

## SITUATION OVERVIEW

In August 2016, humanitarian partners released the Revised 2016 Yemen Humanitarian Response Plan (YHRP), resulting in a 7 per cent decrease in the number of people targeted with assistance, and 9.3 per cent decrease in financial requirements. Response progress and funding levels will be measured against revised targets and requirements starting in this issue of the Dashboard.

These decreases have been driven primarily by funding shortages and more focused prioritization. They do not reflect improvements in the dire humanitarian situation. With intensified air strikes and ground clashes, as well as continued bureaucratic impediments, humanitarian space in Yemen continues to shrink.

Despite many challenges, humanitarian partners have provided direct assistance to 4.6 million people since January 2016. As of 5 October, donors had contributed US\$762.4 million to the 2016 YHRP, or 47 per cent of total revised requirements (\$1.63 billion).

## KEY FIGURES

## FUNDING: 2016 YHRP

**\$ 1.63 billion** REQUESTED (US\$)

**47%** FUNDED

**\$ 762.4 million** RECEIVED (US\$)

### Requirements by cluster (million \$)

### Per cent funded by cluster

### Contributions (million \$)

Cluster	Requirements (million \$)	Funded %	Funded \$ million	Unmet \$ million
Food Security	746.0	38%	283.5	462.5

\* Task Force on Population Movement (TFPM) is a technical working group of the Protection Cluster and co-led by IOM and UNHCR

## STRATEGIC OBJECTIVES

- Provide life-saving assistance to people in need, prioritizing the most vulnerable
- Promote and advocate protection, access and accountability to and for affected people
- Ensure that all response activities promote equitable access to assistance for women, girls, boys and men
- Ensure that humanitarian action supports resilience and sustainable recovery

## FOOD SECURITY AND AGRICULTURE\*

8.0 million  
people targeted

63%  
monthly reached / targeted

5.1 M\*\*  
people reached

Improve immediate household availability of and access to food for the most vulnerable people in Yemen.

### Needs

Approximately 51% of the population (14 million Yemenis) are food insecure with 7 million severely food insecure. The food insecurity is expected to further deteriorate due to conflict-induced scarcity of basic commodities, disruption of markets, high prices of essential commodities, and dwindling livelihoods & income opportunities.

### Response

An average of 3.9 million people per month were reached with regular emergency food assistance in July and August 2016, while over 320,000 people have received emergency livelihoods assistance during the January to August period. There is a risk of a major scale down in emergency food assistance and part of emergency livelihoods assistance due to low funding levels.

For more information, contact: [gordon.dudi@fao.org](mailto:gordon.dudi@fao.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Emergency livelihoods assistance (agricultural, livestock and fisheries inputs or assets)	Individual	700,000	325,228	46.5%
Livelihoods restoration	Individual	200,000	16,815	8.4%

## HEALTH\*

10.7 million  
people targeted

43%  
reached / targeted

4.6 M  
people reached

Provide comprehensive, essential and life-saving healthcare services to affected and vulnerable populations; reinforce health system and strengthen resilience, livelihoods, and early recovery activities.

### Needs

With the Ministry of Health's capacity dwindling, basic health services have all but collapsed in Yemen. In particular, acute needs exist in hospital packages (mainly trauma and obstetric care), communicable disease surveillance and maintaining of the supply chain.

### Response

Partners have provided essential health services (including maternal and child health) through fixed and mobile teams; trauma and secondary healthcare; and provided medicines/supplies to health facilities (including renal dialysis solutions), thus reaching 4.6 million beneficiaries to date.

For more information, contact: [alisyedh@who.int](mailto:alisyedh@who.int)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Support trauma and surgical care (medicines, supplies, capacity building, deployment of surgical teams)	Individual	608,472	104,766	17.2%
Procure, distribute and maintain uninterrupted supply of medicines and supplies, including for primary, secondary and reproductive healthcare activities	Individual	10,546,101	1,010,331	9.6%

\* All cluster target and reach figures presented in the Dashboard also include relevant sectoral activities of the Refugees and Migrant Multi-Sector Response Plan (RMMS). Aggregated RMMS figures are also presented in the "Refugee and Migrant Multi-Sector" section.

