Satellite detected water as of 26 August 2020 in Niamey and Tillaberi regions of Niger

This map illustrates satellite-detected surface waters over Niamey and Tillaberi regions in Niger as observed from Sentinel-2 image acquired on 26 Aug 2020. Within the analyzed area of about 1,400 km², a total of about 60 km² of lands appear to be flooded. Based on Worldpop population data and the detected surface waters, about 90,000 people are potentially exposed or living close to flooded areas. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR - UNOSAT.

Legend

- City/Town
- Airport
