### LAND TENURE

- Is there a Site Management Agency at the site? Yes
- Is there a Site Management Committee at the site? Yes
- Name of Site Management Agency: None
- Site Status: Open

### SHELTER

- Top one NFI need not accessible to IDPs: None
- Top two NFI need not accessible to IDPs: None
- Top three NFI need not accessible to IDPs: None
- Number of Household living outdoors: 0
- Number of Household living in emergency shelter: 152
- Number of Household living in permanent shelter: 0

### FOOD SECURITY

- Do most people have access to functioning market? No
- Why people don't have access to market? There is no Market
- Have people received food from a distribution at site? Yes
- When was the latest food distribution at this site? Last 7 days
- Do most people have access to farming lands? No
- How far is the farming lands? None

### EDUCATION

- Majority of the school age children have access to a functioning school: No
- Why school age children don't have access to education facility? No school go to village
- Number of school age children attending school: None
- Walking time to the nearest education facility: None

### MOBILITÉ

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don’t know

### COMMUNITY ENGAGEMENT

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies Community leader or group Local government office
- Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies Community leader or group Local government office

### WASH

- Main source of drinking water: Open well
- Main problem with water: Flavour/Taste
- Average daily water consumption per person: Unknown
- Average wait time for water: Less than 15 minutes
- Number of functional latrines at site: 152
- Is there functional bathing space at site? Yes
- How clean do you think the site is in terms of waste? 3. More or less clean

### HEALTH

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: No
- Time to reach the nearest health facility: None
- Why people don’t have access to healthcare? There is no health clinic as people go to Dombe
- Is medicines available for majority of the population: No
- During their pregnancy, are most women seeing a health professional?: No
- Do populations with HIV know where to go to seek treatment and care?: Unknown
- Do people know where to go to seek Tuberculosis treatment and care?: Unknown
- Has cholera been reported at this site since the cyclone?: No
- When was the last case reported?: None

### PROTECTION

- Is there a support mechanism for psychosocial needs of the population?: No
- Is there a Site Management Agency at the site? Yes
- Is there a Site Management Committee at the site? Yes
- Name of Site Management Agency: None
- Is there a Site Management Agency at the site? None
- Name of Site Management Agency: Unknown
- Is the site physically accessible? Limited access
- Is the site safe and secure? Yes

Households: 42

- **NEED**
  - First need: Education
  - Second need: Energy
  - Third need: Shelter

- **SHELTER**
  - Top one NFI need not accessible to IDPs: Mosquito nets
  - Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,...)
  - Top three NFI need not accessible to IDPs: Cooking items (pots/pans)
  - Number of Household living outdoors: 0
  - Number of Household living in emergency shelter: 38
  - Number of Household living in permanent shelter: 4

- **FOOD SECURITY**
  - Do most people have access to functioning market? Yes
  - Why do people have access to market? No money to purchase items
  - Have people received food from a distribution at site? Yes
  - When was the latest food distribution at this site? More than two weeks
  - Do most people have access to farming lands? Yes
  - How far is the farming lands? < 1 hr

- **EDUCATION**
  - Majority of the school age children have access to a functioning school: Yes
  - Why do school children don't have access to education facility? Don't know
  - Number of school age children attending school: 100
  - Walking time to the nearest education facility: Less than 15 minutes

- **MOBILITY**
  - Are the majority of the population living on this site? Yes
  - Why is the majority of the population not living on site? Don't know

- **VULNERABILITIES**
  - Pregnant women: 5
  - Breastfeeding mothers: 14
  - Mental/Physical disability: 1
  - Chronic diseases: 0
  - Elderly without care givers: 7
  - Single female head of household: 14
  - Single male headed of household: 0
  - Elderly head of household: 8

- **LAND TENURE**
  - Number of Household owning land in place of origin: 48%
  - Number of Household renting land in place of origin: 52%

- **WASH**
  - Main source of drinking water: Hand pumps
  - Main problem with water: None
  - Average daily water consumption per person: Unknown
  - Average wait time for water: No wait
  - Number of functional latrines at site: 152
  - Is there functional bathing space at site? Yes
  - How clean you think the site is in terms of waste: 2. Clean
  - Do people live in areas where open defecation is frequently visible? Unknown