\*\* This figure is for August 2016 only. Emergency food assistance has monthly targets; see graphic on page 1 for monthly trends in reach of emergency food assistance. Following the YHRP revision, the emergency food assistance monthly target decreased to 7 million people.

## NUTRITION

2.0 million  
people targeted

35%  
reached / targeted

0.68 M  
people reached

Deliver quality lifesaving nutrition services for children under 5 and Pregnant and Lactating women through CMAM and IYCF services as well as prevent malnutrition through provision of micronutrient, and blanket supplementary feeding for children under 2.

### Needs

Nearly 3 million people (74% children under 5 and 26% pregnant and lactating women) require humanitarian nutrition assistance. Almost 1.3 million children are acutely malnourished.

### Response

To date, the response has reached 682,056 children under 5 and pregnant and lactating women through different nutrition interventions.

For more information, contact: [jsmohammed@unicef.org](mailto:jsmohammed@unicef.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Treatment of severe acute malnutrition children 6-59 months	Individual	205,708	148,621	72%
Treatment of moderate acute malnutrition in children 6-59 months	Individual	427,293	120,995	28%
Treatment of acute malnutrition in pregnant and lactating mothers	Individual	283,879	124,141	44%

## SHELTER/NFI/CCCM\*

1.9 million  
people targeted

31%  
reached / targeted

0.58 M  
people reached

Provide adequate shelter for displaced persons in liveable and dignified settings.

### Needs

Rehabilitation of collective centres, damaged/destroyed houses and support to IDPs in host families and rental accommodation are critical priorities. The prolonged nature of the displacement is putting a strain on the scarce resources and therefore exposing both the IDPs and host families to heightened vulnerability. Limited funding is the major factor impeding the implementation of activities to meet the identified urgent needs particularly finding alternative shelter solutions for IDPs in schools.

### Response

In the months of July and August 2016, over 8,147 households have received Non-Food Items (NFIs) across 12 governorates. About 6,276 households received emergency shelter kits/ materials in 9 governorates, and 3 IDPs collective centres were rehabilitated in 3 governorates. In addition, 111 households were assisted with cash support for rental subsidies and 800 households assisted with cash in lieu for NFIs/Shelter materials. Over 550,000 people have been assisted since January 2016.

For more information, contact: [khansah@unhcr.org](mailto:khansah@unhcr.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Distribution of essential Non-Food Items to vulnerable IDPs and conflict-affected populations (blankets, mattresses, sleeping mats, kitchen sets, water buckets)	Individual	1,177,782	429,745	37%
Distribution of emergency shelter kits to vulnerable IDPs and other conflict-affected populations	Individual	658,160	149,938	23%

## EDUCATION

2.2 million  
people targeted

21%  
reached / targeted

0.46 M  
people reached

Address the education concerns of populations affected by humanitarian crises in a predictable and well coordinated manner.

### Needs

Schools need urgent rehabilitation. Alternatively, temporary learning spaces need to be established. Students need Psychological and Social Support (PSS). There is also a need to support the back to school campaign.

### Response

Ongoing emergency repair of classrooms with adequate WASH facilities continues in different governorates. Also 5,100 desk repairs have been completed in Sa'ada, PSS trainings and other activities targeted 4,833 beneficiaries in Amanat Al Asimah, Sa'ada, Aden and Lahj governorates and consultations with MOE, education offices, schools, and communities were carried out to support for back to school campaign.

For more information, contact: [gahamed@unicef.org](mailto:gahamed@unicef.org)

\* All cluster target and reach figures presented in the Dashboard also include relevant sectoral activities of the Refugees and Migrant Multi-Sector Response Plan (RMMS). Aggregated RMMS figures are also presented in the "Refugee and Migrant Multi-Sector" section.

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Emergency repair of classrooms	Individual	360,850	96,248	27%
Provision of school supplies	Individual	850,000	220,755	26%
Provide temporary classrooms for children and adolescents affected by the crisis	Individual	41,400	6,897	17%
Provide psychosocial support services to children	Individual	607,617	119,018	20%

## REFUGEE AND MIGRANT MULTI-SECTOR\*

0.54 million  
people targeted

41%  
reached / targeted

0.22 M  
people reached

Provide immediate life-saving services and direct protection assistance to migrants and refugees.

