The **Global Humanitarian Overview** published on 4 December 2018 announced funding requirements of \$21.9 billion for 21 Humanitarian Response Plans and the Venezuela Regional Refugee and Migrant Response Plan. By the end of July, the requirements had reached \$26.14 billion. As at the end of July, **141.7 million people are estimated to be in need in 57 countries**, a slight decrease of 1.2 million from last month.² The plans aim to **provide aid to 106.3 million people**.

News from the pooled funds

The **Central Emergency Response Fund (CERF)** allocated \$22.6 million from the Rapid Response Window to six countries in June and July, including to Myanmar and Libya for displacement and to Ethiopia, El Salvador, Guatemala, and Kenya for drought.

CERF also published its annual **Results Report** which is available online. This data-driven publication provides a comprehensive picture of the results achieved in 2018 with the \$512 million in humanitarian funding from close to 60 donors.

Fifteen Country-based Pooled Funds (CBPFs) allocated \$125.5 million in June and July. The highest allocations were from the Turkey (\$46.2 million), Ethiopia (\$26.9 million), and Sudan (\$16.2 million) funds. The total amount allocated by CBPFs in 2019 stands at \$441.8 million.

The Ukraine Humanitarian Fund established in February 2019 launched its first standard allocation of \$3.2 million. This allocation aims to provide humanitarian assistance to people

affected by the conflict in eastern Ukraine where the needs are most severe. The allocation will target households with disabled members and the most vulnerable elderly people.

Two recent films feature the work of the **CBPFs in Jordan and Iraq** and demonstrate how the funds assist people affected by the crisis. The first film focuses on the **Jordan Humanitarian Fund** features Mjalli and his family who fled Syria and received much needed support after finding refuge in an abandoned house close to the border region. The second film focuses on the **Iraq Humanitarian Fund** features several children at a learning space and shows how they benefit from the support provided by the teachers.

Other resource mobilization news

A High-Level Event on the **Response and Preparedness for the Ebola Outbreak in the Democratic Republic of the Congo** took place on 15 July in Geneva. The event co-hosted by WHO and OCHA aimed to mobilize the international community to provide greater political and financial support. More than 150 representatives from 35 Member States, donors, regional organizations, eight UN agencies and 17 NGOs/INGOs participated. Several donors announced new and ongoing financial resources and advocated for other donors to step up support. The current Ebola outbreak is yet another layer to one of the world's most complex humanitarian crises in which 13 million people need humanitarian assistance.

¹ In the context of response plans covered by the GHO, the figure for people to receive aid is always a subset of the figure for the number of people in need, as it is the result of collective response analysis taking into consideration humanitarian access, response capacity of partners, and responses planned/anticipated by humanitarian actors outside of the appeal.

² These 57 countries comprise the HRP countries, countries covered by the Syria 3RP, regional refugee response plans for Burundi, DRC, Nigeria, South Sudan, sixteen countries covered by the Venezuela Regional Refugee and Migrant Response Plan, as well as countries with appeals denoted as other.

³ Global humanitarian funding includes support to organisations and activities in UN-coordinated plans, as well as reported funding for the Red Cross / Red Crescent Movement, in-kind assistance, bilateral funding and others.

⁴ As reported by donors and recipients to FTS.

⁵ In-country reports indicate that \$584.3 million (45%) has been received against the Ethiopia Humanitarian Disaster Response Plan, including carry-over and Government contributions.

⁶ The requirements for Mozambique are being revised and expected to increase significantly.

⁷ Funding for these RRP's as per UNHCR reports, 31 July 2018.

⁸ The Jordan Chapter in the Syria 3RP has been revised with new requirements totaling \$5.53 billion and will be online shortly.

⁹ The requirements for Zimbabwe have increased to approximately \$460 million and will be online shortly.

¹⁰ Funding for these Regional Refugee Response Plans (RRP) as per UNHCR reports, 31 July 2019.

¹¹ The requirements for Burkina Faso have increased from \$100.3 million last month due to the declining food security situation in northern areas.

Please remember to report contributions to FTS to ensure full visibility of funding. Consult the most up-to-date figures at:
