

# Burkina Faso

1 November to 31 December 2020

According to the National Council for Emergency Relief and Rehabilitation (CONASUR), as of 31 December 2020, there are **1,074,993 internally displaced persons (IDPs)** – almost double the number from last December 2019.

**The Presidential and legislative elections** took place on 22 November and saw the re-election of President Christian Roch Kabore. The inauguration took place on 28 December in Ouagadougou.

With the support of national authorities to reinforce the security in and around the Goudoubo camp and of partners for the rehabilitation of infrastructures, UNHCR helped close to **5,000 refugees to return to the camp.**

## KEY INDICATORS

**57,000**

documents, including 20,000 **birth certificates** and 37,000 **national identity cards**, provided to IDP and host communities

**7,721**

**Emergency shelters** provided to IDPs

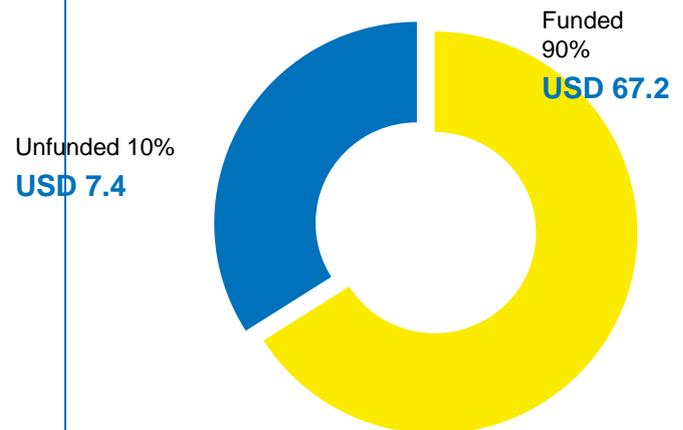

**USD 100,000**

Worth of **material and trainings**, to support the national authorities of the Sahel region to **facilitate the electronic registration of new births** through “iCivil”.

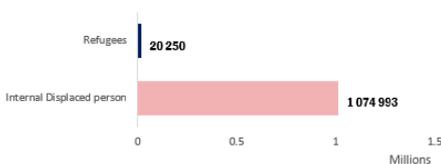

## FUNDING (AS OF 31 DECEMBER 2020)

**USD 74.7M**

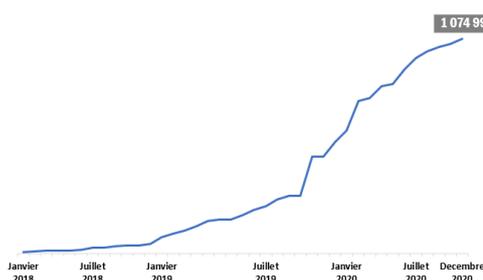

requested for the Burkina Faso Operation

## Operational Context

The security situation in Burkina Faso remains volatile, with continued attacks targeting the Forces of Defense and Security (FDS) and civilians, particularly those suspected of collaborating with the FDS. A variety of security incidents affected the regions of the Boucle du Mouhoun, the Cascades, the Centre-North, the East and the Sahel and an upsurge in criminality has been observed in Ouagadougou during the reporting period.

According to the National Council for Emergency Relief and Rehabilitation (CONASUR), as of 31 December 2020, 1,074,993 individuals, including a majority of children (54%) and women (47%), have fled their homes seeking safety – almost double the number from December 2019. As of 31 December 2020, there were 20,284 refugees and asylum seekers, mainly from Mali, registered and currently residing in the Sahel region.

The Presidential and legislative elections took place on 22 November in Burkina Faso. The current President, Roch Marc Christian Kaboré, was reelected with 57.87% of the votes. The official inauguration ceremony of President re-elects, took place in Ouagadougou on 28 December 2020, with a limited number of guests attending due to restrictions linked to the COVID-19 pandemic. Several Statespersons from the region and the Special Representative of the Secretary-General and Head of the United Nations Office for West Africa and the Sahel, Mohamed Ibn Chambas, were present.

