High rainfall caused localised flooding, mudslides and increased river levels throughout the country.

**SITUATION**

On Saturday 22 and Sunday 23 October, tropical storm "Alpha" affected Haiti from South East to North West, causing heavy rains. 8 reported dead, 4 missing and 17 wounded as of 12:00 pm local time, October 24. 435 families affected, 193 houses destroyed and 211 damaged. Most affected regions are departments of Ouest, Sud-Est and Grande-Anse. National roads and several streets in main cities closed due to landslides.

**ACTION**

Emergency Operation Centres activated at central and departmental levels. MINUSTAH and NGOs mobilised in departments of Nord, Artibonite, Grande-Anse and Nippes.
