All figures are estimates and have been rounded for clarity.

1. UNESCWA Dec 2014. This estimate of remaining population living in Syria is based on earlier displacement data, and is highly uncertain due to lack of a reliable pre-crisis population figure.
2. OCHA estimate.
4. UNHCR 12/2014.
5. UNRWA 09/12/2014. UNRWA recently revised its baseline estimate for Palestinians in Syria from 540,000 to 560,000. The new estimate is inconsistent with their detailed figures, so SNAP has continued to use the original figure.
6. OCHA Syria Strategic Response Plan (SRP) 2015
7. SNAP calculation (PiN-IDPs).
8. OCHA SRP 2015.
