All nineteen (19) CDEMA Participating States record confirmed cases of the COVID-19 Disease

SITUATION UPDATE

According to the Caribbean Public Health Agency (CARPHA) Situation Report No. 39 (dated 29 April, 2020), up to 33 countries in the Caribbean region have reported the importation of at least one confirmed case of COVID-19. The risk of further cases in the Caribbean Region remains Very High. Since the previous report on April 27, 2020, no new countries reported their first confirmed case of COVID-19 within the Caribbean region. Additional cases, however, were confirmed in 15 countries within the Caribbean, bringing the region’s total confirmed cases to 11,115 in 33 countries/territories. This new total represents a 4% increase in the numbers of confirmed cases. Thirteen (13) additional deaths were also recorded, bringing the total numbers of deaths to 509 across the Caribbean.

Since February 10 and as of April 28, 2020, CARPHA has received 2,843 samples from 14 CMS, 373 (13.12%) of which have tested positive since the start of the outbreak, 242 results (8.5%) correspond to new cases.
Multi-sectoral coordination for COVID19 within CARICOM is delivered through the established Regional Response Mechanism (RRM) coordinated by the CDEMA Coordinating Unit (Figure 1).

A specialized Core Coordination Cell (Health) comprising the Caribbean Public Health Agency (CARPHA), CDEMA, the CARICOM Secretariat and the Pan American Health Organization (PAHO) has been established for COVID19.

This cell generates hazard specific (COVID19) information which (i) drives coordination actions by cells of the Regional Coordination Centre (RCC) and (ii) facilitates the interface between existing Health Sector Response Coordination mechanisms* and the RCC.

Cells within the RCC benefit from the expertise of specialised regional and international organizations in support of CARICOM Member States.

Multi-level coordination and information sharing is facilitated through frequent exchanges with the national – National Disaster Coordinators (NDCs), regional – CARICOM Heads of Regional Institutions convened by the CARICOM Secretary General and international partners – Caribbean Development Partners Group (CDPG) actors.

* COHSOD - CARICOM Council for Human and Social Development; RCM-HS - Regional Coordination Mechanism - Health Security

COVID-19 Heatmap: Cumulative Cases in 20 Caribbean Countries and Territories

Briefing created by staff of the George Alleyne Chronic Disease Research Centre and the Public Health Group of the Faculty of Medical Sciences, Cave Hill Campus, The University of the West Indies. Group Contacts: Ian Hambleton (analytics), Maddy Murphy (public health interventions), Kim Quimby (logistics planning), Natasha Sabers (surveillance). For all our COVID-19 surveillance outputs, go to https://tinyurl.com/uwi-covid19-surveillance

Updated on: 30 Apr 2020 at 07:42:55

Aim of this briefing. We present the cumulative number of confirmed COVID-19 cases (see note 1) among 20 Caribbean countries and territories (see note 2) since the start of the outbreak. We use heatmaps to visually summarise the situation as of 30 Apr 2020. The intention is to highlight outbreak hotspots.

Cumulative cases by 30 Apr 2020

- Anguilla
- Antigua and Barbuda
- The Bahamas
- Barbados
- Belize
- Bermuda
- British Virgin Islands
- Cayman Islands
- Dominica
- Grenada
- Guyana
- Haiti
- Jamaica
- Montserrat
- St Kitts and Nevis
- St Lucia
- St Vincent
- Suriname
- Trinidad and Tobago
- Turks and Caicos Islands

Confirmed Cases

COVID-19 Heatmap: Deaths in 20 Caribbean Countries and Territories

Briefing created by staff of the George Alleyne Chronic Disease Research Centre and the Public Health Group of the Faculty of Medical Sciences, Cave Hill Campus, The University of the West Indies. Group Contacts: Ian Hamilton (analytics), Maddy Murphy (public health interventions), Kim Quindry (logistics planning), Natasha Sobers (surveillance). For all our COVID-19 surveillance outputs, go to https://tinyurl.com/uwi-covid19-surveillance

Updated on: 30 Apr 2020 at 07:42:56

Aim of this briefing. On this page we present the number of confirmed daily and cumulative COVID-19 deaths (see note 1) among 20 Caribbean countries and territories (see note 2) since the start of the outbreak. We present this information as a heatmap to visually summarise the situation as of 30 Apr 2020.

