Disaster Title: **Flood**  
Location: Saudi Arabia.  
Date of on-set: 25.11.2009

Event details:
Flooding killed around 100 people in Red Sea port city of Jeddah after a heavy downpour. Heavy rainstorms on Wednesday hampered the start of the annual Hajj pilgrimage in the nearby city of Makkah. Many of the victims in the Red Sea port city died in their vehicles after the flash floods – either by drowning or in car crashes. Some reportedly were killed when bridges collapsed on top of them.