### Relocation of refugees to Goudoubo camp

In 2020, the refugees and asylum-seekers living in Burkina Faso have also been impacted by violence. The majority were living in two camps, Mentao and Goudoubo, near the border with Mali. Following a series of attacks and ultimatums by armed groups, over **9,000** refugees left **Goudoubo camp**, with some 5,000 opting to return home to Mali where UNHCR assisted them on arrival, while the rest settled in the nearby town of Dori, alongside IDPs.

On several occasions, refugees had requested to be allowed **to return to the camp**, a place they considered “home” since they first settled there 2012.

National authorities have reinforced security in and around the camp, and UNHCR and partners, including the National Commission for Refugees (CONAREF), built and rehabilitated 1,500 shelters, and infrastructures, such as schools and health facilities. UNHCR also worked towards the return of livelihoods and, so far, **500 vulnerable refugee families have received support to rebuild their livestock and start farming again.**

UNHCR and partners continued sensitization campaigns in the camp about preventative measures. Pieces of soap and hand washing devices were provided during the relocation exercise in Goudoubo and more hand-washing facilities are being constructed in different locations of the camp to reinforce the respect of preventative measures and prevent the spread of the virus.

## Main achievements

### PROTECTION

- UNHCR and partners continue their efforts to strengthen protection monitoring in order to identify and respond to the needs of the displaced populations, including women at risk, children, people living with disability and the elderly. Those most vulnerable were provided with cash and were referred to pertinent institutions and organizations for follow up. Following the elections in Cote d'Ivoire, UNHCR continues to closely monitor any possible cross-border movements. So far, there have been no arrivals of Ivorian citizens.
- In the context of the global #ibelong campaign to eradicate statelessness by 2024, UNHCR in Burkina Faso has strengthened efforts to mitigate the risk of statelessness. In collaboration with the General Directorate on the Modernisation of the Civil Status, UNHCR has supported the authorities of the Sahel with close to 100,000 USD (54 million XOF) worth of material (including computers, tablets and smart phones) as well as trainings to facilitate the electronic registration of new births with a new system called "iCivil". UNHCR facilitated access to documentation for IDPs and host communities through the provision of 20,000 birth certificates and 37,000 national identity cards in the regions of Sahel, Centre-North and North during the reporting period, bringing the total number of documents provided to IDPs and host community to 185,450 between March and December 2020.
- UNHCR is also sustaining its coordination and sensitization efforts to address Sexual and Gender Based Violence (SGBV) more effectively and comprehensively in Burkina Faso. Awareness and sensitization campaigns on social cohesion, forced marriages, denial of resources and services available for survivors of SGBV benefitted over 930 people in several localities in the regions of the Center-North and the Boucle du Mouhoun. Mobile health clinics have expanded their reach and intensified activities and during the reporting period. In the Sahel and Centre-North regions, UNHCR's partners, the Cooperation and Support Initiatives for Humanitarian and Development Actions (ICAHN) mobile teams, provided SGBV services in IDP sites and in locations that are difficult to access.

---

- To mark the launch of the 16 Days of Activism Campaign for 2020 under the theme: “UNITE to End Violence against Women. Orange the world”, UNHCR offices across the country conducted sensitization activities with a specific focus on forced and early marriage and risks and difficulties faced by informal women workers. So far, a total of 91 campaign activities took place and have touched around 6,980 persons of concern (PoCs) to UNHCR and brought together Government representatives, UN Agencies, other partners, women’s and faith-based organizations, community leaders, IDPs, and other PoCs to UNHCR.

- In the regions of the Centre-North, North and Sahel, through its financial service provider, UNHCR has distributed some USD 37 (20,000 XOF) to over 6,400 women and girls of reproductive age for the purchase of dignity kits.

