---

1. UNICEF Weekly COVID-19 Sitreps are available on Relief Web.
2. The numbers in the map represent the total of positive cases, the figures are based on data from the Ministry of Public Health situation reports.
3. This is a measure of the number of people engaged through RCCE engagements to promote prevention and access to services, and to support communities during the COVID-19 pandemic and build community resilience.

*These program targets are being reset based on greater implementation capacity than originally expected.
