Health

DOH

- Disease surveillance - the leading causes of consultation in most of the evacuation centers were cough, colds, and fever. There was no increasing trend in the number of diarrhea cases in the evacuation centers in Daraga and Legaspi City. There were 117 diarrhea cases from Legaspi City admitted in Bicol Regional Teaching Training Hospital (BRTTH) from December 2-11, 2006.
- Environmental surveillance - there was an improvement in the availability of water supplies in most of the evacuation centers. However the required number of shelter and latrines remains inadequate.
- On going activities by CHD 5
 - Regular health assessment, disease surveillance system and psychosocial stress debriefing activities in Albay Province
 - Measles and OPV booster vaccination for children below five years old in evacuation camps
 - Appraisal of management of health activities in the different LGUs
 - Deployment of environmental sanitation team in all affected areas in Albay
 - Provision of chlorine granules, medicines, ATS vials, other logistics and cadaver bags and overseeing identification, proper burial and handling of dead persons
 - Conduct of epidemiological investigation of increased diarrhea cases admitted in Bicol Regional Teaching and Training Hospital (BRTTH)
 - Continuous collection of water samples by PHO Albay for PHC testing in all the public wells in 4 Districts of Albay (15 municipalities excluding Jovellar and Rapu-Rapu)
 - Deployment of CHO staff by LGU-Legaspi to barangays with increased diarrhea cases to ensure household container disinfection and conduct of Information and Education Campaign (IEC)
- PHO Albay to continue information/education campaign on environmental sanitation, health information, education and communication activities especially on food and waterborne diseases
- DOH V to satisfy basic needs (food and medical) before psychosocial stress debriefing; deploy psychiatrists to handle acute traumatic disorders; continue its disease surveillance and regular rapid health assessment surveys, augmentation of medicines supplies and other logistics, medical and technical assistance to the LGUs and monitoring of health status in all affected areas
- LGUs to ensure availability of safe drinking water through household container disinfection and adequate water supply for domestic use (bathing, washing, etc); prioritize garbage disposal and maintenance of environmental cleanliness; provide temporary latrines (WHO standard –1 latrine for 20 individuals) and open dump pits (WHO standard- 1 pit per 500 individuals) for waste disposal; continue monitor health conditions in the evacuation centers and in the communities; decongest densely populated evacuation centers by opening new evacuation centers /or provision of tents; continue regular rapid health assessment survey; ensure regular garbage