#### COVID-19 RESPONSE

- As of 29 December 2020, there were 6,631 confirmed cases of COVID-19 in Burkina Faso, including 84 deaths and 4,978 recoveries. The month of December have seen a sharp increase in contaminations. The number of COVID-19 cases has also increased amongst UNHCR staff, with seventeen still active. In light of the number of cases amongst UN staff, the UN County Team (UNCT) has decided to implement teleworking arrangements for a period of three weeks in the entire country, from 21 December 2020 to 11 January 2021, while ensuring continuity of services as applicable. All staff members were reminded of their responsibilities to respect the protective measures.
- UNHCR and its partners continue to support the Government in addressing the crisis and focusing its efforts on sensitization, prevention and response to mitigate the impact of COVID-19 on PoCs in nine regions of the country. Distribution of material to facilitate the respect of preventive measures, including hand-washing devices, soap, hand sanitizers and masks, for COVID-19 and of awareness sessions continued across the country.
- UNHCR has supported the Minister of Health with the donation of a vehicle, motorbikes and sanitary material, for a total worth of almost USD 133,000 (71.6 million XOF). This comes in addition to the almost USD 2 million (980 million XOF) of items donated to regional authorities in the country in their efforts to fight the COVID-19 outbreak and the ongoing support for the rehabilitation and construction of health infrastructures in the Sahel.
- Similarly, UNHCR office distributed hydro-alcoholic gels and surgical masks worth close to USD 4,500 (2,475,000 XOF) to the National Federation of Road Transport Actors (FENAT). As part of the Asylum and Migration project, FENAT supports UNHCR in raising awareness against irregular migration and facilitates the referral of people falling under the UNHCR’s mandate in mixed migration flows.

### SHELTER AND CRIS

- UNHCR continues to strengthen the shelter response and the distribution of core relief items (CRIs) throughout the country. During the reporting period, 7,721 shelters were built in the Centre-North, North and Sahel regions.
- So far, in 2020, in Burkina Faso, more than 18,500 families were assisted in shelters and 6,225 families in essential household items by UNHCR and its partners - which constitutes more than 40% of the interventions planned by other partners in the shelter sector.

### EDUCATION

- As part of its efforts to enhance distance learning through the project funded by Education Cannot Wait, some 1,800 radios have been distributed to students of the host and refugee communities in Bobo Dioulasso, Dori and Ouagadougou. The radios come with a mini solar plate, to facilitate recharging even in areas without access to electricity, and with lamps in case the students have to study at night.

### ENVIRONMENT AND ENERGY

In order to promote the use of clean energy and peaceful coexistence and to reduce the risks of SGBV that women face when collecting firewood, almost 2,700 women from the IDP and host communities received eco-friendly cooking stoves. In addition, 116 women from IDP and host communities, were trained and built 800 improved cooking stoves. These stoves consume less energy, thus reducing the burden on the environment. Each of the 11 groups of women benefited from around USD 470 (250,000 XOF)

deposited in their savings account to start income generating activities and strengthen their self-reliance.

## Working in partnership

- In Burkina Faso, the Refugee Agency works with a network of 16 partners, including the Government of Burkina Faso, UN sister agencies, International and National Non-Governmental Organizations, and development actors.
- Through the support of the UN Peacebuilding Funds, UNHCR is working in close cooperation with UN sister agencies on two peacebuilding and peaceful coexistence projects. In December, the Peace Building Support Office has accepted the joint proposal submitted by UNFPA and UNHCR for a budget of USD 2.5 million for a 24 months project aiming at strengthening social cohesion in the Centre-North region.
- With UNHCR's technical and financial support, the Ministries of Justice and Foreign Affairs and Cooperation held a workshop to discuss a draft law on a statelessness determination procedure, including the appointment of the National Commission for Refugees (CONAREF) as the responsible entity for this procedure. The draft law is planned to be adopted in 2021 and will allow the Government to have a unique structure for the determination of refugee status and statelessness.

## Financial Information

So far in 2020, total recorded contributions for the operation amount to USD **67.2 M**. UNHCR is grateful for the critical support provided by donors who have contributed to this operation as well as those who have contributed to UNHCR programmes with unearmarked or broadly earmarked funds.
