

Reporting Period: 28 February 2013 – 6 March 2013

Donor: OFDA/USAID

Submission Date: 6 March 2013

Incidents Update:

During the reporting period seven natural disaster incidents were reported.

Central Region:

Kabul Province: On the 26th of February, as per report by ANDMA, heavy rainfall affected around ten families in Kabul city and another 15 families in Surobi district, Tapa Dowom-Tapa Payen village. Three deaths and one injury were also reported in Dehmazang of Kabul City. On the 26th of February, the assessment team comprised of IOM, ANDMA, CARE, and District 3 Municipality, identified six families in need of assistance and confirmed the reported deaths and injury. The main needs of the affected families were household items, winter warm clothing, emergency shelter, and food items. IOM provided winter warm clothing and blankets while CARE provided tents to all six families on the 28th of February. Further, additional 15 families were identified in Surobi district by joint assessment team (IOM, ANDMA, district government representatives). Their main needs were NFIs, emergency shelter and food items. IOM will provide family revitalisation and emergency shelter kits to all the families.

Kabul, Surobi, Assessment of heavy snowfall incident, IOM, 28 February 2013

Parwan, Sayed Khel, Assessment of heavy snowfall incident, IOM, 4 March 2013

- **Parwan Province:** On the 27th of February, as per report by Parwan ANDMA, heavy snowfall affected around 135 families in seven districts (Chaharikar, Sia Gird, Salang, Jabal Siraj, Sayed Khel, Shinwari, Surkhi Parsa). On the 3rd of March, the assessment team comprised of IOM, ANDMA, CARE, AREA/WFP, RRD, DoAIL, district government representatives initiated an assessment which continued till the 5th of March. The team identified 140 families in need of immediate assistance, six deaths and nine injuries were also confirmed during the assessment. The main needs of the affected families were winter warm clothing, emergency shelter, and food items. IOM is in the process of coordinating the response with its partners and will soon deliver the needed relief items to this affected population.

South Region:

- Helmand Province:** On the 25th of March, as reported by Helmand ANDMA, flash floods affected around 220 families in Lashkargah city (Baba Je and Qala Boast villages) of the province. IOM together with ANDMA, IRC, WFP, DoRR, and PG representative conducted an assessment on the 26th of February. 125 families were identified in Qalae Boast (120 houses moderately damaged, five houses severely damaged) and 95 families were identified in Baba Je whose houses were moderately damaged. IRC will provide household and hygiene kits to 95 families in Baba Je village. 125 families in Qalae Boast will be assisted by IOM after coordination with its partners. Needs for food items have been referred to WFP.

Helmand, Assessment of flood incident, IOM, 26 February 2013

Nangarhar, Deh Bala, Assessment of heavy rainfall incident, IOM, 2 March 2013

East Region:

- Nangarhar Province:** On the 26th of February, as per initial reports from ANDMA and DoRR, 423 families were reported affected by heavy rainfall and flash flood. The assessments were initiated on the 2nd of March and are expected to be finalised on the 7th of March. The below table provides an overview of already conducted assessments.

Tracking Sheet, Heavy Rainfall-Affected Families in Nangarhar 28 Feb 2013

- **Laghman Province:** On the 26th of February, heavy rainfall affected another 40 families in Alishing, Mehtarlam, and Alingar districts. During the assessment conducted on the 28th of February by IOM, ANDMA, and WFP PAT; four families were identified in need of NFIs, emergency shelter and food items. IOM provided family revitalization kits, winter warm clothing, emergency shelter, and solar kits to all families on the 4th of March; while WFP committed to provide food items.
- **Nooristan Province:** On the 26th of February, as reported by Kunar ANDMA, reportedly heavy rainfall affected 90 families in 12 districts (Narang, Asmar, Shegal, Dangam, Khas Kunar, Sawkay, Sarkani, Asadabad, Chapa Dara, Nurgal, Watapur, Dara-I-Pech). IOM, IMC and ANDMA conducted an assessment and 19 families were confirmed in need of assistance in Sawkay, Khas Kunar and Sarkani districts. The response will be coordinated once the assessment finalised.

Southeast Region:

- **Ghazni Province:** As reported by ANDMA on the 4th of March, heavy snowfall resulted in three houses destroyed in Ghazni Centre and Khwaja Umari district. Given the low number of affected families, IOM encouraged the local government and ARCS to assist the caseload. However, IOM's field staff are monitoring the situation and will conduct an assessment in case the affected families remain unassisted.
- **Khost Province:** At the same time, as reported by Khost ANDMA and Community elders on the 3rd of March, heavy rainfall also affected nine families in Gurbuz and Matun districts. The assessment of the affected families is currently being coordinated with ANDMA and ARCS.

Northeast Region:

- **Badakhshan-Faizabad District:** Provincial Governor reported a landslide caseload to the IOM field office on the 25th of February. According to the initial information, the incident affected 23 families five days earlier. The assessment team consisting of IOM, FOCUS and ANDMA visited the area on the 25th of February and found that ten households (23 families) were completely destroyed. In addition, the families lost their household items, cloths and food stock when the roof collapsed. For the time being, the affected families are living with their host families in the same village. In order to reduce their vulnerability, the assessment team recommended the provision of household items, winter warm clothing, emergency shelter and food items. Consequently, IOM provided all the families with winter warm clothing and emergency shelter kits on the 4th of March.