### Needs

Migrants and refugees are in need of immediate assistance such as food, WASH, health and shelter and direct protection. From January to August 2016, more than 87,342 migrants and refugees are estimated to have arrived in Yemen, crossing the Red and Arabian Seas.

### Response

The response for migrants has included identifying vulnerabilities and providing immediate assistance to unaccompanied minors, Gender Based Violence (GBV) cases, and victims of human rights violations. The response for refugees also included distribution of food, water, NFIs, shelter, health, and protection.

For more information, contact: [cmueller@iom.int](mailto:cmueller@iom.int), [maier@unhcr.org](mailto:maier@unhcr.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Provision of health assistance (emergency, primary, MISP - including HIV management, psychosocial counselling and services, health education)	Individual	175,527	140,018	80%
Provision of food and drinking water to refugees and migrants	Individual	128,010	99,906	78%
Migrants screened; asylum seekers and refugees registered and issued documentation	Individual	122,406	93,047	76%
Provision of shelter (emergency, temporary, camp) to refugees and migrants	Individual	124,643	86,978	70%
Provision of humanitarian admission programmes, assisted voluntary return, third-country resettlement for refugees and migrants	Individual	6,913	2,024	29%

## LOGISTICS

### Services facilitated

0.33 million litres of fuel procured, imported, and distributed

3,984 passengers transported by UNHAS

41 Air Services from Djibouti to Sana'a

47 Sea Shipments into Al Hudaydah and Aden\*\*

■ requested in 2016 ■ requested in 2015

Logistics support to emergency supply of fuel, storage, road, sea and air transport assistance.

### Needs

Humanitarian organisations in Yemen face a number of specific logistical challenges that continue to impede their ability to deliver relief supplies, such as: limited access, unpredictable fuel availability, and bureaucratic impediments.

### Response

Ongoing support to provide agencies with fuel. Continuous provision of overland transport to all humanitarian agencies present in Yemen. Weekly passenger transport between Aden and Djibouti is being provided. A total of 252 passengers have been transported since April 2016.

For more information, contact: [christophe.morard@wfp.org](mailto:christophe.morard@wfp.org)

\* Reach and targets for this specific cluster have been integrated into all relevant clusters. This is for presentation purposes only.

\*\* The number of sea shipment services has been revised.

## WATER, SANITATION AND HYGIENE\*

**2.3 million**  
Direct people targeted

**67%**  
reached / targeted

**1.6 M**  
Direct people reached

Support the repair and maintenance of affected WASH systems, and direct provision of WASH services and items to affected people.

### Needs

Urgent support is needed to keep urban water and sanitation systems from collapsing throughout the country. Major challenges are seen in Al Hudaydah where sewage is overflowing in the streets, creating a major health hazard, and in Aden, where a water reservoir needs urgent rehabilitation so that access to water is increased. Malnutrition rates and WASH related diseases are still on the rise, and there is a high need for an integrated WASH, Nutrition and Health response.

### Response

Over 1.5 million people have been assisted with emergency safe water provision throughout Yemen. By helping rehabilitate and maintain piped water systems, over 3.8 million people have received support. Lack of funds has impeded the required scale up in relation to the needs.

For more information, contact: [mbroekhuijsen@unicef.org](mailto:mbroekhuijsen@unicef.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Provision of emergency safe water supply to IDPs, vulnerable groups and conflict affected populations	Individual	1,232,846	1,120,048	90%
Provision of emergency sanitation solutions for IDPs, vulnerable groups and conflict affected populations	Individual	257,083	73,095	28%
Provision of adequate and appropriate hygiene items	Individual	1,166,741	555,978	48%

## PROTECTION\*

**3.4 million**  
people targeted

**50%**  
reached / targeted

**1.7 M**  
people reached

Monitor protection risks and rights violations; provide protection information and services; promote the centrality of protection through all humanitarian actions; and advocate for the protection of affected people.