- **HEALTH**
  - Availability of healthcare services on site: Yes
  - Number of functioning healthcare facilities: 1
  - Do people have access to healthcare services: Yes
  - Time to reach the nearest health facility: Less than 15 minutes
  - Why people don't have access to healthcare: None
  - Is medicines available for majority of the population: Do not know/ No access
  - During their pregnancy, are most women using a health professional? Yes
  - Do populations with HIV know where to go to seek treatment and care? Yes
  - Do people know where to go to seek Tuberculosis treatment and care? Yes
  - Has cholera been reported at this site since the cyclone? No
  - When was the last case reported? None

- **PROTECTION**
  - Is there security provider/mechanism that ensure safety of persons at the location? No
  - Is there a mechanism for referral for GBV survivors? No
  - Is there a support mechanism for psychosocial needs of the population? Yes

- **COMMUNITY ENGAGEMENT**
  - Top 3 ways population communicates with humanitarian partners: Call centre / hotline
  - Top 3 ways humanitarian partners communicate with population: Call centre / hotline

### Food Security

- Do most people have access to functioning market? No
- Why people don't have access to market? There is no Market
- Have people received food from a distribution at site? Yes
- When was the latest food distribution at this site? Last 7 days
- Do most people have access to farming lands? No
- How far is the farming lands? None

### Education

- Majority of the school age children have access to a functioning school: No
- Why school age children don't have access to education facility? Children go to village school
- Number of school age children attending school: None
- Walking time to the nearest education facility: None

### Mobility

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don't know

### Health

- Main source of drinking water: Hand pumps
- Main problem with water: Flavour/Taste
- Average daily water consumption per person: Unknown
- Average wait time for water: Less than 15 minutes
- Number of functional latrines at site: 67
- Is there functional bathing space at site? Yes
- How clean you think the site is in terms of waste? 3. More or less clean
- Do people live in areas where open defecation is frequently visible? No

### Vulnerabilities

- Is there a Site Management Committee at the site? Yes
- Is there a Site Management Agency at the site? Yes
- Name of Site Management Agency: None
- Is there a service provider contact list? None
- Is the site physically accessible? Limited access
- Site Status: Open
- Is there security provider/mechanism that ensure safety of persons at the location? None
- Is there a support mechanism for psychosocial needs of the population? None
- Is there a mechanism for referral for GBV survivors? None
- Is there a support mechanism for psychosocial needs of the population? No
- Is a Site Management Agency at the site? Yes
- Is there security provider/mechanism that ensure safety of persons at the location? None
- Is there a support mechanism for psychosocial needs of the population? No
- Is a Site Management Agency at the site? Yes
- Is there security provider/mechanism that ensure safety of persons at the location? None
- Is there a support mechanism for psychosocial needs of the population? No
- Is a Site Management Agency at the site? Yes
- Is there security provider/mechanism that ensure safety of persons at the location? None
- Is there a support mechanism for psychosocial needs of the population? No
- Is a Site Management Agency at the site? Yes

### Need

- Top one NFI need not accessible to IDPs:
  - Items for sleeping (mats, blankets,...)
  - Hygiene products (for personal hygiene)
- Top two NFI need not accessible to IDPs:
  - Mosquito nets
  - Hand pumps
- Top three NFI need not accessible to IDPs:
  - Items for sleeping (mats, blankets,...)
  - Hygiene products (for personal hygiene)
  - Mosquito nets

### Land Tenure

- Number of Household renting land in place of origin: 0
- Number of Household owning land in place of origin: 67

### WASH

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: No
- Time to reach the nearest health facility: None
- Why people don't have access to healthcare: There is no health clinic as people go to Dombe
- Is medicines available for majority of the population: No
- During their pregnancy, are most women seeing a health professional?: Unknown
- Do populations with HIV know where to go to seek treatment and care?: Unknown
- Do people know where to go to seek Tuberculosis treatment and care?: Unknown
- Has cholera been reported at this site since the cyclone?: No
- When was the last case reported?: Click here

