153 TB CONFIRMED CASES
IOM is providing follow up for 52 cases under DOT and follow up for their contacts where 96 TB cases completed their treatment successfully.

NEW ARRIVALS IMMUNIZATION
AND SUPPORT TO NATIONAL IMMUNIZATION CAMPAIGNS
IOM teams are immunizing Syrian Refugees upon arrival in Raba’a Al-Sarhan transit center (RSTC).

IOM works with the Jordanian Ministry of Health (MoH) and partners on the nation-wide immunization campaigns.

The national immunization campaigns targeted millions of individuals
under 20 years old against measles and German measles (MR)
under 5 years old against polio

IOM provides the first health screening and Triage for Syrian refugees arriving in Jordan at RSTC; individuals identified with urgent life threatening condition and/or at high risk are internally refer to the responsible health partner in the center while individuals identified for follow-up treatment are referred to the responsible health partner inside the camps.

IOM teams are immunizing Syrian refugees in Za’atari Camp and providing transport support to some MoH teams to reach Syrian families in remote locations.

MEASLES AND POLIO VACCINATION AND VITAMIN A SUPPLEMENTS
Measles 120,664
6 months to 30 years 4,407
6 months to 30 years
Polio 68,835
0-15 years 4,407
0-15 years
Vitamin A 37,372
6-59 months 4,407
6-59 months
Since April 2013

First health screening and triage
IOM provides the first health screening and Triage for Syrian refugees arriving in Jordan at RSTC; individuals identified with urgent life threatening condition and/or at high risk are internally refer to the responsible health partner in the center while individuals identified for follow-up treatment are referred to the responsible health partner inside the camps.