Cumulative deaths by 30 Apr 2020

Daily deaths by 30 Apr 2020

[NOTE 2] Countries and territories included in this briefing: Countries and territories included in this briefing: CARICOM member states: Antigua and Barbuda, The Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname, Trinidad and Tobago. United Kingdom Overseas Territories (UKOTS): Anguilla, Bermuda, British Virgin Islands, Cayman Islands, Montserrat, Turks and Caicos Islands.

[NOTE 3] Growth Rate: The heatmap on page 2 presents the growth rate among confirmed cases. Growth rate is a relative rate. To calculate the growth rate, we divide the total cases on each day by the total cases the previous day, then we take the logarithm of that value. The equation is therefore: growth rate = log(cases/cases on previous day). A value of 1 can be interpreted as a 1% daily growth in the number of confirmed COVID-19 cases.
COVID-19 trajectories for 14 CARICOM countries

Briefing created by staff of the George Alleyne Chronic Disease Research Centre and the Public Health Group of The Faculty of Medical Sciences, Cave Hill Campus, The University of the West Indies. Group Contacts: Ian Hambleton (analytics), Maddy Murphy (public health interventions), Kim Quimby (logistics planning), Natasha Sobers (surveillance). For all our COVID-19 surveillance outputs, go to https://tinyurl.com/uwi-covid19-surveillance

Updated on: 30 Apr 2020

Aim of this briefing: We present the cumulative number of confirmed cases and deaths (see note 1) from COVID-19 infection among CARICOM countries since the start of the outbreak (we define the outbreak length as the number of days since the first confirmed case in each country). In our first table, we summarise the situation among the 14 CARICOM member states (see note 2) as of 30 Apr 2020. We then summarise the situation each country visually, describing cumulative cases, cumulative deaths, and outbreak growth rates.

Summary for 14 CARICOM countries

(NOTE 2) Countries and territories included in this briefing: Countries and territories included in this briefing: CARICOM member states: Antigua and Barbuda, The Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname, Trinidad and Tobago. United Kingdom Overseas Territories (UKOTS): Anguilla, Bermuda, British Virgin Islands, Cayman Islands, Montserrat, Turks and Caicos Islands.

(NOTE 3) Growth Rate. The blue graph in the final column shows the number of cases on a different scale (called a logarithm scale). This gives us the growth rate over time, and is good for comparing progress against other countries. The shaded region behind the country growth curve is the range of outbreak growth for the remaining countries and territories. There are 14 CARICOM member states and 6 UKOTS included in this briefing, so this shaded region includes 19 countries. This range is represented by percentiles (darker blue region represents 25th to 75th percentile, lighter blue region represents 5th to 95th percentiles). All curves and regions are 7-day smoothed averages.

Updates from CDEMA Participating States

ANGUILLA – Department of Disaster Management (DDM)

- As at April 27, testing has now shown no active or suspected cases of COVID-19 in Anguilla
- As of April 29th, all regulations restricting movement and gatherings have been removed, however the practice of social distancing must continue
- Churches, places of worship, all retail stores, hair salons and barber shops, accommodation suppliers, gyms and spas, recreational facilities, official lotteries, restaurants and bars are allowed to be opened from Wednesday April 29
- Environmental health officials will visit all commercial premises in the coming weeks to check compliance with established environmental health regulations
- All ports will remain closed for passenger movement until the situation outside Anguilla allows for safe reopening. This is unlikely to be before the end of May
- A limited number of repatriation flights will take place during this week under same controlled arrangements
- Regulations prohibiting the use of any boat in Anguilla’s waters unless specifically exempted remain in force until 12 May
- The Social Security board is now accepting online applications for unemployment benefit. All persons who meet the qualifying conditions are encouraged to visit www.uassistance.ai
Updates from CDEMA Participating States

ANTIGUA & BARBUDA – National Office of Disaster Services (NODS)

