

WASH Interactive 3W Mapping PDF -Typhoon Pablo

This page illustrates how to use the WASH 3W Interactive PDF which has additional mapping capacity to enable users to turn on and off layers that have been created in a GIS within a PDF document.

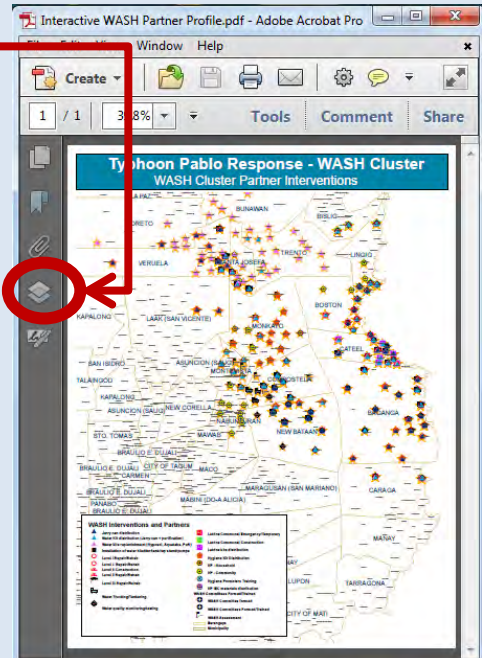

The only software required is Adobe Reader (free to download)

1. Go to map page (last page in this document)
2. Click on LAYERS Tab
3. Use the + symbol to extend layers

<input checked="" type="checkbox"/>	WASH Partner Locations
<input checked="" type="checkbox"/>	WV
<input checked="" type="checkbox"/>	Save
<input checked="" type="checkbox"/>	PRC
<input checked="" type="checkbox"/>	Plan International
<input checked="" type="checkbox"/>	HRC- OXFAM
<input checked="" type="checkbox"/>	CRS
<input checked="" type="checkbox"/>	ACF
<input checked="" type="checkbox"/>	WASH Interventions
<input checked="" type="checkbox"/>	WATER
<input checked="" type="checkbox"/>	SANITATION
<input checked="" type="checkbox"/>	HYGIENE
<input checked="" type="checkbox"/>	CAPACITY BUILDING
<input checked="" type="checkbox"/>	ASSESSMENT

