This map illustrates locations of damage and indicators of combat in Aleppo as seen in satellite imagery acquired on 1 September and 3 September 2012. Analysis by UNITAR/UNOSAT of the city found multiple areas of damage to buildings and infrastructure caused by fighting, especially in the southwest quadrant of Aleppo. Numerous buildings are completely destroyed and many buildings show signs of damage. In addition, debris areas and heavy vehicle tracks are common in much of the city. Lastly, many roadblocks were visible throughout Aleppo. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR / UNOSAT.
