INTRODUCTION
Harikar NGO is a neutral, non-governmental, non-profit humanitarian organization established in 30th May 2004 by group of social activists. Harikar NGO as stated in its mission statement strives toward the fulfilment of human and women rights in Duhok Governorate as stipulated in the new Iraqi constitution of 15th October 2005. Harikar is committed to- within its resources- contribute towards the achievement of the internationally agreed Millennium Development Goals.
Harikar believes in human rights, the right of every person to reach his potential without discrimination on the basis of race, gender, religion, social segment and ethnicity. We strive to achieve the social justice especially among the marginalized vulnerable groups. It also works towards elimination of all forms of discrimination against women and promotes their capacity to fully participate in the community development.
In order to keep a track of all our regular activities for Syrian Asylum Seekers (SAS) and IDPs, this bi-weekly report has been prepared. The report highlights the following services conducted by the Harikar/PARC teams and others as divided by camps.
Harikar’s projects are funded by:
CHAPTER ONE

PROTECTION, ASSISTANCE & REINTEGRATION CENTER (PARC) Harikar/UNHCR

PARC stands for Protection, Assistance, and Reintegration Centre which is a UNHCR funded project implemented by Harikar NGO. The importance of existing PARC lies behind its provided services to UNHCR POCs which generally aims to refugee protection.

PARC activities could be classified as; protection monitoring to identify gaps and offer them for solution and assure refugee’s access to basic social services, providing legal assistance to refugees and IDPs to be kept within the protection environment, registration based on standard UNHCR forms and database to keep the required information available whenever needed, providing cash assistance to off camp refugees in dire need to be an effective and appropriate form of relief assistance, GBV and SGBV services to assure that the risk of SGBV is reduced and the quality of response improved, QIPs implementation for the benefit of refugees and host communities so that both communities harmony is maintained.

</tr>
</tbody>
</table>

Challenges, Issues and gaps

- A great number of women (including pregnant women) who have anemia are not taking any required medicine and they do not visit doctors for consultation.
- Through health awareness raising sessions, the health team found that some pregnant women are not taking supplement and they think it will affect their fetus.
- Most of women do not know anything about family planning or they have misbelief on it.

Lessons learned / solutions (Recommendations)

- Harikar health team advised women with anemia to visit health centres for getting iron deficiency supplements.
- Harikar health team explained the benefits of pregnancy supplement for pregnant women and they advised women to take them because it benefits both mother and child (fetus).
- The health team elucidated the benefits of prenatal supplements for childbearing and insisted taking them by
- Some mothers think that milk powder is more beneficial to child growth.
- Some women stated their husbands object the idea of family planning because they think it is against their tradition and religion.
- Security issues, after the liberation of Talafar District and Ayadhiya sub-district, some Daesh (ISIS) members fled to Zummar and Rabia and there may be unsafe to travel to areas and villages of Zummar and Rabia.
- Recruiting girls in Zummar is very challenging because of culture, tradition and religion reasons. The female is not fully free to work there even the educated ones.
- Pregnant women because they are essential for babies as well as moms. Besides, the health team informed women that Harikar NGO has supplied DoH with pregnancy supplement and advised them to visit health centres to get them.
- The health team advised women who participated in awareness sessions on family planning to explain to pass the knowledge to their husbands on the benefits of family planning (e.g., mother health, economic benefits, etc.)
- Harikar project manager requested from Toleen Co. (The supplier) to open a training course for DoH staff ASAP and train them how to use the equipment properly.

**Other Activities**

- 3 more community health volunteers were recruited and trained. Harikar project manager gave two-day training on Family planning and on Field officers and community health volunteers methods of conducting health sessions and clarifying their roles and responsibilities.
- The community based activities have been increased and more awareness sessions on family planning, breastfeeding, Anemia, personal hygiene, etc. are held.
- Harikar project manager talked with DoH Zummar to put a better distribution mechanism for medication and supplements.
- Harikar project manager got an official permission from Sub-mayor and DoH Ninawa to install the incinerator outside Birdiya HC.
- Harikar NGO with DoH Zummar organized medical equipment and instruments in Rabia HC/Delivery Ward.
CHAPTER FOUR

LEGAL & SOCIAL CENTER

The purpose for the Legal Social Center (LSC) provided by UNDP is to enhance protection for vulnerable women and girls among the Syrian refugees SAS from Sexual Gender Based Violence (SGBV) and Trafficking, and heartland Alliance for providing legal assistance for all types of communities in Duhok governorate including (Refugees, IDPs, and Host Community).

4.1 RESORTING THE FUTURE: HELPING IRAQI RELIGIOUS AND ETHNIC MINORITIES RECOVER IN THE AFTERMATH OF THE ISLAMIC STATE OF IRAQ AND THE LEBANON