### Needs

Over 3 million people are directly affected by displacement. The needs of IDPs, returnees and host communities continue to be huge. Protection concerns include lack of safety, limited freedom of movement, child recruitment, GBV violations, evictions, lack of documentation and violations of human rights and international humanitarian law.

### Response

Actions include targeted psychosocial, medical, legal and cash assistance to GBV survivors, vulnerable groups, and groups with specific needs. Services are provided at community centres, youth clubs and child-friendly spaces. There are mechanisms to monitor, document and record violations such as UNICEF's Monitoring and Reporting Mechanism (MRM).

For more information, contact: [alghoum@unhcr.org](mailto:alghoum@unhcr.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Provision of timely psychosocial support and legal assistance to survivors of protection incidents within IDP and affected communities	Individual	42,992	19,746	46%
Provision of timely financial and material assistance to survivors of protection incidents within IDP and other affected communities	Individual	148,686	72,572	49%
Provision of life-saving information on protecting themselves from physical injury/death due to mine/UXO/ERW	Individual	1,735,569	858,982	50%
Conflict affected children receive quality psychosocial support	Individual	578,954	389,169	67%
Provision of GBV services including referral of GBV survivors (health, legal, psychosocial and shelter)	Individual	11,863	4,156	35%
Distribution of dignity kits to most vulnerable conflict-affected women and girls and provision of post-rape treatment RH kits to the health facilities	Individual	108,000	46,550	43%

\* All cluster target and reach figures presented in the Dashboard also include relevant sectoral activities of the Refugees and Migrant Multi-Sector Response Plan (RMMS). Aggregated RMMS figures are also presented in the "Refugee and Migrant Multi-Sector" section.

## Emergency Employment and Community Rehabilitation

Protect communities from the threat of mines and Unexploded Ordnance (UXO), reduce risks rising from undisposed waste and strengthen local economies and infrastructure.

### Needs

Landmine/UXO contamination is registered in more than 15 governorates, some of which at critical level. Solid waste collection has dwindled in at least 6 key governorates. Households' access to savings has halved and access to social welfare benefits decreased by two-thirds compared to pre-escalation of conflict levels. Estimated monthly losses reach YER 68 million for large firms.

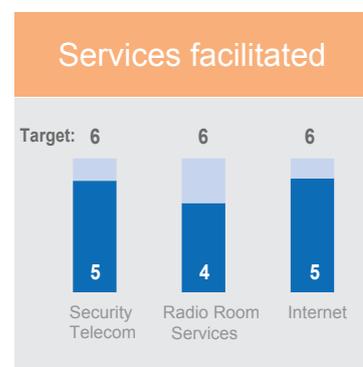

### Response

Mine/UXO clearance is ongoing in 11 governorates. Over 20,000 Explosive Remnants of War (ERWs) have been recovered and defused and 3,086 victims of mines and other ERWs were assisted in their recovery. Over 9,000 individuals have been employed in cash for work interventions focusing on community infrastructure and over 8,000 micro-businesses were supported. Over 1 million people are benefiting from emergency cleaning campaigns, clearing over 23,000 tons of accumulated waste hazardous to health, in 10 governorates.

For more information, contact: [sylvain.merlen@undp.org](mailto:sylvain.merlen@undp.org)

YHRP Monitoring indicators	Target type	Target	Reached	Reached/Target
Emergency mine action	Teams	738	391	53%
Emergency livelihoods stabilization (Cash for work)	Individual	16,620	9,262	56%
Solid waste removal - (only counting results in the 3 Immediate Governorates)	Tons	210,000	5,856	3%

## EMERGENCY TELECOMMUNICATIONS

Provide life-saving telecommunications, data services and power charging stations to support humanitarian action and increase staff safety.

### Needs

The affected population is the entire response community. The need for internet services in operational hubs and on the inter-agency mission boat remains.

### Response

Connectivity services to the 8th floor of the Diplomatic Transit Facility (DTF) have been established. The technical proposal for the deployment of back-up connectivity services for UN Agencies in Sa'ada and for both UN and NGO communities in Ibb is under development and negotiation.

For more information, contact: [khawar.ilyas@wfp.org](mailto:khawar.ilyas@wfp.org)