### Protection

- Is there security provider/mechanism that ensure safety of persons at the location? Yes
- Is there a mechanism for referral for GBV survivors? No
- Is there a support mechanism for psychosocial needs of the population?: No

### Community Engagement

- Top 3 ways population communicates with humanitarian partners: Religious Leader or group Community leader or group Local government office
- Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies Community leader or group Local government office

#### Demographic

- **Age Range**: 11-Sep-2019
  - < 1: 7%
  - 1 - 5: 9%
  - 6 - 17: 11%
  - 18 - 59: 19%
  - 60 +: 4%
- **% Female**: 51%

#### Food Security

- **First need**: Plates
- **Second need**: Food
- **Third need**: Health

#### Shelter

- **Top one NFI need not accessible to IDPs**: Items for sleeping
- **Top two NFI need not accessible to IDPs**: Cooking items (pots/pans)
- **Top three NFI need not accessible to IDPs**: Hygiene products (for personal hygiene)

#### Need

- **First need**: Plates
- **Second need**: Food
- **Third need**: Health

#### Vulnerabilities

- **Pregnant women**:
  - Less than 15 minutes
- **Breastfeeding mothers**:
  - Less than 15 minutes
- **Chronic diseases**:
  - Less than 15 minutes
- **Mental/Physical disability**:
  - Less than 15 minutes

#### Health

- **Availability of healthcare services on site**: None
- **Access to healthcare facilities**: None
- **Average wait time for water**: 0
- **Number of functioning healthcare facilities**: 0
- **Average daily water consumption per person**: 21 - 60 minutes
- **Number of household living in permanent shelter**: None
- **Number of household living in emergency shelter**: None
- **Number of household living outdoors**: None
- **Site Status**: Open

#### WASH

- **Main source of drinking water**: None
- **Number of household living in permanent shelter**: None
- **Hands washing facilities**: None
- **Hygiene products (for personal hygiene)**: None
- **Number of household living in emergency shelter**: None
- **Number of household living in permanent shelter**: None
- **Number of household renting land in place of origin**: None
- **Number of household owning land in place of origin**: None
- **Average daily water consumption per person**: None
- **Number of household living in permanent shelter**: None
- **Number of household living in emergency shelter**: None
- **Number of household living outdoors**: None
- **Time to reach the nearest health facility**: 31 - 60 minutes

#### Education

- **Majority of school age children have access to a functioning school**: Yes
- **Why school age children don’t have access to education facility**: Don’t know
- **Number of school age children attending school**: 100
- **Walking time to the nearest education facility**: Less than 15 minutes

#### Mobility

- **Are the majority of the population living on this site?**: Yes
- **Why is the majority of the population not living on site?**: Don’t know

- **Province of Origin**: Zambezia
- **District of Origin**: Namacurra
- **Post of Origin**: Macuze
- **Locality of Origin**: Furquia

  - 6 - 17: 24%
  - 18 - 59: 18%
  - 60+: 2%
- **Gender:**
  - Male: 53%
  - Female: 45%

#### Need

- **First need:** Education
- **Second need:** Shelter
- **Third need:** Household items (NFI)

#### Shelters

- **Top one NFI need not accessible to IDPs:** Mosquito nets
- **Top two NFI need not accessible to IDPs:** Cooking items (pots/pan)
- **Top three NFI need not accessible to IDPs:** Hygiene products (for personal hygiene)
- **Number of Household living outdoors:** 0
- **Number of Household living in emergency shelter:** 405
- **Number of Household living in permanent shelter:** 0

#### Food Security

- **Do most people have access to functioning market?** No
- **Why people don't have access to market?** Market is not accessible
- **Have people received food from a distribution at site?** Yes
- **When was the latest food distribution at this site?** Last 7 days
- **Do most people have access to farming land?** Yes
- **How far is the farming land?** <1 hr

#### Education

- **Majority of the school age children have access to a functioning school?** Yes
- **Why school age children don't have access to education facility?** Don't know
- **Number of school age children attending school:** 70
- **Walking time to the nearest education facility:** 16 - 30 minutes