4. Use the 'eye' symbol to turn on/off layers

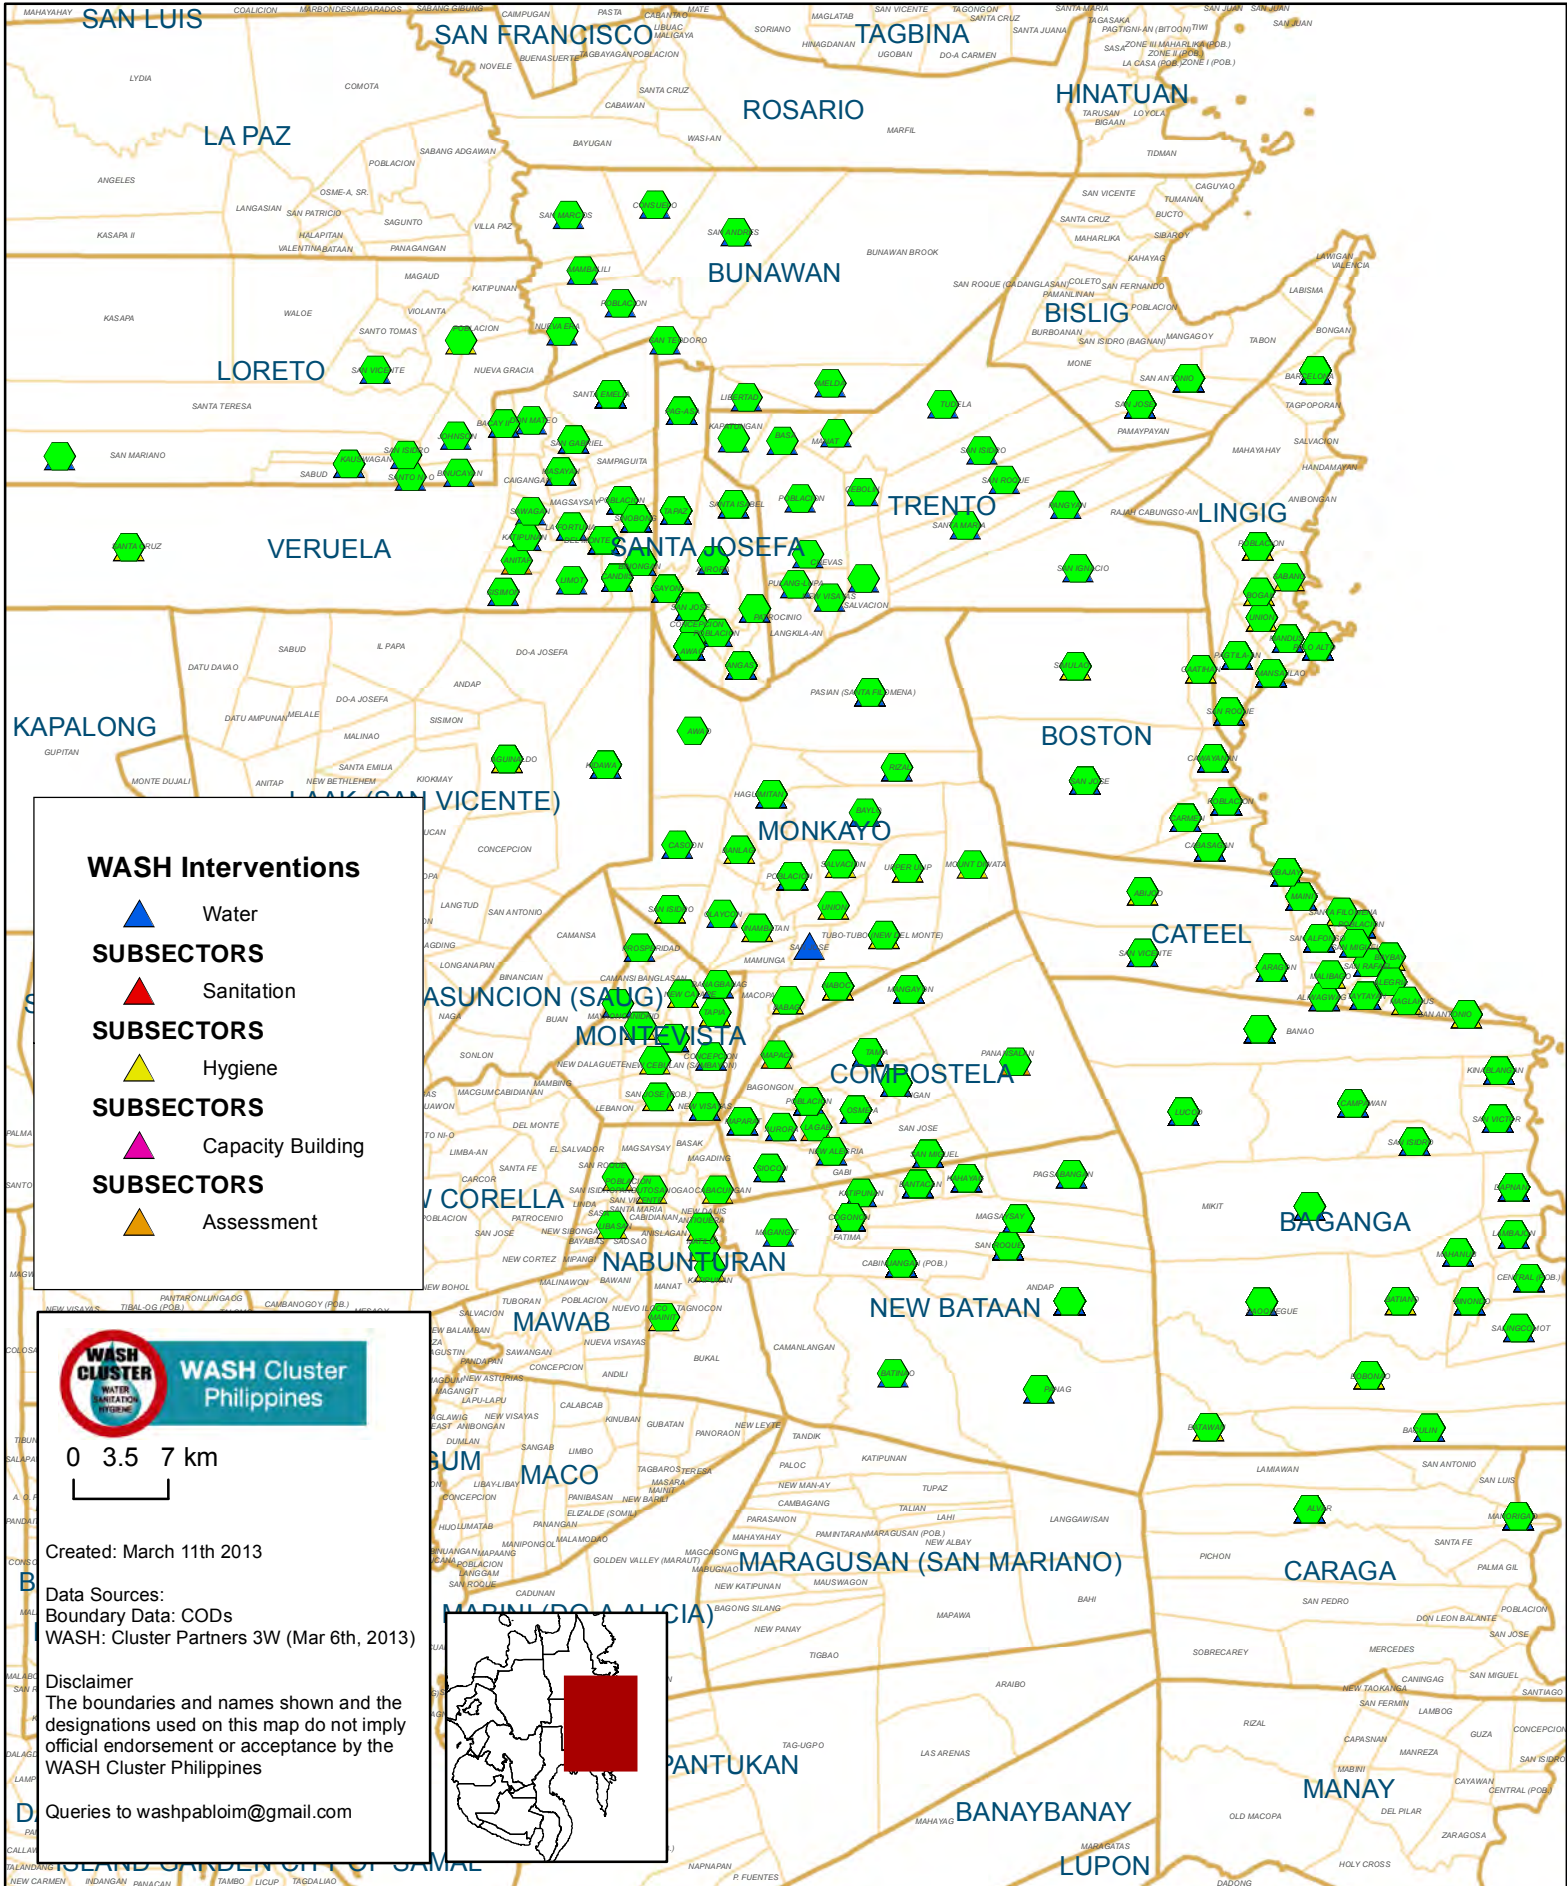

<input checked="" type="checkbox"/>	Plan International
<input type="checkbox"/>	HRC- OXFAM
<input type="checkbox"/>	CRS

(Automatically, the PDF opens with all layers turned on. Please use the eye symbol to turn the layers off and then begin by turning on the layers that you are interested in)
