

CBPF CONTRIBUTIONS

Donor contributions are monetary donations provided by Governments and the private sector. This mechanism gives them the opportunity to pool their unearmarked contributions to a specific country. With these pooled donations, CBPFs offer rapid and flexible financing instruments to scale up humanitarian operations, increase humanitarian access, and strengthen our partnerships with local and international NGOs and UN agencies. This complements the overall humanitarian response based on affected people's needs identified under country-specific strategic response plans. The following are paid contributions and pledges received from 1 December 2013 to 1 December 2014.