#### Mobility

- **Are the majority of the population living on this site?** Yes
- **Why is the majority of the population not living on site?** Don't know
- **Province of Origin:** Sofala
- **District of Origin:** Nhamatanda
- **Post of Origin:** Tica
- **Locality of Origin:** Lamego

#### Vulnerabilities

- **Pregnant women:** 15
- **Breastfeeding mothers:** 47
- **Mental/Physical disability:** 15
- **Chronic diseases:** 0
- **Elderly without care givers:** 70
- **Single female head of household:** 56
- **Single male headed of household:** 4
- **Elderly head of household:** 5
- **Why school age children don't have access to education facility?** Don't know

#### Shelter

- **Number of functioning healthcare facilities:** 274
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes
- **How clean you think the site is in terms of waste?** 3. More or less clean
- **Do people live in areas where open defecation is frequently visible?** Yes

#### WASH

- **Main source of drinking water:** Hand pumps
- **Main problem with water:** None
- **Average daily water consumption per person:** 5 - 10 ltr
- **Average wait time for water:** No wait
- **Number of functional latrines at site:** 274
- **Number of functional health facilities at site:** 1

#### Healthcare

- **Availability of healthcare services on site:** Yes
- **Number of functioning healthcare facilities:** 1
- **Do people have access to healthcare services:** Yes
- **Time to reach the nearest health facility:** Less than 15 minutes

#### Protection

- **Is there security provider/mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** Yes
- **Is there a support mechanism for psychosocial needs of the population?** Yes

#### Community Engagement

- **Top 3 ways population communicates with humanitarian partners:** Community leader or group Call centre /hotline Women’s groups
- **Top 3 ways humanitarian partners communicates with population:** Staff from humanitarian agencies Women’s groups Local government office

<td>Breastfeeding mothers: 36</td>
<td>land in place of origin: None</td>
</tr>
<tr>
<td>Third need: Water</td>
<td>Elderly without care givers: 2</td>
<td>Number of Household owning land in place of origin: 1</td>
</tr>
</tbody>
</table>

#### SHELTER

- Top one NFI need not accessible to IDPs: Items for sleeping
- Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
- Top three NFI need not accessible to IDPs: Other

- Number of Household living outdoors: 0
- Number of Household living in emergency shelter: 60
- Number of Household living in permanent shelter: 20

#### FOOD SECURITY

- Do most people have access to functioning market? No
- Why people don't have access to market? Transport to market is too expensive
- Have people received food from a distribution at site? No
- When was the latest food distribution at this site? 2019-10-09
- Do most people have access to farming lands? Yes
- How far is the farming lands? 1 - 2 hrs

#### EDUCATION

- Majority of the school age children have access to a functioning school: Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: 100
- Walking time to the nearest education facility: 16 - 30 minutes

#### MOBILITY

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don’t know

#### COMMUNITY ENGAGEMENT

- Top 3 ways population communicates with humanitarian partners: Radio programme in-calls Community volunteer/mobilizers Local government office
- Top 3 ways humanitarian partners communicate with population: Radio Community leader or group Local government office

### Notes

- The demographic have been obtained by using the demographic calculation method.
- The information included in this report was collected from 2019-10-09 to 2019-10-16. To access information on IDP population in displacement sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update.
The Displacement Tracking Matrix (DTM) report provides information on the status of settlements and the needs of displaced populations. The report covers the period from 2019-10-09 to 2019-10-16. Here are some key findings:

**Site Information**
- **Site Classification:** Resettlement Site (planned)
- **Site Opening Date:** 31-Mar-2020
- **Province:** Zambezia
- **District:** Macuze
- **Post:** Furquia

**Demographic Data**
- Total Households: 56
- Total Individuals: 160
- Age distribution:
  - Under 1: 6%
  - 1-5: 30%
  - 6-17: 16%
  - 18-59: 20%
  - 60+: 6%
  - Unknown: 16%

**Shelter Characteristics**
- Number of households in permanent shelter: 26
- Number of households in emergency shelter: 30
- Number of households living outdoors: 0

