- Lave: 0.1%
- Kiol: 0.1%
- Chinese: 0.1%
- Other: 0.1%

According to the 2013 Census of Cambodia, the country has 12 major languages. Khmer is the most widely spoken language in the country. French is still spoken as a second language by many older Cambodians, and is also the language of instruction in some schools and universities that are funded by the government of France. Since 1993, there has been a growing use of English, which has been replacing French as the main foreign language.