- Government opens Infectious Disease Control Centre to treat patients with Covid-19 and other infectious diseases
- As at April 28, confirmed cases still stand at 24 with 11 pending cases, three (3) covid-19 deaths
- 124 samples have been tested; 56 persons in quarantine and 11 recoveries
- Ministry of Health continues training for Covid-19 testing
- Government extends curfew period to May 14 and adjusts the curfew time to 6pm - 6am. Previous curfew was from midday to 7:00 a.m.
- Select businesses allowed to operate between the recommended hours with strict adherence to the established social distancing regime
- Restaurants can provide take out and deliveries
- From 6am to 6pm a person may walk, jog, run, cycle or perform any physical activity which may lawfully be carried on. This shall be done in an open field or on the side of a public road, in the company of one person while observing social distancing and shall not be used as an occasion of social gathering
- Construction and hardware stores are open and business hours are from 6am-6pm
- Critical sectors such as farmers and fishermen are allowed to conduct business beyond those hours
- Facilitated the movement of students coming in and out of the country, those who came in were placed in quarantine
- The control disease center (quarantined center) was opened yesterday, Tuesday April 28
- Government delivered over 7000 relief packages to those who are unemployed. Private sectors such as the Hotel and Tourism sector and others assisted
- Churches and Faith-Based Organisations may conduct community outreach programmes however all religious places of worship remain closed to public gatherings
- Public transportation services permitted to operate from 6am - 7pm provided that driver and passengers wear face masks/covering and passengers are seated in a staggering formation
- Private vehicles limited to two people

- Employees of public service who are not employed in the essential services are permitted to work based on the instructions of the Permanent Secretary
- Beaches will open from Tuesday 5th May. Residents allowed to go to the beach between 6 a.m. and 6 p.m. No more than two persons per family can attend, no picnics and music
- Schools will remain closed. Grades 2, 4 and 6 assessments have been cancelled
- Government transforming a learning centre into a 75-bed mini-hospital
Updates from CDEMA Participating States

THE BAHAMAS – National Emergency Management Agency (NEMA)

- As at April 30, there are 45 active cases and persons in isolation; 1284 persons have been tested; 8 persons are currently in hospital
- Out of the 81 confirmed cases, 17 of them are Health Care workers
- The Ministry of Health will look at matters related to the Health Care workers to see what risks are involved and provide mitigation measures to prevent more of the Health Care workers from being impacted
- There are 64 cases in New Providence, 7 on Grand Bahama, 8 in Bimini and 1 in Acklin
- On the island of Bimini, 8 family members from a household of 11 have contracted the virus and 3 other persons are being tested; a series of tests will be conducted on that island for the next 3 days
- The Governor has established a task force to gradually re-open the country for business while exercising extreme caution
- There are plans for Bahamians to return home from Jamaica, Florida, Atlanta and Cuba. The Government is looking at how to accommodate those persons and to make sure they go through the quarantine process

- In exercise of the Emergency Powers (COVID-19) Regulations, 2020, the following orders for every island and cay in the Commonwealth of The Bahamas, the following has been announced:
  - The proclamation made on 17th March 2020 and the Emergency Orders have been extended until 30th May 2020.
  - The Emergency Powers (COVID-19)(No. 2) Order, 2020 made on the 23rd day of March, 2020 will continue until the 30th day of May, 2020;
  - A Rent Assistance Program has been developed and implemented for residents of The Bahamas for those whose employment or income has been impacted by COVID-19.
  - Designated days and hours of operation for essential services have been established.
Updates from CDEMA Participating States

BARBADOS – Department of Emergency Management (DEM)

- No new cases of COVID-19 were recorded in Barbados overnight (Tuesday April 28). All 75 tests conducted by the Best-dos Santos Public Health Laboratory, two of which were employees of the National Assistance Board, came back negative. This brings the total number of tests to 2005.
- To date, the island has recorded 80 confirmed cases of COVID-19, 39 persons recovered, while 34 persons remain in isolation.
- The EOC is reviewing protocols for reopening the construction industry, food industry and domestic industry.

COVID-19 ECONOMIC REPORT

An economic impact assessment of the COVID-19 pandemic on the Cayman Islands.

