### Beneficiary Numbers: Breakdown by Location

If the distribution took place in multiple locations and/or the beneficiaries had multiple places of origin, please complete this table indicating the number of beneficiaries per location and/or place of origin.

Payam	Boma	Households	Individuals	
			Total	
Pibor South	Tangazon	15	Total	<b>96</b>
			Total Female	47
			Total Male	49
	Gogolthin	25	Total	<b>155</b>
			Total Female	81
			Total Male	74
	Bee	30	Total	<b>209</b>
			Total Female	107
			Total Male	102
	Lanyeriz	30	Total	<b>198</b>
			Total Female	104
			Total Male	94

### Stock Distributed

Procuring organization and warehouse from which stock was sourced

**IOM**

**Quantity of each item distributed per household**

*- specify variations by household size*

1. Plastic sheet =	5. Kitchen set =1/2
2. Sleeping mat = 1	6.
3. Mosquito net = 1	7.
4. Blanket = 1	8.

**Total quantity of each item distributed in the response**

1. Plastic sheet =	5. Kitchen set =104 pcs
2. Sleeping mat = 100 Pcs	6.
3. Mosquito net = 100 Pcs	7.
4. Blanket = 100 Pcs	8.

Type of Item	Brand/Manufacturer	Style/Version #	Size	Colour	Other
1. Plastic Sheet	IOM		4 x 6	White	
2. Blanket	IOM			Grey	
3. Mosquito net	IOM			Blue	
4. Kitchen Set	IOM			White	
5. Sleeping Mat	N/A			Several colours	

### Summary of Distribution

- Where was the distribution held and how was it organised?
- What and how were beneficiaries informed?
- How was equal access ensured for men, women, girls and boys?
- How was order maintained during the distribution?

The distribution was held in Pibor town near the airstrip by INTERSOS with the help of RRC of Pibor town, Local Authority and village chiefs of Pibor South community; and hired casual workers aided the distribution of this loose NFIs items.

Pre-distribution meeting was held with Local Authority and INTERSOS. The Authorities were informed this distribution was part of previous distribution with left-over S/NFIs. On ground mobilization of the beneficiaries

was completed in one (1) day before the distribution date. During meeting, the emergency response team clarified the specific items the beneficiaries were going to receive.

Mobilization was done before the distribution date with the help of the volunteer community mobilizer and village chiefs, who conveyed the message of the distribution to the beneficiaries.

A central distribution was conducted by INTERSOS near Pibor airstrip for one (1) day. The team choose the airstrip because it was accessible by all the beneficiaries.

Recommended guidelines were also communicated during the mobilization. The beneficiaries were informed that minors will not be allowed to access the distribution site and to receive items on behalf of their parents.

About complains during distribution, beneficiaries were not allowed to raise complaints especially those regarding lost tokens. Complaints were handled by local authority after the distribution exercise.

INTERSOS hired; 4 crowd controller, 4 enumerators, 3 splitters, and 2 labours responsible for laying items ready for beneficiaries to collect.

Crowd controllers were engaged in controlling and directing the beneficiaries and ensuring that distribution procedures were followed. The beneficiaries were urged to follow lines which were demarcated by the crowd controllers. Separate lines were made for the pregnant, lactating mothers, elderly and the disabled. This process helped in the smooth running of the distribution exercise.

The NFIs materials were airlifted by UNHAS (logistics cluster) cargo plane from Bor warehouse to Pibor town and the items were temporarily stored at PLAN International rub-hall till end of distribution. The team on the ground hired casual workers that helped in offloading the items from the plane and carrying them to the PLAN International rub-hall.

**What actors were involved in the decision-making regarding the distribution process?**

*-Explain what role the following people had in the process: local authorities, partners, humanitarian officers, volunteers, beneficiaries, etc.*

INTERSOS as the lead partner on the ground took the sole responsibility of hiring casual workers like, crowd controllers who helped in maintaining order in the whole distribution exercise, splitters to remove blankets, sleeping mats, plastic sheet from the bale, Ushers who helped in arranging the items ready for each beneficiary, enumerators who helped to verify and check the beneficiaries names in the standard NFIs sheet before proceeding to receive items.

PLAN International, partner on ground helped the team with storage facility for the NFIs items.

Pibor county RRC also played a very vital role since assessment, verification and issuing of tokens up to the distribution exercise. He helped a lot in briefing about the security situation in the county, coordinating between the team and the village chiefs through organizing and always present on the ground with the team during meetings up to the time of distribution handling complaints raised.

Local authority, village chiefs and community leaders of Pibor south payam etc. helped ERT in identifying casual workers, community mobilization especially before distribution.

**Changes from assessment recommendations**

*-If there were any changes to the original plan, please explain what changes occurred and why they were necessary.*

No changes were observed as per the assessment recommendations.

**Targeting criteria**

*-Who finally received and why? Did the group to be targeted change in any way between the initial assessment and those who received on distribution day?*

The target criteria remained the same as per the assessment plan; the IDPs who were displaced due to the fighting that took place between the Mulres and Dinka's that forced most people to flee from Gumuruk, Namam River, Likuangole to Pibor North and South payams of greater Pibor county and some of the vulnerable host community who were registered and issued tokens received the NFIs items.

**Challenges and lessons learned**

*-Did you face any major challenges, and/or learn any useful lessons?*

Challenges

The severe flooding that occurred in the area made movement of the team very hard. We had to use boats that were not reliable.

**Recommended next steps**

*-Should any further action be taken in the area by the Shelter and NFI Cluster, or other actors?*

Due to the floods, water points have been affected which calls for WASH interventions

**Anecdotes, Stories, Photos**

*-Please share any interesting or illustrative stories of people's experiences, responses, and needs; and photos*
