The map is for information purposes only and has no political significance. The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by MSF.

The main purpose of the map is to highlight where people have no access to safe water. The pie chart segments in brown (surface water), red (salty water borehole) & purple (open wells), 'borehole fresh' & 'borehole salty' depending on the proximity of the village to fresh & salty boreholes.

The number of households per drinking water source (borehole | open well | surface water) & per village,