There are 3 projected ‘shelter in place’ scenarios:

- **MONTH LOCKDOWN 1**: 15% decline
- **MONTH LOCKDOWN 2**: 19% decline
- **MONTH LOCKDOWN 3**: 22% decline

**Estimated 2020 GDP Impact**

- **MONTH LOCKDOWN 1**: CI$373 million
- **MONTH LOCKDOWN 2**: CI$444 million
- **MONTH LOCKDOWN 3**: CI$512 million

**Impact on Employment in 2020**

- **1,416** job losses
- **5,088** job losses
- **5,624** job losses

**Estimated Salaries Lost**

- **MONTH LOCKDOWN 1**: CI$373 million
- **MONTH LOCKDOWN 2**: CI$444 million
- **MONTH LOCKDOWN 3**: CI$512 million

**Community Support**

- **Cayman Food Bank**: meals support doubled
- **Meals on Wheels**: meals support increased by 16%
- **Nau**: increased assistance by 165% now supporting 975 families or 3,828 people
- **Resilience Cayman**: assistance requested by over 4,000 people within 3 days of launching

- **HAVE ALREADY OCCURRED FROM MARCH 13TH TO APRIL 17TH**
- **BY NON-CAYMANIANS IN THE BEST CASE SCENARIO**
- **BY CAYMANIANS IN THE BEST CASE SCENARIO**
- **ESTIMATED FOR A 2 MONTH LOCKDOWN**
- **ESTIMATED FOR A 3 MONTH LOCKDOWN**
- **ESTIMATED FOR A 4 MONTH LOCKDOWN**
CAYMAN ISLANDS – Hazard Management Cayman Islands (HMCI)

**LOCAL BUSINESS RESPONSE**

- **RISK TO WORK PERMIT HOLDERS**
  - 0 businesses have 0 workers at risk (84)
  - 1-3 businesses have 1-3 workers at risk (87)
  - 4-6 businesses have 4-6 workers at risk (31)
  - 7-12 businesses have 7-12 workers at risk (13)
  - 13-24 businesses have 13-24 workers at risk (5)
  - 25-50 businesses have 25-50 workers at risk (2)
  - 51-100 businesses have 51-100 workers at risk (1)
  - Over 100 businesses have over 100 workers at risk (3)

**LOCAL BUSINESSES**

- Indicate that at least 1 work permit holder’s job is at risk (142)

**LARGE COMPANIES**

- Indicate that more than 100 worker’s jobs are at risk (3)

**RISK TO CAYMANIAN EMPLOYEES**

- **LOCAL BUSINESSES**
  - Indicate that at least 1 Caymanian’s job is at risk (145)

- **LOCAL BUSINESSES**
  - Indicate that more than 100 Caymanian’s jobs are at risk (0)

**BUSINESSES WITH LOCALS AT RISK OF JOB LOSS**

- 0 businesses have locals at risk (132)
- 1-3 businesses have locals at risk (78)
- 4-6 businesses have locals at risk (32)
- 7-12 businesses have locals at risk (26)
- 13-24 businesses have locals at risk (5)
- 25-50 businesses have locals at risk (3)
- 51-100 businesses have locals at risk (3)
- Over 100 businesses have locals at risk (0)

**PLANS FOR LOCAL BUSINESSES**

- 20 businesses are likely to close within the next 4 weeks
- 130 businesses have made adjustments to downsize and survive
- 85 businesses have made no changes
- 52 businesses are uncertain what their plans are

**RECOMMENDATIONS TO PREVENT THE SPREAD OF THE NOVEL CORONA VIRUS**

1. **HANDS**
   - It starts with your hands. Please wash your hands frequently with soap and water or an alcohol-based solution.

2. **ELBOW**
   - Always cover your nose and mouth with a bent elbow or tissue when you sneeze or cough. Dispose of tissue immediately and wash your hands.

3. **FACE**
   - Avoid touching your face, particularly your eyes, nose or mouth to prevent the virus from entering your body.

4. **Distance**
   - In terms of social interaction, take a step back. Stay at least 6 feet or 1.82 meters distance from others.

5. **FEEL**
   - If you feel unwell, stay home. Please follow all instructions provided by your local health authorities.

On Tuesday, April 28, 2020 results of 44 samples for persons tested for COVID-19 were received. Of that batch, 2 were positive results and 42 negative.

The first of the two positive results is a 54 year old female, diabetic, who is a direct contact from a previous positive case and has been in isolation from April 4, 2020.

