Includes: hibernation, moving of assets, office closure, ongoing monitoring, programme change, relocation of staff, remote control, restriction of movement, security advisories issued, and programme suspension.

This document is part of the Aid in Danger project. It is published by Insecurity Insight and funded by European Union Humanitarian Aid. It summarises selected findings from AID partner agency incident reports. 25 partner agencies currently contribute confidential security data to the Security in Numbers Database (SIND). For this data, 22 partner agencies contributed security incidents. Data collection is ongoing and data may change as more information is made available.

¹ In ten incidents security measures were taken after a direct incident.

² The incident rate shows the number of reported incidents divided by the number of partner agencies present in country.
