

Situation Update (Pakistan Floods 2011)

Brief description of the NCA Emergency Response (Monsoon 2011):

- As of 1st January 2012, according to FAO, 86% of the flood water has receded from the flood affected areas with 1,972 km of land still under water. Badin, Sanghar, Umerkot and Mirpurkhas still remain severely affected by the floods with residual floodwater still present
- All Clusters have presented Early Recovery projects to the Provincial Disaster Management Authority in Sindh and Balochistan for a possible launch of the Early Recovery Framework by end of January
- The overall primary needs are safe water and adequate sanitation provision, basic health and nutrition services for pregnant and lactating women and children under 5 years of age and access to education for school-aged children
- Many humanitarian agencies have been forced to scale down their presence in the flood affected areas due to shortage of funding. Further support is critically needed to support the families returning to their damaged homes after having spent over three tough months in temporary shelters and makeshift camps (www.pakresponse.info)

NCA Response (Pak111):

Research and Development Foundation (RDF) – Sindh

- RDF's early recovery interventions WASH, Livelihood and Shelter are targeting 10,990 flood affected families in districts Mirpurkhas and Umerkot
- Two Water Treatment Units (WTUs) are operational and providing clean drinking water to flood affected in district Mirpurkhas and in district Umerkot while other WASH interventions (hand pumps and latrines, hygiene promotion) are also ongoing

Pakistan Fisherfolk Forum (PFF) – Sindh

- PFF's emergency/early recovery interventions WASH and distribution of F/NFIs are targeting 2,600 flood affected families in district Tando Allahyar
- The WTU is operational and currently providing clean drinking water to 148 flood affected families in district Tando Allahyar
- PFF distributed F/NFIs to 805 flood affected families of 2,100 (planned target)

Sungi Development Foundation (Sungi) – Baluchistan

- Sungi's emergency/early recovery interventions WASH and distribution of F/NFIs are targeting 1,350 flood affected families in district Jaffarabad
- The WTU is operational and currently providing clean drinking water to 360 flood affected families while other assessments have also been completed for distribution of F/NFIs in Jaffarabad
