The **Global Humanitarian Overview** published on 4 December 2018 announced funding requirements of \$21.9 billion for 21 Humanitarian Response Plans (HRP) and the Venezuela Regional Refugee and Migrant Response Plan. By the end of September 2019, requirements had reached \$26.75 billion. The change in requirements since last month is mainly due to an increase in requirements for Mozambique.

As at the end of August, **148.7 million people are estimated to be in need in 58 countries**. The plans aim to collectively **provide aid to 109 million people**.

Multiple and consecutive shocks, including drought, cyclones, floods and insecurity, have left an estimated 2.6 million people - almost 10 per cent of the country's population - in need of life-saving and resilience-building assistance in Mozambique.

The **Mozambique HRP** was revised upwards to \$620.5 million, an increase of \$179.6 million from the previous update. The revised HRP aims to assist 2.4 million people. The original Mozambique Humanitarian Response Plan (November 2018 to June 2019) was first developed in November 2018 to support the Government-led response to the humanitarian impact of the poor performance of the January-March rainy season and the displacement of people due to insecurity in Cabo Delgado. The document was subsequently revised in March and May 2019 to reflect additional humanitarian needs following the consecutive Tropical Cyclones Idai and Kenneth which made landfall in the country in March and April. The current revision extends the HRP to May 2020 as humanitarian needs arising from the drought, cyclones and internal displacements will continue at least until the next harvest in March-May 2020.

News from the pooled funds

The **Central Emergency Response Fund (CERF)** allocated \$53 million in September as part of the second, \$75 million allocation round to underfunded emergencies ([see here for an update](#) and [here for more information](#)). The remaining projects will be finalized in early October.

CERF allocated \$12 million from its Rapid Response Window, in response to Hurricane Dorian in the Bahamas (\$1 million), the Ebola

outbreak in the Democratic Republic of the Congo (\$10 million) and for the Humanitarian Air Service in Libya (\$1.6 million).

Ten **Country-based Pooled Funds (CBPFs)** allocated a total of \$78.8 million this month. The highest allocations are from South Sudan (\$28.9 million), Yemen (\$16.2 million), Syria Cross-Border (\$15.9 million) and Myanmar (\$5.7 million). The total amount allocated in 2019 stands at \$664.7 million.

¹ In the context of response plans covered by the GHO, the figure for people to receive aid is always a subset of the figure for the number of people in need, as it is the result of collective response analysis taking into consideration humanitarian access, response capacity of partners, and responses planned/anticipated by humanitarian actors outside of the appeal.

² These 58 countries comprise the HRP countries, countries covered by the Syria 3RP, regional refugee response plans for Burundi, DRC, Nigeria, South Sudan, sixteen countries covered by the Venezuela Regional Refugee and Migrant Response Plan, as well as countries with appeals denoted as other.

³ Global humanitarian funding includes support to organisations and activities in UN-coordinated plans, as well as reported funding for the Red Cross / Red Crescent Movement, in-kind assistance, bilateral funding and others.

⁴ As reported by donors and recipients to FTS.

⁵ In-country reports indicate that \$677.2 million has been received against the Ethiopia Humanitarian Disaster Response Plan requirements as of 17 September, including carry-over and Government contributions.

⁶ Contributions received towards these plans are counted as global humanitarian funding.

⁷ Funding for these Regional Refugee Response Plans (RRP) as per [UNHCR reports](#), 30 September 2019.
