Damage assessment of Daraa, Daraa Governorate, Syria

This map illustrates satellite-detected damage in the city of Daraa, Syrian Arab Republic. Using satellite imagery acquired 16 April 2016, 04 June 2015, 01 May 2014, 07 September 2013, and 14 December 2010, UNITAR - UNOSAT identified a total of 1094 affected structures within the extent of this map. The city-wide analysis of Daraa revealed a total of 1206 affected structures, of which 223 were destroyed, 411 severely damaged, and 572 moderately damaged. Trend analysis shows an increase in the number of damaged structures since 04 June 2015 and approximately 200 structures are newly damaged. This analysis was done as part of the REACH initiative for the U.S. Office of Foreign Disaster Assistance. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR - UNOSAT.