**Food Security**
- Do most people have access to functioning market? Yes
- Why people don't have access to market? None
- Have people received food from a distribution at site? Yes
- When was the last food distribution at this site? Last 14 days
- Do most people have access to farming lands? Yes
- How far is the farming lands? <1 hr

**Wash**
- Main source of drinking water: Hand pumps
- Hand pumps
- Water consumed per person: Unknown
- Average daily water consumption: Between 16 and 30 minutes
- Number of functional latrines: 0
- Is there functioning bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? Yes
- How clean do you think the site is in terms of waste? 2. Clean
- Do people live in areas where open defecation is frequently visible? No

**Health**
- Availability of healthcare services: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: Yes
- Time to reach the nearest health facility: 31 - 60 minutes
- Why people don't have access to healthcare? None
- Is medicines available for majority of the population? Do not know/No answer
- During their pregnancy, are most women using a health professional? Yes
- Do populations with HIV know where to go to seek treatment and care? Yes
- Do people know where to go to seek tuberculosis treatment and care? Yes
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? None

**Protection**
- Is there a security provider/mechanism that ensure safety of persons at the location? No
- Is there a mechanism for referral for GBV survivors? No
- Is there a support mechanism for psychosocial needs of the population? No

**Community Engagement**
- Top 3 ways population communicates with humanitarian partners: Suggestion box, Local government office, Other
- Top 3 ways humanitarian partners communicate with population: Community leader or group, Local government office

The information included in this report was collected from 2019-10-09 to 2019-10-16. To access information on IDP population in displacements sites as of today, kindly consult IDOM Displacement Movement Tracking – Daily Update.
### Site Information

- **Site Classification:** Resettlement Site (planned)
- **Site Opening Date:** 28-May-2019
- **Province:** Sofala
- **District:** Dondo
- **Post:** Dondo
- **Locality:** Laimare Machax

The demographic have been obtained by using the demographic calculation method.

### Site Details
- **Site Classification:** Resettlement Site (planned)
- **Site Type:** Open
- **Site Opening Date:** 17-Mar-2019
- **Province:** Manica
- **District:** Sussundenga
- **Post:** Dombe
- **Locality:** Matalaca

### Site Management
- **Is there a Site Management Committee at the site?** Yes
- **Is there a Site Management Agency at the site?** No
- **Name of Site Management Agency:** None
- **Is there a service provider contact list?** None
- **Is the site physically accessible?** Yes
- **Site Status:** Open

### Households
- **Number of Household owning land in place of origin:** 0
- **Number of Household renting land in place of origin:** 339
- **Number of Household living in permanent shelter:** 90
- **Number of Household living in emergency shelter:** 0
- **Number of Household living outdoors:** 249
- **Number of school age children attending school:** 65

### Individuals
- **Number of Pregnant women:** 22
- **Number of Breastfeeding mothers:** 22
- **Number of Elderly without care givers:** 0
- **Number of Elderly head of household:** 0
- **Number of Single female head of household:** 0
- **Number of Single male head of household:** 0
- **Number of Mental/Physical disability individuals:** 0

### Food Security
- **Main source of drinking water:** Hand pumps
- **Main problem with water:** None
- **Average daily water consumption per person:** 10 - 15 ltr
- **Average wait time for water:** Between 16 and 30 minutes
- **Number of functional latrines at site:** 91
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes, but without water and soap
- **How clean you think the site is in terms of waste?** 2. Clean
- **Do people live in areas where open defecation is frequently visible?** No

### Education
- **Majority of the school age children have access to a functioning school:** Yes
- **Why school age children don’t have access to education facility?** Don’t know
- **Number of school age children attending school:** 65
- **Walking time to the nearest education facility:** 31 - 60 minutes

### Health
- **Is medicines available for majority of the population:** Yes
- **During their pregnancy, are most women seeing a health professional:** Yes
- **Is medicines available for majority of the population:** Yes
- **Has cholera been reported at this site since the cyclone?** No
- **When was the last case reported?** 17-Mar-2019

### Protection
- **Is there security provider/mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** Yes
