NATIONAL EMERGENCY OPERATIONS CENTRE

SITUATION REPORT

Event: Hunga Tonga Hunga Ha'apai Volcanic Eruption
Sit Rep No: 06
Date: 19 January 2022
Period: 11am Tues 18th Jan – 10am Wed 19th Jan 2022

This situation report released by the National Emergency Management Office (NEMO) is to inform operational partners on current situation of secondary effect of the Hunga Tonga Hunga Ha’apai (HTHH) Volcanic eruption. This Situation report (Sitrep) covers the period stated above. Frequency of reports will depend on availability of new information and evolving operation.

Highlights

- The tsunami warning for HTHH volcanic eruption on 15 Jan 2022 was cancelled on 17 Jan 2022 at 10am.
- Interisland and international communication (inc. internet) remains non-operational.
- Current priority requests from the affected and impacted communities:
  - Clean drinking water
  - Fuel – diesel
  - Food
- Affected population approx. 84,776 (84% of population, Tongatapu, Ha’apai, ‘Eua); Impacted population – approx. 99,059 (99% Tongatapu, Ha’apai, ‘Eua, Vava’u)\(^1\)
- Ha’apai advised as at 10am 19 Jan 2022 – Ha’apai has no fuel.
- Ha’apai’s Emergency Operations Centre reported from immediate situation overview:
  - 16 households (from Pangai to Houma Tofua) severely damaged,
  - Government buildings severely damaged (Governor’s office, Ministry of Police building, Ministry of Justice),
  - Faesheare from Holopeka to Pangai severely damaged,
  - Urgent request for clean drinking water.
  - Foni – 85 people directly affected (as per 16 households directly affected
  - Mango – 36 people\(^2\) directly affected, 12\(^4\) households directly affected
- ‘Eua Emergency Operations Centre reported from immediate situation overview:
  - Drinking water is out of stock at shops,
  - Limited fuel available, will affect power supply
- Relief distribution continuing based on requests to National Emergency Operations Centre
- NEMO water relief distributions to date: 14,999 litres of water
- NBOC received 46 calls, with 24 of these urgent, in the last 24 hours.

Current situation
- The HTHH volcanic eruption followed by the tsunami warning triggered an immediate evacuation of communities on 15th January 2022, particularly coastal communities.
- The National Emergency Operations Centre (NEOC) was activated on Fri 14th Jan 2022, due to a tsunami marine warning.
- Communities sought safety during the tsunami and further volcanic eruptions on the night of the 15th January 2022 at evacuation centres (church halls, community halls).
- Relief distribution is underway to affected communities in Tongatapu and to Ha’apai – water, hygiene kits, food, tents and tarpaulin, kitchen kits.
- Planning is underway to provide relief items to ‘Eua for 20 January 2022.

Tongatapu focus
- Relief distributions on 18 January 2022

<table>
<thead>
<tr>
<th>Location</th>
<th>Distribution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Kanokupolu &amp; Ha’atafu</td>
<td>HM Queen Nanasipau’u distributed food rations of milk noodles, beef (2kg) and crackers per household. 136 households: 58 households in Ha’atafu; 78 households in Kanokupolu.</td>
</tr>
<tr>
<td>Vahe Habake</td>
<td>5,833 ltrs of water</td>
</tr>
<tr>
<td>Vahe Hihifo</td>
<td>5,000 ltrs of water (‘Ahau &amp; Vaotu’u)</td>
</tr>
<tr>
<td>Individual Households</td>
<td>168 ltrs (Holonga &amp; Maufanga)</td>
</tr>
</tbody>
</table>

- Tonga Power – 90% power has returned; remaining 10% is Kanokupolu and cleaning electricity lines along coastal areas of Hihifo.
- Tonga Red Cross also continues to provide relief to affected communities. An update on quantities will be available in the next SitRep.
- IDA data review for assessed Tongatapu communities is underway.

