

SITUATION OVERVIEW

Ongoing conflict is devastating Yemen. Humanitarian partners now estimate that 21.2 million people – or 82 per cent of the population – require some kind of humanitarian assistance to meet their basic needs or protect their fundamental rights. The severity of needs among vulnerable people has also intensified across sectors as a political solution continues to be absent and abuses continue to occur in the context of widespread insecurity and in disregard of international humanitarian law and human rights law. Compounding this reality, in November, two cyclones battered the Island of Socotra and Yemen's southern coastline, increasing the suffering of men, women, and children in Yemen's southern region. Despite the challenges, humanitarian have continued to deliver much needed assistance and to reach people in need, across the entire country.

Information from the Food Security and Agriculture and Protection clusters is missing due to on-going response data analysis. The December dashboard will include the missing information.

STRATEGIC OBJECTIVES

- 1 Save lives**
 Provide effective and timely life-saving assistance to the most vulnerable people in Yemen
- 2 Protect civilians**
 Assist and protect people affected by crisis, including refugees, migrants, internally displaced persons (IDPs), and returning Yemenis
- 3 Build capacity for humanitarian response**
 Strengthen the capacity of national actors to plan for and respond to humanitarian emergencies
- 4 Reduce vulnerability**
 With development partners, including the Government, address underlying causes of vulnerability, reduce the need for continued humanitarian assistance and increase resilience
- 5 Ensure equitable access to services**
 Ensure meaningful participation and equitable access to services, resources, and protection measures for women, girls, boys, and men

Early Recovery

1.1 million people in need

16% reached / in need 16% reached / target

178,913 people reached

1.2 million people targeted

Support conflict affected communities across Yemen to jump-start a sustainable process of recovery.

Needs

Extended UXO contamination is confirmed throughout the country. About 26% of businesses have closed due to the conflict (42% for women-owned enterprises). 95% of closed businesses reported physical damage. Uncollected waste remains a significant public health threat.

The cluster has increased its support to clear solid waste from conflict affected communities, provide emergency employment opportunities and support small scale business, and conduct high-impact mine action activities in Amran and Amanat Al Asimah.

For more information, contact federica.dispenza@undp.org

YHRP monitoring indicators

INDICATOR 1: Number of individuals participating in community dialogue sessions	35,455	9,210
INDICATOR 2: Number of people employed through cash-for-work activities	29,532	10,502
INDICATOR 3: Number of buildings safely demolished with removal of debris for recycling	23	1,995
INDICATOR 4: Metric tons of solid waste collected with subsequent safe disposal	64,216	1,019,762

Water, Sanitation and Hygiene

20.4 million people in need

24% reached / in need 95% reached / target

4.8 million people reached

5.1 million people targeted

Provide effective and timely life-saving water, sanitation and hygiene assistance to the most vulnerable people in Yemen.

Needs

IDPs and over-stretched host communities need WASH services, including safe water, toilets and hygiene materials. Urban areas with high population density are affected by the crisis and suffer from deteriorated or disappearing WASH services (water, solid waste management and sewage treatment).

Response

Partners supported local water corporations in 10 governorates with fuel for pumping water. IDPs and war affected people in 11 governorates received trucked water, and hygiene kits in 17 governorates, while latrines were constructed in four governorates.

For more information, contact dhkim@unicef.org

YHRP monitoring indicators

INDICATOR 1: Number of people with access to 7.5 - 15 litres/person/day from water trucking or non-fuel support to water systems	876,454	407,480
INDICATOR 2: Number of people reached through fuel support to local water corporations	3,536,000	3,706,800
INDICATOR 3: Number of people with latrines / toilets conforming to minimum standards	37,575	156,350
INDICATOR 4: Number of people with access to basic hygiene kits (as per Sphere / Yemen WASH cluster standards)	390,345	973,785

Health

15.2 million people in need

48%
reached / in need

7.3 million
people reached

71%
reached / target

10.3 million
people targeted

Provide integrated packages of essential life saving health services including first aid, trauma care and causality management.

Needs

Ongoing hostilities constrain health supplies distribution and access to health facilities. Those that are functioning are doing so at sub-optimal levels and mostly lack fuel and medical equipment and medicines. The population needs access to primary health care services and surgical care.

Response

7.3 million people have been assisted with 3.3 million with primary health care services, medicines, emergency and reproductive health kits. WHO delivered 35 MT of medical supplies, sufficient for 120,000 people, to Hadramaut, Shabwah, Maharah and Socotra governorates affected by Cyclone Chapala.

For more information, contact alfreddube@msn.com

YHRP monitoring indicators

INDICATOR 1: Number of people supported with trauma kits distributed to referral hospitals	42,500	102,502
INDICATOR 2: Population having access to comprehensive primary healthcare services	3,267,459	4,116,231
INDICATOR 3: Number of children vaccinated against measles / rubella / polio	6,201,724	5,969,880
INDICATOR 4: Number of people benefitting from essential supply kits (IEHK, DDKs, RH kits, etc., excluding trauma kits) provided to health facilities	3,298,905	10,290,578

Nutrition

1.6 million people in need

262%
reached / in need

4.2 million
people reached

266%
reached / target

1.6 million
people targeted

Safeguard and improve the nutrition status of emergency affected populations by predictable, timely, and effective and at scale response.

Needs

Affected populations require Outpatient Therapeutic Feeding, Targeted Supplementary Feeding Programmes, and nutritional support to pregnant and lactating women.

