

Status of Doctors and Medical Staff

NRS Monitoring System, June 2003

This map is based on statistical information presented in the Data Pack series. The data presented was reported by the District Recovery Committees (DRCs) in May-June 2003.

The DRC Monitoring Data Forms were developed under the Technical Committee of the National Recovery Committee / Development Partnership Committee (DEPAC), in consultation with the respective ministry. The Data Pack series was developed as a monitoring system for the National Recovery Strategy.

This map was created by the Sierra Leone Information System, an OCHA project established with funding from OFDA, ECHO and UNHCR

Benchmark Number 30

Increased number of medical doctors serving.

Timeline

End 2003

Progress

51 medical doctors as of June.
