

MALI: Immediate food insecurity risks levels (as of 13 February)

- High risk
- Medium risk
- Low risk

Given the volatility of the situation, this map will be updated on a regular basis. For the compilation of this map, the following indicators were considered, among others: livelihoods, markets (fluxes and prices levels), security, presence of IDPs.

The boundaries and names shown on this map do not imply official endorsement or acceptance by the United Nations.