Response

During an August campaign 3.8 million children received micronutrient supplementation, exceeding the 0.9 million YHRP target. 126,376 children under five were treated for Severe and 125,250 for Moderate Acute Malnutrition, and 178,833 pregnant and lactating women received supplementary feeding.

For more information, contact sabdullah@unicef.org

YHRP monitoring indicators

INDICATOR 1: Number of Severe Acute Malnutrition (SAM) boys and girls treated	126,376	143,000
INDICATOR 2: Number of Moderate Acute Malnutrition (MAM) boys and girls treated	125,924	323,000
INDICATOR 3: Number of pregnant or lactating women provided with targeted supplementary feeding	178,833	221,000
INDICATOR 4: Number of children receiving micronutrient supplements	3,766,293	913,652

Shelter/CCCM/NFI

1.2 million people in need

31%
reached / in need

374,781
people reached

31%
reached / target

1.2 million
people targeted

Shelter and NFI support to the vulnerable population affected by the conflict and support the local authorities on finding solutions for IDPs residing in schools.

Needs

The continuing escalation of the conflict, and its shift to new locations added further strain on the already precarious humanitarian situation. The Cluster estimates 2.5 million internally displaced people and other affected population require immediate assistance across 21 governorates.

Response

In November, 72,789 individuals received NFIs (in Shabwah, Hajjah, and Hadramaut, and six other governorates) and the cluster distributed emergency shelter kits to 17,717 individuals (primarily in Hajjah but also in Abyan and Shabwah). Also, 4,200 individuals in Hajjah received cash for rental subsidies.

For more information, contact fernandn@unhcr.org

YHRP monitoring indicators

INDICATOR 1: Number of individuals assisted with NFIs	362,157	1,162,528
INDICATOR 2: Number of individuals assisted with emergency shelter kits	126,698	404,845
INDICATOR 3: Number of individuals assisted with emergency shelter (tents)	14,854	105,036
INDICATOR 4: Number of individuals assisted with rental subsidies	13,085	356,917

Education

2.9 million people in need

20% reached / in need 63% reached / target

576,511 people reached

915,882 people targeted

Enable a predictable, well coordinated response that addresses the education concerns of populations affected by humanitarian crises.

Needs

Ongoing fighting continued to threaten the return of children to school at the beginning of November. A considerable number of schools remain either damaged or used as shelter by IDPs and were not ready to receive children.

Response

When schools reopened in November, the cluster helped to integrate children into rehabilitated public schools or temporary learning spaces and provided education materials. Teachers and other stakeholders were trained on life skills and psychosocial support.

For more information, contact amodhesh@unicef.org

YHRP monitoring indicators

INDICATOR 1: Number of boys and girls with access to safe Teaching and Learning Spaces	2,100	21,000
INDICATOR 2: Number of conflict-affected school children participating in psychosocial support activities	4,398	106,733
INDICATOR 3: Number of students enrolled in rehabilitated schools and provided with student desks	29,590	105,748
INDICATOR 4: Number of students enrolled in conflict-affected schools provide compensational learning program	538,529	904,326

Logistics

77 requests were received for sea transportation of relief items from Djibouti to Al Hudaydah and Aden

Facilitate effective coordination, information sharing, and emergency response by providing fuel, storage, and transport support to the humanitarian community.

Needs

The humanitarian community needs access to sufficient and reliable logistics free of charge, and consolidated information related to logistics capacities and cargo tracking services, to maintain an uninterrupted supply of life saving relief items to the affected populations.

Response

Between November 16 and 18 December, the cluster transported 60 m³ of freight by sea, 2,445 m³ by road, and 146 m³ by air.

For more information, contact qaseem.ghausy@wfp.org

Emergency Telecommunications

ETC services provided

Provide life-saving telecommunications, data services and power charging stations to enable the humanitarian community to assist affected populations.

Needs

Requirements include radios, satellite phones and radio rooms; radio training for users, drivers and radio operators; Internet cafes for the inter-agency community, national and international NGOs as well as power charging stations and solar power solutions.

Response

The cluster completed installation of COMCEN in UNHCR premises in Aden and upgraded COMCEN in the Diplomatic Transit Facility in Sana'a. ICT equipment is being pre-positioned in Djibouti and Internet service on Mainport Cedar vessel is being upgraded.

For more information, contact michael.dirksen@wfp.org

Multi-sector for Refugees and Migrants

0.9 million people in need

Protect and reduce the dangers faced by refugees and migrants through urgent humanitarian assistance.

29%

reached / in need

255,889
people reached

48%

reached / target

529,785
people targeted

Needs

The continuing high levels of refugees and migrant arrivals into Yemen require food, water, NFIs, shelter, health, and protection. The most vulnerable require humanitarian admission programmes, third-country resettlement, or emergency voluntary return.

For more information, contact ridung@unhcr.org & cmueller@iom.int

Response

Premises in Aden and Hudaydah were rehabilitated to accommodate new migrants. More than 100,000 refugees received multi-sectoral protection and assistance services. So far 50,000 new arrivals (refugees, asylum seekers, migrants) have been assisted with life-saving services at the coast.

YHRP monitoring indicators

INDICATOR 1: Number of refugees assisted with humanitarian admissions or resettlement programmes, plus number of vulnerable migrants assisted with voluntary emergency or assisted return and reintegration

INDICATOR 2: Number of refugees and vulnerable migrants provided with temporary shelter

INDICATOR 3: Number of vulnerable migrants screened plus number of asylum seekers and refugees registered and issued documentation

INDICATOR 4: Number of refugees, asylum seekers, and vulnerable migrants provided with food and drinking water

INDICATOR 5: Number of refugees and vulnerable migrants assisted with health care