The second case is a 20 year old male, son of a previous confirmed case, who has been in isolation from April 4, 2020.

It must be noted that both of the new cases are contacts of a confirmed case and have been monitored in quarantine and isolation at the Rodney Bay Public Health Facility from April 4, 2020.

Saint Lucia has now recorded a total of 17 confirmed cases of COVID-19, fifteen (15) of whom have recovered and been discharged from care. A total of 490 tests have been carried out to date.

The Government continues to implement the national response to the COVID-19 epidemic.

The Ministry of Health will continue to remain vigilant and maintain the capacity for early detection, aggressive contact tracing, quarantine and isolation, testing and treatment capacity.

The Ministry of Health continues active surveillance for COVID-19.
Updates from CDEMA Participating States

- Rapid tests are ongoing for staff at the Lewis Punnette Home (Home for aged); 18 staff have been tested so far
- Guidelines for the reopening of schools have been provided by the Ministry of Health
- Ministry of Education, in collaboration with Ministry of Health, BRAGSA, NEMO and Physical Planning will commence joint inspection of schools as emergency shelters per requirements set out by the Ministry of Health for reopening
- Contact tracing has been aggressive

**ST. VINCENT AND THE GRENADINES**

16th case of COVID-19 recorded in SVG on April 28, 2020 | Two (2) of the pending results are for medical clearance

COVID-19 HOTLINE: (784) 534-4325 | coronavirus-taskforce@svg@gmail.com | #svgslowthespread
Suriname - National Coordination Center For Disaster Relief (NCCR)

- As at April 29, 2020, there were ten (10) confirmed cases of COVID-19 in Suriname.
- Two hundred and eighty five (285) persons are currently in quarantine.
- Eight (8) individuals have recovered.
- There has been one (1) COVID-related death.
- The National COVID-19 Management Team is now looking at how to find a balance between protecting public health and adapting the COVID-19 measures.
Updates from CDEMA Participating States

TRINIDAD & TOBAGO – Office of Disaster Preparedness & Management (ODPM)

- As at April 29, 2020 there were 116 positive cases of COVID-19, from a total of 1642 samples submitted to CARPHA for testing; 1335 Unique patient tests completed; 307 Repeated tests; 68 persons have been discharged; 8 deaths.
- The Stay at Home Order will be extended to May 15th, 2020. Prime Minister Dr the Hon. Keith Rowley said the extension has become necessary to allow health officials to expand testing. Dr Rowley said based on the results from the increased surveillance tests, an announcement will be made by May 10th, 2020 to determine whether Trinidad and Tobago is in a position to relax restrictions.
- Trinidad and Tobago’s borders will remain closed until May 15. Schools are also to remain closed during this period.
- Public Health Regulations have been on 25th April, 2020. The noted change is hardware, electrical and plumbing stores will now be opened from 8am to 12noon, Monday to Saturday.
- Minister of Health, Terrence Deyalsingh, said he was glad that the University of Oxford released a ranking of countries best positioned to ease lockdown measures and that T&T’s 2nd place position is a testament to Government’s work and efforts. Minister Deyalsingh clarified that 250 St. Ann’s patients were not sent home because of COVID-19, but their decanting took place as part of Government’s Mental Health Decentralisation Policy which was announced long before the advent of the COVID-19 pandemic.
- An appeal has been made to landlords, particularly those who have tenants who have lost their jobs or had their income reduced to have a heart and be lenient during this time. Prime Minister Rowley reminded landlords that under the laws of Trinidad and Tobago one month’s notice is required to evict a tenant.
- Minister Young confirmed that the French military requested overpass flights which were allowed. The US military also requested the same to pick up military personnel and American citizens from South America who were making their way back home.
- TT Nationals in Suriname will be granted permission to enter Trinidad and Tobago but just like the cruise ship cohort and 33 Nationals who recently returned from Barbados, they will be subject to quarantine.
- Starting this week, the Ministry of Health will be deepening its relationship and support of Residential Care facilities. Random testing will begin at these Homes for elderly residents. Masks and other Personal Protective Equipment (PPE) will be provided to workers at these facilities free of charge.
- 182 community tests have been conducted thus far, all of which returned negative for COVID-19.
- More information can be found at http://news.gov.tt.
Updates from CDEMA Participating States

