**UNICEF RESPONSE**

### Non-food items (NFI) response

- 18% of affected population benefited from NFI kit
- 37,461 people provided with NFI kit
- 5,330 households reached

### WASH response

- 14% of affected population benefited from WASH intervention
- 28,761 persons reached in Dosso department
- 3,966 households reached

Since the beginning of the rainy season UNICEF has supported the Government in providing non-food items (NFI) to 5,330 affected families (37,461 people) in all the regions of Niger except for Niamey. Each NFI kit included tarpaulins - rope - plastic mat - blankets - Long Lasting Insecticidal Nets - water container - pieces of soaps - cotton fabric (6 yards) - bucket - hygiene kit - kettle.

The UNICEF response also included rehabilitation of water points, provision of household water treatment products and sensitiz sessions on cholera prevention. In particular, 12,761 people in Gaya and Dosso departments have received water treatment products, 3,329 people have been sensitized and 32 wells were disinfected, benefiting 16,000 people overall.
