

DISPLACEMENT TRACKING MATRIX

EMERGENCY TRACKING

MOSUL OPERATIONS DATA SNAPSHOT: 5 FEBRUARY 2017

The Emergency Tracking (ET) system is a crisis-based tool that aims at tracking sudden displacement or return movements triggered by specific crises. The ET figures reported on this portal are not cumulative of the all persons affected by the Mosul crisis thus far, rather

the ET update provides only a snapshot of the current displacement situation for the indicated date. The data and information reported on this page are related solely to the displacement caused by the Mosul operations which started on 17 October 2016.

TOTAL NUMBER OF IDPS CURRENTLY DISPLACED

26,981
IDP FAMILIES

WHERE ARE PEOPLE COMING FROM?

Number of individuals displaced, by district of origin

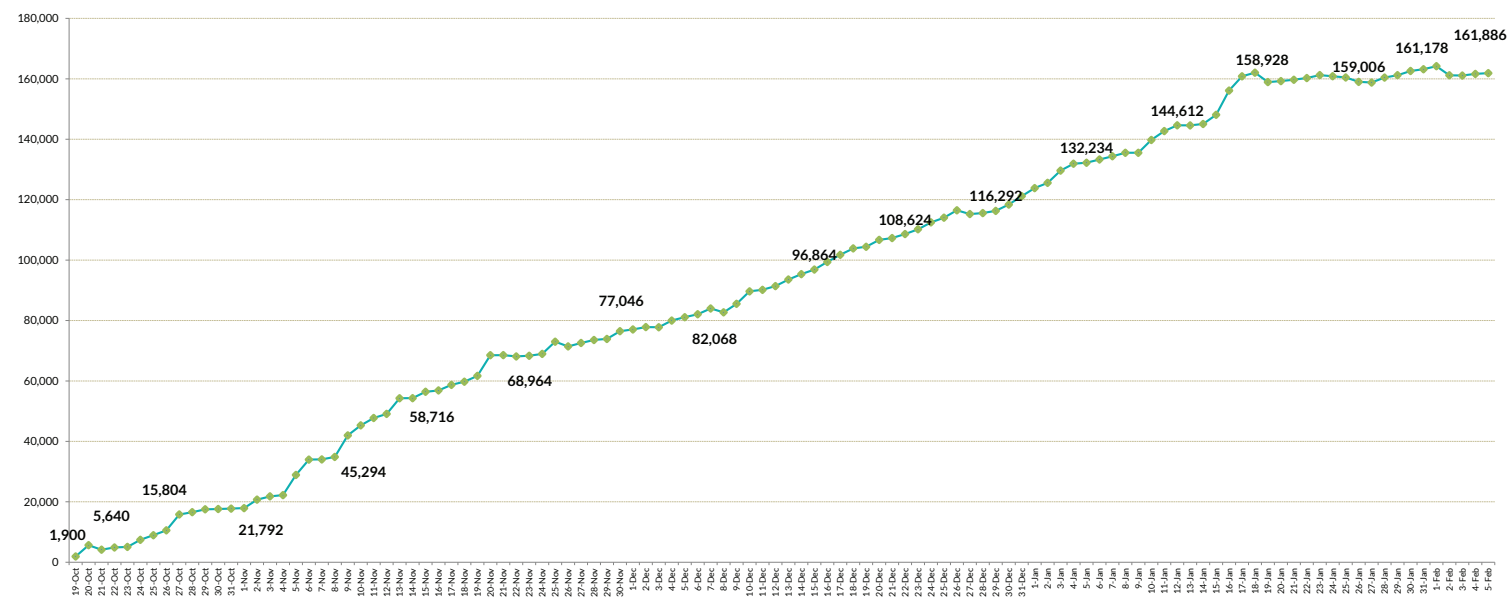

WHERE ARE PEOPLE STAYING?

Number of individuals displaced, by Shelter category

NUMBER OF DISPLACED INDIVIDUALS IDENTIFIED BY EMERGENCY TRACKING SINCE 17 OCTOBER

On 1 February:

- Nargizlia 1 camp received approximately 13 families;
- Haj Ali camp current population reported an increase of approximately 39 families due to new arrivals on 4 February.

*Emergency tracking numbers are not cumulative. They reflect a snapshot of displacement on the day of reporting. The number of individuals is calculated by multiplying the number of identified families by six, which is the average size of an Iraqi family.

The IOM Iraq Displacement Tracking Matrix (DTM) is the standard data source being used in Iraq to guide the humanitarian response. Emergency tracking for the Mosul operations began identifying people displaced resulting from military actions that began on 17 October.
