requirements of 95 partners responding across five countries of asylum. As the protracted emergency enters its seventh year, it remains the largest refugee situation on the African continent. It continues to be characterised as a children's crisis with children constituting over 65 percent of the refugee population. The sheer scale of displacement is putting immense pressure on hosting countries and greater international solidarity and responsibility sharing is needed. There are renewed prospects for durable solutions for South Sudanese refugees, with the Regional RRP a key tool to equip refugees with the skills and education to make any eventual return sustainable. In line with the Global Compact on Refugees, the response will aim to provide protection and life-saving assistance in such way as to allow for greater integration of refugees into national systems and development plans. Renewed and increased focus will also be given to strengthening the resilience of host communities and South Sudanese refugees.

2020 & 2021 STRATEGIC OBJECTIVES

The 2020 - 2021 Regional RRP for the South Sudan situation remains guided by the following regional strategic objectives to guide programming for the South Sudan situation and which were validated on an inter-agency basis.

1. Upholding the quality of asylum for South Sudanese refugees in the region, the majority of whom are women and children, by meeting their lifesaving needs and upholding their dignity according to applicable minimum standards;
2. Anchoring the response within national and regional multi-year protection frameworks, policies, laws, and standards which comprehensively address legal and physical protection needs of South Sudanese refugees with a particular emphasis on children, women and youth;
3. Enhancing biometric registration, documentation and data management in collaboration with host Governments to support implementation of durable solutions strategies;
4. Proactively exploring and, where applicable, pursuing innovative approaches based on participatory assessments with refugees, Governments, humanitarian and development actors, the private sector, and civil society, with a view to systematically expanding Cash-Based Interventions (CBIs) and other initiatives aimed at alleviating the dependency of refugees on aid;
5. Maintaining the civilian and humanitarian character of camps; and
6. Promoting social cohesion between refugees and host communities through implementation of targeted resilience programmes.

REGIONAL COORDINATION

The 2020-2021 Regional RRP for the South Sudan situation will encompass 95 operational partners spanning five countries of asylum where refugees are hosted in both settlements and out-of-camp settings. The Refugee Coordination Model (RCM) is applied and regular reporting is carried out against agreed regional objectives and indicators.

Regional RRP partners work in close collaboration with UN and NGO partners in the development and humanitarian realms, and with regional economic communities such as the Intergovernmental Authority for Development to ensure a regionally coordinated response to the regional South Sudanese crisis.

In 2020, with the establishment of the Regional Bureau for the East, Horn of Africa and the Great Lakes, Regional Refugee Coordination will be assumed within the new structure and will continue to coordinate jointly with inter-agency partners and conduct joint advocacy and resource mobilization for the 2020-2021 RRRP.

The complete list of the 95 partners involved in the 2020/2021 South Sudan Regional RRP is provided on the following page.