‘Eua Update
- ‘Eua DEOC Manager had audience with His Majesty King Tupou VI at 6pm.
- Food stocks in shops are decreasing (sugar, rice, flour, tinned fish, tinned corned beef, salted beef, chicken, lamb).
- Education Cluster recommendation is to delay school start for health & safety purposes.
- No drinking water at shops.

Ha’apai Update
- Daily updates are currently scheduled between NEOC and Ha’apai DEOC at 4pm.
- Ha’apai DEOC requesting access to TFES for access to resources, including water truck, awaiting.
- Tungua Island has damaged houses as reported to Ha’apai DEOC. All Tungua residents sought shelter and remain at Siaosi Sesi Tonga Tau’ataina and Free Wesleyan Church Buildings.
- Matuku, Tungua and Kotu all in good health as reported by VOFa Ngahau Koula.

Vava’u Update
- On Wed 18th Jan 2022, Vava’u District Emergency Operations Centre Manager contacted NEOC for the first time since Sat 15th HTHH volcanic eruption.
- Reported very low diesel stocks available which is likely to run out by Sunday 23 Jan 2022.
- Request for clean drinking water.
- Daily updates are currently scheduled between NEOC and Vava’u DEOC at 4pm.

Cluster Response
- On Tuesday 18th January 2022, a full Cluster meeting was held at Fa’onelua Centre at 11am to provide updates on current immediate response activities and plans:
  1. Essential Services
     a. Tonga Power – 90% of Tongatapu restored.
b. Tonga Water Board – allocated one water supplier at Mataki-Eua to assist NEMO with water distribution to the community.

2. Safety & Protection
   a. Providing psychosocial support to evacuees at Liahona and those that evacuated from ‘Atata community.
   b. Plans to provide more psychosocial support to affected communities

3. Food Security & Livelihood
   a. Plans to support farmers in affected coastal areas by providing two hours for ploughing.

4. Health, Nutrition, Water, Sanitation and Hygiene (HWNASH)
   a. Sent teams to Ha’apai for health checks and to provide psychosocial support.
   b. Public notice issued to advise public that tap water is safe to drink, following water quality testing.
   c. Continuous water testing for water safety.

5. Emergency Shelter & Non food items
   a. Distributing tents, tarpaulin, hygiene kits, kitchen kits to affected communities.

6. Logistics & Coordination
   a. Coordinating and supporting relief efforts with Cluster members to affected communities.

7. Shelter (Reconstruction)
   a. Currently clearing roads and clearing areas.

8. Education
   a. In ‘Eua, recommendation to delay start of school for health and safety reasons.
   b. Plan to clean schools and ensure the school water is safe by testing through HNWASH.

Background

The Hunga Tonga Hunga Ha’apai (HHTH) volcanic activity commenced on 20 December 2021 and was immediately heightened to red for aviation. Tonga Geological Services monitored the volcanic activity providing public health advice from 20 December 2021 until 2 January 2022. Environmental and public health warnings were provided about the potential of water contamination from the ash fall and potential of acid rain in Ha’apai. Advice included information on potential of fish poisoning due to volcanic fluid polluting the ocean and raising awareness on the hazardous areas surrounding the islands and ensuring the public kept clear of these areas. TGS continued to monitor HHTH and noted that there was no activity from 2nd January to 11th January 2022.

On 14th January 2022 TGS reissued an alert at 7am, following increased volcanic activity as Tongatapu and ‘Eua communities were impacted by the smell of sulfur.

On 14th January 2022, Tonga Met issued a Tsunami Marine warning from the National Tsunami Warning Centre at 11.12am directly to the public. The warning was cancelled for Vava’u and Ongo Niua in the evening of Friday 14th Jan 2022 and for the remainder of Tonga on Sat 15th Jan 2022 in the morning.

Further updates
NEMO will provide the next SitRep at the next meeting or within 24 hours or as the situation may evolve, as determined by NEMC.