TURKS & CAICOS ISLANDS – Department of Disaster Management & Emergencies (DDME)

- The COVID-19 position in the Turks & Caicos Islands has seen some change since the previous update as at 28th April, 2020:
  o The country continues to record no new covid-19 deaths.
  o Confirmed positive cases continue to remain at twelve (12); with five (5) cases now having recovered from covid-19, and one confirmed positive case continuing to remain under hospital care.
  o The number of suspected cases of COVID-19 is currently three (3). The suspected cases are TCI residents experiencing relevant symptoms without a history of contact with confirmed cases. Contact tracing is continuing. Two suspected cases are currently under hospital care.
  o There are currently sixty-six (66) individuals in quarantine/observation status.
  o This includes: the active confirmed cases (patients in the TCI that are currently infected) (5), contacts of confirmed cases (19), indirect contacts of confirmed cases (4), suspected cases (3), relatives/contacts of suspected cases (13), symptomatic persons not meeting the case definition and their contacts (10) and TCI residents returning from a country with local transmission and their contacts (12). Persons under observation/quarantine are either not displaying symptoms or have not met the case definition for COVID-19.
  o The increase in quarantine/observation numbers are as a result of persons experiencing relevant symptoms, but not meeting the COVID-19 case definition, and their contacts being added to quarantine/observation status.
  o To date, 500 individuals have been released from quarantine/observation status.
  o The public is hereby reminded that lockdown measures have been extended and you are to stay at home – only leaving for essential travel under the specified guidance.
Updates from CDEMA Participating States

VIRGIN ISLANDS (UK) – Department of Disaster Management (DDM)

- As at April 29, 2020, there are six (6) confirmed cases of COVID-19 in total; 114 persons tested and 17 pending tests
- Three (3) of these have been declared as recovered; two (2) cases are active; one (1) person hospitalised
- One (1) death recorded
- Aggressive contact tracing is ongoing and the testing protocol is being expanded
- The 24 hour curfew ended on Monday April 27; a number of businesses are allowed to operate between the hours of 6am-1pm. Curfew is in effect from 1pm-6am
- The State isolation and quarantine facilities have been enhanced and scaling up of health care capacities
- Conducting training and sensitization of how to use PPEs; the Premier has strongly encouraged persons to use face coverings when in public and when conducting businesses in establishments which were approved for reopening
- Facilities which were opened have to be inspected via checklist for public and private sectors
- The periodic spot checks have to be done by task force to ensure that businesses are complying with sanitization and social distancing markers
- Borders remained closed
- The stimulus packages are being worked on by the Ministry of Finance and the Honorable Premier
Caribbean Disaster Emergency Management Agency (CDEMA) Actions

REGIONAL LEVEL ENGAGEMENTS & COORDINATION

1. CDEMA continues to lead the multi sectoral coordination in support of the CARICOM technical lead for health, CARPHA.
2. The Regional Coordination Centre is activated.
3. The CDEMA CU continues to liaise with the CARICOM regional institutions towards supporting the strengthening and continuity planning as well as regional level coordination.
4. The CDEMA CU also continues to work closely with the CARICOM Secretariat, CARPHA and PAHO towards strengthening of the Health sector level coordination and readiness.
5. The Regional Protocol designed to support CARICOM States in their response to COVID-19 has been finalized with the support of Regional Institutions of CARICOM and submitted to the CARICOM Secretariat.
6. To support country response, COVID-19 Assessment and Analysis, modeling and surveillance products developed by University of the West Indies, through the George Alleyne Chronic Disease Research Centre are available via the CDEMA website.
7. The Logistics and Procurement Cell is working towards strengthening the regional logistics arrangements and the supply chain in the region. The Integrated Regional Logistics Hub is being established in Barbados to facilitate the reception and onward movement of emergency supplies. This cell includes partners such as the World Food Programme (WFP).
8. The National Disaster Offices are either on high alert and have activated their National Emergency Operations Centre (NEOCS) where there are confirmed cases. In this regard, the Regional Response Mechanism (RRM) continues to be on alert should the need arise for support from any Participating State.
10. CDEMA and the Regional Response Mechanism partners will continue to monitor the situation and will provide updates as appropriate.
